THOMPSON MAN, M'ANDREW FOE, NEW BOARD HEAD

Is Superintendent to Walk Plank?

(Picture on back page.)

J. Lewis Coath, manager of the picture and calendar department of the Manz corporation, was elected president of the school board yesterday afternoon over the incumbent, Walter J. Raymer, by a vote of 6 to 3. Immediately after the meeting, the problem of ousting Supt. William McAndrew became the subject of discussion in school and political circles. The first development was an announcement that a picture of George Washington will be hung in the board headquarters.

Mr. Coath was Mayor Thompson's choice for the board presidency and he is said to have promised to carry out the mayor's preëlection pledges that Supt. McAndrew would be discharged as soon as possible. Coath has been McAndrew's foe on the board for many months. A study of the situation revealed, however, that no immediate action to oust the superintendent could win in the board.

Won't Back McAndrew Ouster.

Although three Dever appointees voted for Mr. Coath in the election, they would not back him up in a move to oust McAndrew at this time, a canvass of the members indicated yesterday. There was no hope among Mr. McAndrew's enemies that he would solve their problem by resigning, and those interested in school affairs wondered how Mr. Coath will carry out the mayor's campaign pledge before Mr. McAndrew's term expires next January.

"Mr. McAndrew has a stronger hold than ever on his position and I believe that he will retain it until his term expires in January," said Mr. Raymer. "None of the trustees who are behind the superintendent will resign."

The trustees are also mindful, it was said, of what happened to the board members who forced out former Supt. Charles E. Chadsey. They were found guilty by a court of having acted without cause and some went to jail for terms of a day or so. Some legal reason for firing McAndrew must be found before action against him is taken, it was admitted.

Dever Appointees Divided.

The Dever appointees were split in the voting. Three cast their ballot for Mr. Coath and three voted for Mr. Raymer who declared he was not a candidate. Mr. Coath, once in office, wiped the old guard off the list of important committees and outlined a new policy of city council control in all school affairs. John A. English was unanimously chosen vice president of the board.

Immediately after his installation Mr. Coath received a delegation of Ravenswood citizens, headed by William J. Sandberg, president of the Ravenswood Business Men's association and six R. O. T. C. students from Lane Technical High school who presented him with a large framed picture of George Washington and an American flag.

"Jack," said Mr. Sandberg, after explaining to the board that the delegation was composed of Mr. Coath's neighbors, "we're proud of you. Here's one of the finest flags in Chicago. We want you to keep it here."

"I am glad," replied Mr. Coath, "to see George and the American flag back in the board of education."

Coath Outlines Policies.

Mr. Coath then outlined the policies of the new school administration, which are regarded as being diametrically opposed to those of the administration he succeeds.

"I believe," he said, "that this board of education should be as much a part of the city government as the city council, and I urge that we endear ourselves to the rest of the city government. I regard the city council as the voice of the people in the wards. The people of Chicago have expressed themselves. It is up to us to follow that expression."

Walter H. Brandenburg's nomination of Mr. Coath was seconded by Mr. English. Dr. Otto L. Schmidt, who has been ill for two weeks and who left his bed to attend the meeting, then nominated Mr. Raymer. This was seconded by Mrs. W. S. Hefferan.

How Trustees Voted.

Neither candidate voted. Trustees English, Brandenburg, James A. Hemingway, Theophilus Schmid, Oscar Durante, and Charles J. Vopicka supported Mr. Coath. Mr. Raymer re-

BOY SHOOTS GIRL AS TWO EXAMINE "LOCKED" PISTOL

Harriet Shaw, 16, 1816 West Adams street, a student at the McKinley High school, was shot last night by James Woods, a 19 year old neighbor. She is near death in the Presbyterian hospital from a bullet wound in the abdomen. Woods was arrested by Sergt. Lester Breitenriter of the Warren avenue station. The youth said he had just purchased the pistol and was showing it to the girl when it accidentally discharged.

Bud Wilson, 2153 Washburne avenue, who sold the gun to Woods, was also taken into custody. Woods said he had paid Wilson $1 for it. Woods said he fired two shots in the air and when he went into his home Miss Shaw followed him in and asked to see the weapon. He was demonstrating how the safety catch worked and, believing it locked, he pointed the gun at the girl and fired. She fell to the floor. Her sister, Dorothy, 22, ran to a nearby drug store and summoned a physician, who notified the police.

SHOUTS IRRITATE MAN; HE FIRES AT BOYS, HITS BOTH

Shouts of two boys playing in an alley in the rear of his home at 2111 West Erie street irritated Frank Crocoli, 67 years old, so much last night that he appeared on his back porch and fired several shots at the boys from a .22 rifle.

Edward Masenburg, 10 years old, 2111 West Erie street, was wounded in the knee and taken to the County hospital. The other boy, John Silvesta, 9, of 2100 West Ohio street, was hit in the ankle.

Crocoli was arrested and locked up at the West North avenue station. He declared that he had warned the boys to cease playing because their noise disturbed his sleep.

Payne Whitney Dies Suddenly Playing Tennis

(Picture on back page.)

New York, May 25.—[Special.]—Payne Whitney, prominent sportsman, one of the richest of Americans, son of the late William C. Whitney and brother of Harry Payne Whitney, died suddenly today on the tennis court of his country home, at Manhasset, L. I., of acute indigestion.

Mrs. Whitney was attending a luncheon at the Colony club here. Word was telephoned to her of her husband's sudden illness and she started at once for Manhasset in her automobile. The run was made in 25 minutes under police escort, but Mr. Whitney had died before she arrived.

At the Belmont race track as soon as the news was received the flags were lowered to half staff. The Harry Payne Whitney entries for the day were all scratched, including Whiskery, the Kentucky Derby winner.

Captain of Yale Crew.

Payne Whitney was born in this city 51 years ago, the second son of William C. Whitney. Like his father and elder brother, he went to Yale, where he was graduated in 1898. While there he achieved fame as an oarsman and was captain of his college crew.

After leaving Yale he took a law course at Harvard, and in 1902 he married Miss Helen Hay, daughter of the late John Hay, secretary of state and at one time ambassador to Great Brittain. The marriage, which took place in Washington, was a brilliant affair, attended by President and Mrs. Roosevelt. Among the wedding gifts was the house at 972 5th avenue, which the Whitneys still have.

Put Wealth at $300,000,000.

Mr Whitney was for many years a power in financial circles, although comparatively little was heard of him in that field. He was an active philanthropist in a generous, but unostentatious way, so that almost nothing was known of his benefactions.

Wall street estimates his wealth as more than $300,000,000, basing the estimate on the income tax payments that Mr. Whitney made for the years 1924 and 1925. In 1924 he paid $2,041,951 in taxes, being in that year the third largest individual income tax payer in the country, only Henry Ford and John D. Rockefeller ranking above him.

POLISH GUNBOAT TO DANZIG AFTER ROW OVER PORT

[Chicago Tribune Press Service.]

DANZIG, May 25.—The strained relations between the free state of Danzig and Poland grew acute today with the arrival of a Polish gunboat at Danzig, simultaneously with the arrival of a Polish munition ship at Westerplatte peninsula. The controversy is over the use of this peninsula, lying at the mouth of the Vistula and supposed by the peace treaty to be open to Poland for munitions importation. Danzig insists on the right to control these shipments and prevent the Poles from turning the peninsula into a purely commercial port. The gunboat is considered to be a Polish threat.

NEW STEAMSHIP RAMMED AT SEA ON TRIAL TRIP

New York, May 25.—[Special.]—The new 17,200 ton steamship, Malolo was rammed amidships by the Norwegian freighter Jacob Christensen in a fog about 15 miles west southwest of the Nantucket light ship, late this afternoon.

The Malolo, built at a cost of $7,000,000, for the San Francisco-Honolulu trade, had left the builders' dock on the Delaware river on Tuesday to make her trial trips off the coast of Maine. The Jacob Christensen was bound for New York from Bergen, Norway.

A radio message to the Associated Press by William P. Roth, president of the Matson Navigation company, one of the guests on board, said the Malolo had water in her fire hold and was unable to proceed under her own power. There were no casualities. The Jacob Christensen had her bow crushed in, but the forward bulkhead was holding and she was proceeding slowly to New York.

According to radio messages, the Malolo is in no danger of sinking, but two ships are standing by for any emergency. Three powerful tugs are en route from New York to tow the Malolo into port.

CANDLE ON ALTAR BRINGS DEATH TO GIRL IN FLAMES

(Picture on back page.)

Lois Audrey Hermes, 4 year old daughter of Mr. and Mrs. Matthew P. Hermes, was fatally burned late yesterday when her clothing caught fire from a candle she had just lighted on an altar in her home at 815 Oakton street, Evanston.

The child had seen her older sisters and other members of the family light the candles on the little altar in an upper room in the house. Just as she lighted the candle yesterday a gust of wind from an open window blew her dress directly over the candle light and in a moment she was in flames.

As the child ran screaming down the stairs and out of the house her mother, Mrs. Lucille Hermes, seized her, put out the flames and stopped a passing motorist, who took her to St. Francis hospital, where she died several hours later.

The child's father is a salesman for R. R. Donnelley & Sons, printers.

U. S. HOLDS UP PARIS GOWNS OF MRS. VANDERBILT

New York, May 25.—(AP)—The New York Daily News in a copyrighted story says that a trunkload of Paris gowns and frocks, owned by Mrs. William K. Vanderbilt II., and sent to this country in the care of a maid, has been held up by customs officers because of a discrepancy in the customs valuations.

Mrs. Vanderbilt, who was granted a divorce in Paris about two weeks ago, has not yet returned to this country.

Her maid returned on the Olympic last night and gave customs men the value as her mistress had dictated. The trunk was taken to a government store for appraisal by experts.

Municipal Hall Bonds Get O K in Legislature

(Picture on back page.)

A rapid fire schedule of work on Chicago hall was outlined last night by President Anton J. Cermak of the county board after word had been received that the legislature at Springfield had authorized issuance of bonds to pay the cost of construction and purchase of a site for the auditorium, subject to approval of the voters.

Gov. Len Small is expected to sign the bill providing for the bond issue immediately. The following steps are then proposed in order that Chicago may bid for the Republican and Democratic national conventions in June, 1928, supporting its invitations by pointing to a completed civic auditorium seating 35,000 or more and costing approximately $15,000,000:

1. The county board will meet Saturday in emergency session and vote to put the $15,000,000 bond issue proposition on the ballot at the judicial election June 6.

Predict Voters Will Approve.

2. A campaign to put over the proposition will be inaugurated. No opposition has yet developed and it was freely predicted that the voters will approve the bond issue.

3. The citizens' commission, which has already done much work in regard to selection of a site and designs for the hall, will speed up its operations and make a final report within sixty days after the election.

4. The site will be purchased and bids for construction work advertised. If the schedule as outlined thus far is adhered to, actual construction will start before Sept. 1. According to architects, the hall can be completed before the following June.

Cermak Praises Civic Spirit.

"It sounds incredible but nothing is incredible in Chicago when the public really wants something," said Mr. Cermak. "This city only dreamed of a civic auditorium a few months ago. Now it is to become a reality."

The executive committee of the citizens' commission met in the Hotel Sherman at a luncheon yesterday noon and made several important decisions. At the suggestion of E. R. Graham of the firm of Graham, Anderson, Probst & White, architects, the cost of the proposed auditorium was set at $15,000,000.

"If the commission decides to accept a site which will be free, such as that offered by the south park commissioners, then the county board will not sell the entire bond issue, but only enough to pay for the cost of the auditorium," said Mr. Graham.

Consider Sites in Secret.

Chairman William R. Dawes announced that secret investigations were being made in regard to a site. Because of the fact that property owners may try to boost values if they become aware of the commission's decision, no public announcement will be made until arrangements have been made to get the site, he said.

One important provision in regard to a site was agreed on by all members of the commission. The hall must be built within a few minutes' walking distance of the loop, it was stipulated. Visitors to conventions here must not be forced to travel a long distance from their loop hotels to the convention hall, it was agreed.

A seating capacity of 35,000 should be enough to meet all requirements, the commission decided. Figures are now being gathered showing how often such a capacity would be taxed.

Cermak Gets Mayor's O. K.

President Cermak announced that he had conferred with Mayor Thompson and that the latter had pledged his full support to the plan.

"The public should be assured that politics and politicians will have nothing to do with the building of this auditorium," Mr. Cermak declared. "All plans will be prepared by the commission composed of civic leaders who have no axes to grind. Their work will not be completed when they have selected a site and drawn up designs. They will supervise construction and see that no money is wasted."

'LINDY' DONATES PRIZE TO KIN OF FRENCH FLYERS

Plans Air Tour of Much of Europe.

BY HENRY WALES.
[Chicago Tribune Press Service.]
[Copyright: 1927: By The Chicago Tribune.]
(Pictures on back page.)

PARIS, May 25.—Capt. Charles A. Lindbergh, who, single handed, flew across the Atlantic ocean from New York to Paris, dug himself deeper into the hearts of France today by donating the special 150,000 francs [$5,850] prize from Mme. Deutsche de la Meurthe for the creation of a fund for the benefit of families of French aviators who lost their lives "for the benefit of aviation."

He also gave all Europe a thrill by announcing he had practically decided to make a trans-European flying tour, visiting Brussels, London, Copenhagen, Berlin, Vienna, Rome, maybe Madrid, and then Paris. The trip would require another couple of weeks, as Lindy will remain a couple of days in the various capitals while covering the additional 3,000 miles.

And once more he declared in simple but certain words that the millions of dollars in movie and stage contracts, which are being dangled before him, did not interest him. He will continue to devote his time to aviation.

Aids Families of Airmen.

In the midst of another day of ovations and fêtes, including a visit to the French parliament and luncheon with Louis Bleriot, the first man to fly the English channel, Capt. Lindbergh took time to draft this letter to the president of the Aero club:

"Madame de la Meurthe's gift has touched me beyond expression. I feel however that I would be less worthy of the gift if I did not feel that the French welcome is sufficient reward for my flight. One thing dampens my joy, and that is the sad fate of Captains Nungesser and Coli.

"Because I understand the French sorrow for their airmen and because I share their grief I couldn't take this gift from France to America. The greatest favor I can request is that instead of purchasing a cup you accept this money for a fund for families of French aviators laying down their lives for aviation. I would not have had the means to express my homage to these two gallant airmen, but since Madame de la Meurthe has generously made it possible for me, I offer this sum with grateful acknowledgement to her as an indication of my affection for France and my appreciation of her generous welcome."

Invited to Many Lands.

Capt. Lindbergh has received official invitations from the chiefs of state of the various countries he contemplates visiting and royal bids asking him to be the guest of kings and presidents in most of the capitals. He probably will prefer to stay with the United States government's representatives, as he is doing here, and tonight he announced that he would live at the American embassy in Brussels as the guest of the American chargé d'affaires, and with Ambassador Alanson B. Houghton in London.

The foreign offices of the various powers interested in the trip, through their diplomatic delegates in Paris, urged "Lindy" to make the tour, pointing out the advantages of him visiting other capitals while in Europe on such an auspicious occasion.

Representatives of the smaller powers, Holland, Denmark, Norway, Poland, Switzerland, Czecho-Slovakia, Hungary, Jugo-Slavia, also are keenly trying to induce the trans-Atlantic flyer to stop over in their capitals. If the European flight is made, "Slim" probably will not sail for New York before the middle of June, as he firmly intends to pass several days in Paris quietly before sailing.

Flight Causes Political Reactions.

Capt. Lindbergh's flight is having a strong political reaction besides arousing the enthusiasm of countless millions. The pilot's successful crossing has done much to ameliorate the Franco-American relations that the British, who at first were rather cool to the achievement, now are red hot, and insist that "Lindy" visit England.

The Marquess of Crewe, British Ambassador, made three calls at the American embassy, tendering official invitations for Capt. Lindbergh before he received the promise of the Yank pilot that he would cross the channel. Germany and Italy also are keenly alive to the powerful repercussions in their relations with America arising from Lindy's visit, and their diplomatic representatives have been striving tooth and nail to secure the youthful flyer's pledge to go to Berlin and Rome also.

All the coldness, due to the misunderstandings and ill advised publicity which sprung up between France and the United States since the war over high prices, profiteering, war debts and falling exchange have been forgotten, for the moment at least. Lindy's wonderful exploit, plus his personality, has completely won every one who has seen him.

"Not Through Flying."

When Parmely Herrick, the American ambassador's son, asked him if it was not customary for aviators to retire from flying after accomplishing a record feat, Lindy replied:

"Any one who thinks I am finished flying is seriously mistaken."

"Lindy" revealed his intentions of continuing air work tonight when I asked him if he proposes to go on flying when he returns to the United States.

"I certainly will continue my career in aviation, and as a pilot—flying," he said, with conviction.

When asked about a round-the-world flight for a $1,000,000 prize, "Lindy" said:

"If the offer has been made I have not seen it yet, and won't comment on it until it is put before me," he continued.

Ignores Movie Contracts.

The blonde youth with millions offered him by screen, stage, lecture tours, and advertisement testimonials continues to ignore the contracts offered him, stating that he positively is not interested in that sort of thing. Thousands of communications sent to him from all parts of the world—even Russia, China, and South Africa—have been carefully read and sorted, awaiting his perusal, but thus far he has declined even to read them or have them read.

"We did not make the flight with that idea," is the way he dismisses the subject of "get rich quick" contracts.

Those close to Capt. Lindbergh say the pilot is ambitious to organize a big, comprehensive commercial passenger air service in America, eventually extending to the foreign field.

Examines His Plane.

Capt. Lindbergh motored to Le Bourget in Ambassador Myron T. Herrick's big Rolls Royce this morning. He walked across the flying field to the hangar where his plane, the "Spirit of St. Louis," is housed.

The pilot was pleased to see patches on the fuselage and wings covering rents and holes cut or torn Saturday night on his arrival. But an examination of the motor revealed certain parts missing or bent, apparently by souvenir hunters anxious to get bits of the vitals of the machine as keepsakes. To Lindy's surprise only 21 gallons of gas was foundin the five tanks when they were unsealed and emptied.

Capt. Lindbergh returned to town in time to attend luncheon with Louis Bleriot at his home in Avenue Kleber, a stone's throw from the Etoile and the majestic Arch of Triumph. M. Bleriot had invited fifty guests, including Louis Barthou, M. Bokanowski, Paul Painleve, Louis Renault, and Charles Fontaine, a Frenchman living in England, who first encountered M. Bleriot in 1907 when the Frenchman flew the channel. M. Bleriot showed some models of his spidery little machine of twenty years ago, and gave the American a bit of wood from the propeller of the first channel plane.

"Lindy" made one of those modest little speeches, which have so thrilled Paris because of their simplicity.

Visits French Parliament.

About 3 o'clock, Capt. Lindbergh was whisked to Quai d'Orsay for an official call on the president of the chamber of deputies and an inspection of the lower house of parliament. Although the chamber was not in session, nearly all the 600 deputies, with lots of friends, including plenty of the fair sex, were on hand to greet him and drink his health in champagne.

With Ambassador Herrick, Capt. Lindbergh dined tonight with Senator and Mme. Paul Dupuy, where he met the cream of French society. He returned to the embassy early and went to bed.

He will call on Marshal Foch tomorrow morning in a little apartment opposite the Invalides, then lunch with Foreign Minister Briand in Quai d'Orsay, where, in the great cloakroom, the plenary sessions of the peace conference were held in 1919.

From there "Lindy" is going to the Hotel de Ville to be received by the municipal authorities, and then to tea at the Interallied club.

He will make stops at various European capitals to which he has received invitations. DE PINEDO PLANE RIDES ROUGH SEA IN TOW TO PORT

Wing of Italian "Ship" Reported Broken.

BY MANUEL LYRA.

[Copyright: 1927: By The Chicago Tribune.]

LISBON, May 25.—Dispatches from Horta, in the Azores, state the Portuguese sailing vessel Infanta Vesagres, which is towing Commander de Pinedo's seaplane, touched at Fayal and is proceeding to Horta. Commander de Pinedo shouted to shore, saying he did not want assistance and his plane was in good condition. The Portuguese government is sending the cruisers Gileannes and Beria with petrol and oil and orders to give all assistance which may prove necessary.

Plane Faces Rough Seas.

HORTA, ISLAND OF FAYAL, Azores, May 25.—(AP)—A rough sea today created unfavorable conditions for the towage of Commander de Pinedo's seaplane, which was reported yesterday in tow of a sailing schooner about 240 miles west of this island.

The plane came down in the sea while attempting to hop from Trepassey, Newfoundland, to this port. There has been no further authoritative news since yesterday's dispatches stating that one of the wings of the plane was crippled and that there were other minor damages.

Renew Hunt for Nungesser.

ST. JOHNS, N. F., May 25.—(AP)—Search for the two missing French aviators, Capts. Nungesser and Coli, was renewed today on the testimony of two men who reported that, while working in the woods two miles inland in the vicinity of Burin Monday, May 9, they had heard a crash that might have been caused by a falling airplane.

G. A. Bartlett arrived from the Burin district today and said that Henry Collins and his son of Paradise sound, an inlet of Placantia bay, told him that while working in the woods about 10 o'clock Monday morning, May 9, they heard a crash as if some heavy object had struck the ground on the cliff side of Paradise gulch.

Body of Boy Missing for Ten Days Found in River

Police last night took the body of Eugene Kader, 9 years old, 2438 Keeler street, who has been missing since May 16, from a slip in the river near 22d and Loomis streets. The body was identified early this morning by the boy's sister, Miss Valentina Kader.

CITY AND COUNTY PIN NEW HONORS ON YANKEE FLYER

Invited Here as Airport Is Named for Him.

Chicago and Cook county yesterday officially recognized Capt. Charles A. Lindbergh as an international hero, both paying honor to him. The city council appointed a committee to meet the flyer at New York and to invite him to a public reception in Chicago. The county board by resolution named the new air field near Maywood the "Capt. Charles A. Lindbegh Flying Field of Cook county."

Both bodies extolled the young aviator for his historic New York to Paris flight and were vigorous in commending his disinclination to commercialize the feat.

Mayor Cables Invitation.

Mayor William Hale Thompson announced he has cabled Frank Bering, manager of the Hotel Sherman, who is in Paris, instructing him to press an invitation to the pilot to be the honored guest of Chicago on his return.

The council's resolution to appoint a committee to meet Lindbergh in New York was presented by Ald. A. J. Horan, a World war flyer. It pointed out that Lindbergh pioneered the successful start of the air mail service between Chicago and St. Louis, was present at the dedication of the Municipal Flying field of Chicago, and therefore is as much Chicago's as St. Louis', New York or Paris'. Ald. Leonard J. Grossman also introduced a resolution authorizing a civic reception.

Members of Committee.

Ald. Horan was appointed chairman of the committee. The other members are Aldermen B. A. Cronson, W. D. Meyering, O. F. Nelson, Dorsey Crowe, John Toman, and George Maypole.

The county's resolution naming the flying field after Lindbergh was introduced by Commissioner Harry A. Newby.

In the federal building a score of souvenir and historical collectors besieged J. E. Mansfield, chief examiner of the railway mail service, with offers as high as $150 for an envelope bearing the official signature of Lindbergh as an air mail flyer.

HERRICK LOOKS ON LINDBERGH AS BEST TYPE OF U. S. SPIRIT

PARIS, May 25.—(AP)—Having been the happy host of Capt. Lindbergh since he landed in France, Myron T. Herrick, the American ambassador, gave his impressions of the youth to the Associated Press in an exclusive interview tonight.

"Had we searched all America," he said, "we could not have found a better type than young Lindbergh to represent the spirit and high purpose of our people. His head not only is not in the least turned, but it never will be, whatever his sucpesses. He is of the Lincoln type. Who can say more?

"In his simple, straightforward way this boy, when asked to accept contracts for quick money, replied: 'The expedition was not for profit.'

"Modest, unassuming, gracious, and with all the unmistakable spirit of a genius! When facing the greatest statesman of France, who addressed him in superlative terms of praise, he exhibited his magnificent courage. Although unaccustomed to speaking, he unhesitatingly replied in simple, direct and most appropriate language. His charming personality has won the hearts of the French people"

Mother Shoots Self When Husband Criticizes Meal

Mrs. Lottie Zinovich, 24, of 2046 Haddon avenue, fired two bullets into her right side last night, seriously wounding herself, because her husband, Otto, criticized her for the supper she had prepared for him. Mrs. Zinovich is the mother of three small children. She was taken to the county hospital, where it was stated her chances for recovering were slight.

BID LINDBERGH TO WASHINGTON FOR U. S. HOMAGE

Capital Plans Fete for Heroic Birdman.

Washington, D. C., May 25.—(AP)—With government agencies vying for the privilege of bringing Capt. Charles A. Lindbergh back to the United States, plans were begun today for a great demonstration for him in the national capital.

The city commissioners formally cabled Lindbergh the congratulations of Washington and invited him to come here "in order that the people may do honor to their fellow countryman who has so signally exemplified the courage and spirit of American manhood in the remarkable feat you have performed."

President Coolidge's part in the celebration here might depend on the time of Lindbergh's return to America. The President has been expected to leave for his summer vacation about the middle of June, but his definite plans in this regard have not been announced.

War Department Urges Medals.

Coincident with the beginning of the movement for a popular demonstration in Lindberg's honor, Secretary Davis of the war department, who returned to Washington today from the Mississippi valley flood area, announced himself in favor of the awarding of the congressional medal of honor and the distinguished flying cross, and said that the war department would support legislation necessary for the bestowing of the honor medal.

St. Louis Plans Holiday.

St. Louis, May 25.—(AP)—The day Capt. Charles A. Lindbergh, world famous aviator, returns to St. Louis, his home city, will be a public holiday, Mayor Victor Miller announced today. Not only will city offices close but all business concerns will be asked to give their employés an opportunity to welcome the flyer.

New York to Have Parade.

New York, May 25.—[Special.]—Plans for the reception of Capt. Charles A. Lindbergh began to take form today under the guiding hand of Grover Whalen, chairman of the mayor's committee of welcome.

"The keynote of the reception will be the spirit of young America—courageous, modest, loyal," said Mr. Whalen.

There will be a parade headed by Capt. Lindbergh, followed by his famous plane. The local committee feels that the plane, which is always included by Capt. Lindbergh when he says "we," is an integral part of the celebration.

Mr. Whalen will try to bring together for the reception the most famous flying aces of France and America.

Capt. Lindbergh Still Dry; Offered Wine; Asks Water

PARIS, May 25.—(AP)—Capt. Lindbergh is still dry. He has, as a matter of courtesy and custom, raised many glasses of champagne to his lips in acknowledging or proposing toasts, but if he has wet his lips, that is about all. He even asked for water today when the usual "Vin d'Honneur" was offered him. Jean Sapene, general manager of La Matin, where the incident occurred, held up the ceremonies while water was brought and Capt. Lindbergh took two glasses.

MOSCOW SEES WAR AHEAD IN BRITISH BREAK

Envoys in London Pack to Leave.

MOSCOW, Russia, May 25.—[U. P.]—Great Britain is "pushing toward war," Maxim Litvinov, acting commissar for foreign affairs, charged tonight in the first official Russian statement issued since Prime Minister Baldwin in London announced an imminent rupture in Russo-British relations.

"The break of Anglo-soviet relations is not being made as a result of the recent raid on Arcos, Ltd., and the headquarters of the Russian trade delegation in London," M. Litvinov said, "but instead the raid resulted from determination of Great Britain to break relations.

"This action can mean only that England is pushing toward war, because it is absurd from the viewpoint that it will benefit England. This step was not solely intended to deprive English industry of millions of pounds sterling, nor to increase unemployment there, nor yet to free the soviet of all obligations to England."

See Aim to Crush Russia.

The break, M. Litvinov declared, was the logical consequence of intention to "crush the soviet at any cost," and was begun with the Zinoviev letter which caused the present Baldwin government to come into power.

Foreign Minister Sir Austen Chamberlain of England, he said, who is "a holder of the Nobel peace prize," hesitated to commit England to the break single handed and attempted to find allies. Failing in this, M. Litvinov asserted, Sir Austen and the government he represents decided to attack Russia alone, hoping to draw in other nations.

"These other countries must know the criminal nature of the adventure into which they can be drawn," he added. "The soviet will take all precautions, however, and will not be caught napping."

LONDON, May 25.—Soviet Russia's emissaries in London busily packed their trunks today after intimations by the British government that they would be given ten days' grace to leave the country.

At the same time the British cabinet ministers put the finishing touches on the note replying to Moscow's latest, which will be presented to the house of commons for action tomorrow and which is due to be sent to Moscow on Friday. The house is expected to approve the government's note, breaking off diplomatic relations, by a large majority.

Quarrel with Autocrats.

Sir Austen Chamberlain, foreign secretary, is expected to make a strong speech, taking the stand that Great Britain has no quarrel with Russia or the Russian people but only with a small group of autocrats who rule from the Kremlin.

Downing street was humming with activity today, with various ministerial consultations occurring in addition to the usual meetings. The details of fixing the status of soviet representatives here after the rupture takes place, precautions for police surveillance, and possible prosecutions to be made by the home office, were dealt with.

It is understood that Russian representatives who have no police record will be allowed to stay for trade purposes, but will be treated as ordinary aliens.

Answering Labor members today, Sir Austen Chamberlain said that a break would not affect orders received from Russia by the Clyde engineering firms nor any business carried out legitimately by Russians.

The foreign secretary also read a memorandum on his conversation with M. Rosengolz, soviet chargé d'affaires in London. Sir Austen said he did not care to give details concerning M. Rosengolz's complaints about detention of women and the alleged rough handling of these women by police during the raid on soviet house, headquarters of the Russian trading company, Arcos, Ltd., and the official soviet trade delegation.

Will Dissolve Trade Company.

The directors of Arcos, Ltd., which is registered as a British company, conferred today with M. Rosengolz and M. Kinchuk, head of the soviet trade delegation in London, about dissolving the company. This action, soviet mission officials told THE TRIBUNE, is to be taken in accordance with orders received from Moscow.

M. Rosengolz tonight categorically denied Mr. Baldwin's charges against the soviet representatives. He said there was "no particle of evidence" that Arcos or the trade delegation ever engaged in military espionage. He charged that the Peking telegram quoted by the prime minister to show that Moscow gave orders to M. Borodin, Russian adviser to the Cantonese, "bears all the signs of an invention."

Rumor M. P's Involved.

LONDON, May 25.—(AP)—Rumors of an exciting character are circulating in London as to the discoveries made in the police raid on Arcos Ltd.

It is reported insistently that the names of several members of parliament are on the lists of persons to whom money has been paid by the soveit trade delegation, and the debate in the house of commons tomorrow is awaited with breathless interest.

Canada Cancels Trade Pact.

[Chicago Tribune Press Service.]

OTTAWA, Ont., May 25.—After an all afternoon session, the Canadian cabinet announced that the Canadian government had decided to end the Russian Canada trade agreement.

Prime Minister King announced that so far as the Montreal office of the soviet trade commission was concerned no espionage or subversive propaganda could be traced to their door in Canada. He said information received from Prime Minister Stanley Baldwin of England, which plainly showed that the agreement between Canada and Russia had been violated by the Russian government, caused Canada's action. The Canadian government announced that the quasi-diplomatic privileges of the Russian trade commission would be terminated, but that Canada would make every effort to trade with Russia on the same basis as does the United States.

Others May Join Britain.

[Copyright: 1927: By The New York Times.]

PARIS, May 25.—There exists a possibility that the principal nations of the continent will follow the example of England in breaking off diplomatic relations with Moscow.

For some months the governments at London, Paris and Rome, as well as Berlin, have been gathering evidence of serious communist efforts to undermine them.

There existed between the London and Paris foreign offices a plan to convince not only Italy, but Germany as well, that a break with the soviet union was advisable. Two months ago Premier Mussolini began to fall in line. Both Paris and Rome are now preparing a case against Russia similar to that of Britain.

Foreign Minister Briand of France probably with the agreement of Premier Mussolini, is planning to bring Dr. Stresemann, the German foreign minister, around to his view that if a clear case of Russia plotting against the government of any country can be made out diplomatic relations should be broken off.

THREE CHILDREN DIE; AUTO TOLL IS RAISED TO 354

Two Seriously Injured in Other Accidents.

Three small children lost their lives yesterday in Chicago's traffic. A fourth received serious injuries. Two men died and a woman has but a slight chance to survive as the result of two other automobile accidents. Cook county's 1927 motor toll was raised to 354.

THEODORE MANGEN JR.

Alice Donath, 6 years old, was knocked down and killed in front of her home, 6217 Gunnison street. The driver, a woman, stopped, but when witnesses tried to place the child in her car she became hysterical and sped away. Police two hours later, working on a description furnished by August Gums, 13 years old, 6155 Patterson avenue, arrested Mrs. Alma Moeller, 35 years old, in her Norwood Park home. Her sobbing prevented questioning. She was taken to the Irving Park police station.

Two Boys Are Victims.

Theodore Mangen Jr., 7 years old, 2015 Iowa street, died from injuries received Tuesday when struck by a car driven by Jacob Lewis, 28 years old, 1519 South Spaulding avenue.

Edwin Vincent, 7 years old, colored, 5319 Indiana avenue, was crushed to death by a taxicab at East 53d street and South Park way. The driver, Russell Payne, 26 years old, 722 Oakdale avenue, was held.

Andrew Theis, 68 years old, 1511 Dayton street, died in his home of injuries suffered May 15, when he was struck by a taxicab driven by Eston Hedrick, 5060 Pensacola avenue, at Lincoln avenue and Irving Park boulevard.

Killed by Vampire Auto.

George Gricshamer, 54 years old, 1359 West Austin avenue, died from injuries received when struck a few days ago by an automobile that failed to stop. John Post, 4117 North Long avenue, is charged with failing to stop and render aid. He protests his innocence.

Elmer Gunther, 9 years old, 1417 Barrow avenue, Evanston, received a broken leg and extensive bruises when he was hit by an automobile while alighting from his father's car in front of his school at Rose street and Wesley avenue. Maurice Birch, 1509 Wesley avenue, the driver, was not held.

Mrs. Mary Bultman, 65 years old, 604 Hannah avenue, Forest Park, wife of William C. Bultman, retired Forest Park merchant, received a fractured skull when struck while crossing Austin boulevard at Chicago avenue. P. J. Powers, 45 years old, 2524 North Drake avenue, driver of the car, was held.

Bridge Washed Out, Illinois Leander Swims to Bride

Peoria, Ill., May 25.—(AP)—Just as Leander swam the Hellespont, so Cecil Rowley of Canton swam Cooper's creek Monday night to marry Miss Verne Kennedy of Peoria. While on his way here he found the bridge washed out. Undaunted, he plunged in and arrived here in time for the wedding.

COUNTY ASKED TO ADD 1,674 ACRES TO FOREST PRESERVES THIS YEAR

Addition of 1,674 acres to the forest preserves during 1927 was recommended to county officials yesterday by the citizens' advisory committee. The addition would provide a forest belt 660 feet wide linking various tracts of the present preserves. On this belt will eventually be built automobile roads, bridle paths and walks, according to plans.

The committee recommended the purchase of 288 acres near the zoölogical gardens northwest of Riverside; 1,241 acres along the north branch of the Chicago river and Skokie, in New Trier, Northfield and Niles townships, to connect the Caldwell preserve, Harms woods, and the Glenview and Skokie tracts, and 145 acres along Thorn creek, in Bloom township.

"Later purchases will link the entire preserve so we may complete our plans for an outer park driveway around the county," said Gen. Abel Davis, chairman of the advisory committee.

Other members of the committee are E. E. Brown, Fred W. Brummell, Rufus C. Dawes, John T. McCutcheon, John C. Lewe, Will S. Elliott, and F. W. Penfield.

EDITH GOULD'S MARRIAGE OFF, LONDON IS TOLD

(Pictures on back page.)

[Chicago Tribune Press Service.]

LONDON, May 25.—Half a hundred guests, invited to a wedding breakfast at the Savoy hotel to be after the marriage today of Edith Kelly Gould and Albert De Courville, theatrical producer, were surprised today to learn that the marriage had not taken place. A day's postponement was necessary to comply with the law which requires that a day elapse between the marriage application and the ceremony.

Late this evening another surprise developed. Mr. De Courville was removed to a nursing home and Edith told THE TRIBUNE: "The wedding is off." She is sending out 1,000 telegrams to invited guests notifying them of the cancellation of the wedding breakfast tomorrow after the postponed ceremony.

She is leaving the hotel tonight, but her destination is secret and she declines to discuss the matter further. Rumors of disagreements are being circulated.

MAYOR AND CHIEF GET NEW CARS IN APPROPRIATIONS

Mayor Thompson and Chief of Police Hughes will soon be driving big new limousines by virtue of an appropriation voted yesterday by the city council.

The appropriation, totaling $85,000, will also purchase 23 cars for use of the police department and two other official machines. Each of Chief Hughes' deputies will receive a personal car, the others going to the detective bureau.

Twenty-two old squad cars, with a mileage of 70,000 to 100,000 miles each, will be turned in for approximately $12,500.

BILL TO RELIEVE JAMS AT BRIDGES GOES TO COUNCIL

Would Shift Closed Hours of Downtown Spans.

Crowds hurrying to work between 9 and 9:30 a. m. will no longer be delayed by open bridges if the city council adopts an ordinance recommended yesterday by its bridge, harbors and wharves committee.

ALD. JOHN TOMAN.

The ordinance shifts the morning closed hours for downtown bridges from 6 to 9 a. m. to 6:30 to 9:30 a. m., in order to conform with street traffic rush hours. If approved by the council and signed by Mayor Thompson, it will be the first step toward curbing the swing bridge nuisance taken by the city in a decade.

Credit for the ordinance is given largely to Ald. John Toman [23d], who sponsored its preparation.

Toman for Fixed Bridges.

"It's only a small step toward fixed bridges," said Ald. Toman yesterday. "Eventually they've got to come, but because we can't have them now is no reason why we shouldn't take what we can get."

The city, acting on a previous resolution of Ald. Toman, last summer petitioned the war department to allow a lengthening of the closed periods two hours a day but the petition was denied on the ground that navigation would be hampered. A half hour shift in the morning period, however, was not opposed.

Delegations of shippers, representing companies with tugs, scows, and dredges on the river, protested even this change in hearings before the bridge committee.

Business Men Defend Change.

Other delegations composed of leading business men pointed out the absurdity of allowing the profits of a comparative handful of shippers to cause thousands of dollars loss to the public using the streets.

All bridges lakeward from Roosevelt road on the south branch of the river and Kinzie street on the north branch would be affected by the proposed new closed hours. The closed hours of other bridges and the afternoon hours of them all, 4:30 to 6:30 p. m., will remain unchanged.

King Ferdinand Unable to Take Food for 3 Days

[Chicago Tribune Press Service.]

VIENNA, May 25.—Instead of King Ferdinand departing for Constanza, as reported yesterday, an official announcement from Bucharest tonight admits the monarch has been unable to take food for three days.

BORAH, A DRY, OPPOSES REGULATING DOCTORS' RUM PRESCRIPTIONS

Washington, D. C., May 25.—[Special.] — Senator William E. Borah [Rep., Idaho], a pronounced dry, today came out in favor of modifications of the restrictions now imposed on the issuance by physicians of prescriptions for medicinal whisky.

Mr. Borah said it would be advisable to lift the restrictions if some method could be devised which would make it impossible for prescriptions to be bootlegged.

ATTACKS WOMAN WITH AX; ARMED POSSE SEEKS HIM

Springfield, Ill., May 25.—(AP)—An armed posse tonight is searching for James Hayes, 25, a farm hand, identified by Mary Flatt, 12, as the man who forced his way into the bedroom of her mother, Mrs. Dolly Flatt, pursued her as she ran screaming from the house, and struck her on the head with an ax when she stumbled and fell in the yard.

Mrs. Flatt is dying. The crime was committed on the Harold Knudson farm near New Berlin, Ill., 17 miles west of Springfield. Hayes was discharged this morning on account of his unwelcome attentions to the Flatt girl and is said to have threatened to return and kill Mrs. Flatt, who is the housekeeper on the farm.

Plan Poppy Sale to Aid War Vets in Hospitals

(Picture on back page.)

Plans for the sale of 1,000,000 poppies tomorrow and Saturday, which have been designated as "Poppy days," went forward yesterday among the American Legionnaires, veterans of foreign wars, united Spanish-American war veterans, the gold star mothers and fathers, and other organizations interested. The proceeds will be devoted to work among the wounded veterans in Illinois hospitals.

NICKEL PLATE BILL AMENDMENT WINS APPROVAL

The Nickel Plate ordinance for the construction of a deep water harbor in Lake Calumet was pushed a long way toward Mayor Thompson's desk yesterday when the city council's committee on harbors, wharves, and bridges approved the amendments asked by the state. The chief amendment provides that the Nickel Plate railroad pay the city $600,000 in cash instead of dredging in exchange for land it is to receive.

A proposal for the city to add $300,000 and make an appropriation of $900,000 to contract for the dredging itself is now pending before the finance committee. Should it pass, the whole matter will go to the council for a decision.

Mayor Thompson thus far has made no direct statement as to whether he wishes to put through the ordinance or prepare an entirely new one.

DRAGGED 50 FEET BY STREET CAR.

Harry Cole, 48 years old, a printer, 10 East Grand avenue, was injured yesterday when his coat caught on a door of a street car. He was dragged fifty feet. At the county hospital officials said his skull was fractured.

GAS TAX BEATEN IN SENATE BUT RISES IN HOUSE

First Bill Is Withdrawn; New One Appears.

(Continued from first page.)

against this measure, backed by the Illinois Agricultural association; but, although they admitted the proposed law is almost certain to be declared unconstitutional, the downstaters voted en bloc. In addition to the admission of unconstitutionality, there also was tacit recognition that the bill probably will be beaten again in the house, and that, even if it survives there, it will lose on the referendum next year.

Senator John Dailey of Peoria said he was opposed to the bill and predicted that if it is enacted into law, injunction proceedings would prevent even the holding of the referendum. But he voted in the affirmative, as did Senator Harold C. Kessinger, who had gone so far as to say he was opposed to all income taxes because they "penalize success."

Barbour Attacks Bill.

"If this bill goes over," said Barbour, "it will be one more demonstration to the people that their interests are not being protected here."

"This is false motion," said Woods. "It would be beaten 20 to 1 in Chicago."

"These bills are constitutional when you want them to be, and when you don't they're unconstitutional," Roberts protested to the downstaters.

The proposed working women's law, limiting their hours of employment to forty-eight in the week and to ten hours in any one day, was passed by a vote of 28 to 17.

There was little debate on this measure, which in the house was lost by 74 to 64—requiring 77 to pass—on May 3. It now goes back there as amended.

Protests Pension Increase.

The most forceful speech of the day came from Senator Barbour when he sought to defeat Senator John Broderick's police pension bills, which he branded as immoral and unsound. These bills raise the pension of the Chicago patrolman to $960 a year and those of the sergeant, lieutenant, and captain, respectively, to $1,080, $1,200, and $1,320. They would authorize an increased tax of one-tenth of a mill, which Barbour said would mean an increase of $200,000 a year for at least the next eleven years.

"You are saddling $200,000 on the taxpayers of Chicago," he said, "just to be a good fellow to a senator who probably went around and asked you to vote for his bill. There are fifty-one senators, and if you did the same for each of them you'd give away $102,000,000 of the people's money."

The morning session opened with a number of complaints against loose committee procedure and charges of sharp practice in committee work.

Elgin Boy, Barrington Girl Found Healthiest

Martin Blizek, 11, of Elgin, was selected the healthiest boy, and Victoria Dahir, also 11, of Barrington, the healthiest girl, in a field meet and health contest conducted by Edward J. Tobin, county superintendent of schools, among several hundred boys and girls from the northwestern districts of Cook county, yesterday at Beverly lake. The health contest was in charge of Dr. Alton S. Pope of the Chicago department of health.

WIFE ENDS OWN LIFE.

Mrs. Roselle Smith, 42, of 3334 Walnut street, committed suicide in her home last night by inhaling gas. Her husband, Nicholas Smith, found her body when he returned from work. He was unable to explain her action.

DAY IN SPRINGFIELD

Governor Small's Gasoline Tax bill was withdrawn from legislature.

SENATE.

Bills passed: State income tax bill; women's eight hour bill; Broderick bills to increase Chicago police pensions; Woods bill to make automobile theft or buying stolen automobile felony; Curran bill increasing educational requirements for chiropodists.

New bills: By Mason to license Dry Cleaners; by Barbour, to require director of trade and commerce to audit all pension funds receiving public funds.

HOUSE.

Bills passed: Castle bill to annex north shore "No Man's Land"; G. J. Johnson bill to permit revocation by referendum of additional school tax levy; Weiss bill to authorizee school nurses and first aid rooms; Woods-Lyon bill to authorize bond issue for Cook county convention hall, referendum; Juul bill to prohibit cemeteries from barring veterans' monuments.

Bills defeated: Schackenberg bill to regulate appointment of special prosecutors.

Allen bill to provide fines under pure food act shall be paid to department of agriculture and by it into state treasury; G. J. Johnson bill to regulate Lloyd's insurance; Powers bill to permit appointment of three (now one) inheritance taxes in the counties of the third class. Igoe bill to appropriate $350,000 for naval reserve armory to replace ship Commodore in Chicago; Durso bill to validate stock issue in excess of capital by building and loan associations now legally doing business.

New bills: By Lohmann, to permit purchase of Beardstown of levees erected by state; by Fish and Game committee, to permit use of fish and game revenue to retire any bond issue; By Peffers, to double pay of National Guard officers and men on emergency duty.

KILL BILL AIMED AT APPOINTMENT OF PROSECUTORS

Springfield, Ill., May 25.—[Special.]—Represenative Elmer J. Schnackenberg's bill concerning special state's attorneys fell by the wayside in the house of representatives today. Downstate voted with Chicago Democracy, killed the measure, 52 to 76, and refused to allow Mr. Schnackenberg to postpone consideration.

The bill was understood to be supported by State's Attorney Crowe of Cook county.

It was a reaction to the recent elections in Cook county and Chicago, when a special prosecutor to investigate vote frauds was appointed by County Judge Jarecki and Chief Justice Lindsay of the Criminal court.

The measure required a court to request the attorney general to serve before it could have the right to select an outside attorney.

The Castle bill to permit the annexation of the "No Man's Land" lying between Wilmette and Kenilworth was approved, 118 to 4. Residents of the two villages seek the measure in protest against a movie house, a dance hall, clubs, gas filling stations, and hot dog stands which now exist or are planned for the property.

COATH, MAYOR'S CHOICE, HEADS SCHOOL BOARD

Fails to Win Majority to Oust McAndrew.

(Continued from first page.)

ceived the votes of Dr. Schmidt, Mrs. Hefferan, and James Mullenbach.

Mr. Vopicka accompanied his vote with a statement that if his ballot would have turned the election he would have cast it for Mr. Raymer, but that such action would be fruitless. He wanted to save Mr. Coath the embarrassment of having to vote for himself, he said.

"The mayor should be responsible," Mr. Vopicka said. "I have heard a lot of things said against Mr. Coath, but thus far he has shown only a good part to me. If he continues that way and we coöperate with him everything will be all right."

New Committee Leaders.

In the list of committee chairmen appointed by Mr. Coath the names of the former leaders are noticeably missing. Those selected are: Finance, Hemingway; building and grounds, Theophilus Schmid; school administration, Durante; rules, Brandenburg; purchase, English, and health and sanitation, Dr. Otto L. Schmidt.

Mr. Coath dispelled reports that he is seeking the job of business manager for the board.

"If the salary of the business manager were double, my present earnings as an official of my company would render such a change highly unprofitable to me," he said.

The business manager's salary is $12,000 a year.

Plan School Text Revision.

A meeting of school officials and university history professors, to which members of the board of education and history teachers are invited, will be held Saturday morning at 11:30 o'clock in the hall of the Chicago Historical society to discuss ways of revising school histories to meet recent criticisms.

Dr. Otto L. Schmidt, chairman of the board committee appointed to investigate school histories, yesterday announced that Profs. James A. James of Northwestern, Marcus W. Jarnegan of the University of Chicago, and Theodore C. Pease of the University of Illinois would address the meeting.

Charges that histories are un-American, that names of important foreign born patriots are eliminated, and that the different racial strains are not properly emphasized will be considered, Dr. Schmidt said.

Unidentified Man Found Shot to Death in Street

A tall Italian, dressed in laborer's clothes, was shot five times and fatally wounded at De Koven and Desplaines streets last night. Police found the body lying in the street and an early investigation revealed no witness to the shooting. The man was about 35 years old, dressed in a blue suit and an army shirt. There was no means of identification on the body.

BLAST WRECKS PADLOCKED CAFE, ROCKS DISTRICT

Windows for several blocks around were shattered late last night by an explosion, presumably a bomb, in a building at 1653 West Monroe street. The building, a two story frame, formerly occupied by what was known as the Monroe Coffee shop, had been locked up by the government on an injunction. Residents of the neighborhood said they believed it had been surreptiously reopened. The explosion which partly demolished the building, awakened many of the guests in the Monroe hotel next door.

WOODHULL LONE "NO" AS COUNCIL BACKS THOMPSON

Demands Vote Recorded Against Finance Bills.

Acting on a resolution five minutes before adjournment, the city council yesterday went on record as favoring Mayor Thompson's finance bills now pending before the legislature. The approval was unanimous—almost.

Ald. Ross A. Woodhull [7th], former floor leader for the Dever administration, was responsible for the "almost."

The clerk had marked up the vote as unanimous and the meeting ended when Woodhull, who had been out of the chamber, returned and demanded that he be recorded as voting no, threatening to inform the legislature how the measure was "railroaded through" if the demand was not complied with. Mayor Thompson directed that the single negative vote be recorded.

Aim to Boost Bond Power.

The bills which the resolution approved are aimed to boost the city's bonding power $100,000,000 by doubling tax assessments and halving the tax rate. They also allow the use of the school building tax for school and city running expenses and the issuance of bonds in lieu of it.

Mayor Thompson had lifted his gavel, apparently to rap adjournment, and half a dozen aldermen, including Mr. Woodhull had left, when the resolution was introduced.

"I have just been informed by former Senator Glackin that the legislature wants an expression of opinion from the council on the city's finance bills," explained the mayor. "Ald. Clark is writing the resolution now and it will be ready in a moment."

Most of the councilmen were standing and the room buzzed with confusion as Clark told briefly what the measure contained. The bills, he said, "would lower taxes for a time."

"Omnibus if there are no objections!" the mayor shouted over the hubbub, then brought down his gavel for adjournment.

Ten minutes later Ald. Woodhull returned and the mayor at length acceded to his demand that he be recorded as voting "no."

FIGHT CITY BUDGET BILL.

Springfield, Ill., May 27.—[Special.] —Serious opposition to Mayor Thompson's plans for meeting Chicago's financial problem developed in the senate today. Probably the most important development at the hearing before the committee of the whole was the declaration of war by the two official Springfield representatives of the Illinois Agricultural association, the organization which is credited with more strength at this session than the Anti-Saloon league and all the other habitual lobbyists put together.

In addition, there was the appearance of a representative of the Illinois Bankers' association, H. C. Hausman, who attacked the Thompson proposal to build schools by bond issue instead of current taxes, his assertion being an echo of the protests of Miss Margaret Haley of the Chicago Teachers' federation against a splitting up of the present school building fund tax.

Shot as He Escapes Police; Seized at County Hospital

Stanley Valsky, 16, of 2008 South Leavitt street was arrested at the county hospital early this morning when he appeared there to have a wound in his leg dressed some hours after he had been shot by Policeman Edward Pelsh, who found Valsky and another youth, who escaped, sitting in a stolen automobile at Oakley avenue and 22d street. The officer fired as the youths fled.

GUARD SHANGHAI FOREIGN ZONE AS OUTBREAK LOOMS

SHANGHAI, China, May 26.—[U. P.] —A local Nationalist newspaper reported today that Marshal Sun Chuan-fang, war lord of Shanghai before its capture by the Nationalists, was taken prisoner yesterday at Tsingkiangpu by Gen. Pei Pao-shan, a former northern commander who has joined the Nationists.

Tungchow, an important industrial center in Kiangsu province, was captured by the Nationalists, the northern defenders retreating to Haian, another report said. Reports from Hankow said one man in every three was being conscripted for action on the Honan front.

Natives in Shanghai were planning a huge demonstration for May 30, and foreign authorities prepared for possible trouble. All barriers protecting the foreign settlement will be closed when the demonstration starts, and all foreign soldiers and sailors were ordered to remain on duty day and night.

HUNDREDS CLING TO THEIR HOMES AS FLOODS RISE

Refuse to Leave in Red Cross Boats.

New Orleans, La., May 25.—(AP)—Fleets of boats were assembled in the area inundated by the break in the Atchafalaya river levee at McRea, Pointe Coupee parish, tonight to aid those who have refused to leave in the face of warnings of their danger.

Hundreds of persons in the parish clung to their homes as the flood waters moved upon them. One hundred and fifty square miles of land had been inundated since the break early Tuesday. All dry lands between the Atchafalaya and the Mississippi river levees ten miles to the east had disappeared today. The fear that many of the flood victims might be cut off caused relief agencies to mobilize the fleets.

Commandeers Railroad.

A railroad was commandeered by John M. Parker, flood relief dictator, to remove 5,000 persons from Iberville parish, south of Pointe Coupee, but they, too, refused to leave.

Mr. Parker was informed that 125 persons in the vicinity of the McCrea break were preparing to live on the levees. The majority of them were children, the report said, and the food supply averaged less than three days for each family.

Virtually the whole of the Tensas basin, including thirteen parishes, remained under water as this shifting inland sea rolled southward.

The move toward the Gulf of Mexico has carried flood waters into Iberia parish, bordering Grand lake, the natural outlet of the Atchafalaya river to the gulf.

Beardstown Periled Again.

Beardstown, Ill., May 25.—(AP)—A prediction of 25 feet of water in the Illinois river at Beardstown by next Tuesday, today gave this city of floods a prospect of higher water than that which covered all its streets in April.

Rainfall Sets Record.

Peoria, Ill., May 25.—(AP)—More than five feet of water has fallen here since last June 1, according to M. L. Fuller, United States weather observer. The exact total is 62 inches. This amount has not been approached in any other 12 consecutive months in 72 years. Total rainfall this month is 9.3 inches and 23.06 inches since Jan. 1. This is as much as the total for the whole year of 1910.

Red Cross Aid 339,000.

Washington, D. C., May 25.—[Special.]—National headquarters of the Red Cross announced today that the Mississippi river valley flood relief headquarters of the organization have been transferred from Memphis, Tenn., to New Orleans, La.

The Red Cross is now caring for 339,000 refugees, Mr. Baker reported today, and his message continued, in the event of a break on the east of the Mississippi in Louisiana, 50,000 more would be added. He reported that since the flood assumed proportions of a major disaster, the Red Cross has cared for at least a total of 514,474 persons.

The following figures show first the number cared for in all in each state and the number now under Red Cross care in those states:

Illinois, 4,200 originally, now 1,500; Missouri, 14,729, now 600; Kentucky, 5,699, now 1,800; Tennessee, 11,355, now 1,200; Arkansas, 154,977, now 69,184; Mississippi, 200,494, now, 117,752.

The number of refugees in Louisiana is still fluctuating, with the latest available total 108,000 and the possibility of 50,000 to be added within a few days.

City's Fund for Flood Relief Over Top in $1,000,000 Drive

With Chicago well over the million dollar mark for flood contributions, it was announced yesterday that W-G-N, THE TRIBUNE radio station, will be one of the stations in a hookup to broadcast Herbert Hoover's speech from New Orleans Saturday night at 10:30 o'clock.

Mr. Hoover yesterday wired his acceptance to the president of the National Broadcasting company to speak to the audiences of thirty-five stations, picturing conditions as he finds them in the Mississippi valley.

Fund Goes Over the Top.

Homer W. Bang, chairman of the Chicago Association of Commerce-Red Cross Flood fund, announced that there was a total of $916,412.32 in the fund last night. With the mayor's fund of approximately $107,000, Chicago's contribution to the flood victims last night had reached $1,023,412.32.

"More contributions are needed and Chicago should go as much over the million mark as possible," said Mr. Bang. "In fact, the need for relief work is as great, or greater, than it was a month ago, since new areas are being flooded each day and more refugees are being placed in the care of the Red Cross."

Contributions Through Tribune.

The following contributions were received by THE TRIBUNE yesterday:

$125.72—Seneca, Illinois, and community.
$100—Chicago Extruded Metals Co.
$70—Bridge at home of Mrs. William S. Russakov.
$25—Chicago Culture club, R. E. Deremiah, French Lick Springs, Ind.; Jerrold F. Swarts, National Association of Civil War Musicians.

$5—O. T. Voges, Arthur Mayfield, H. J. S.
$3.40—Philathea Girls of St. Stephen's Lutheran church.
$.50—Mrs. A. M. Price.
Total—$445.22.
Previously acknowledged—$27,456.89.
Grand total—$27,902.11.

THE TRIBUNE urges that all contributions be sent direct to the Red Cross or to the Association of Commerce headquarters.

Firemen to Get 20 Day Vacations This Year

Members of Chicago's fire department will have twenty instead of fifteen days' furlough on full pay this summer as a result of action taken by the city council yesterday. Ald. T. J. Bowler sponsored the longer holiday plan, which was approved by a vote of 34 to 2. Aldermen Woodhull and Guernsey voted for deferring action on the ground that other city employés might also ask for extended vacations.

GREATER CHICAGO BUILDERS BOOST FLOOD CONCLAVE

Mayor's Committee Also to Ponder Finances.

The executive committee of the organization of 300 business men, which was formed behind Mayor Thompson to build a greater Chicago, got into action yesterday in a private session at the Chicago club.

After discussing the various problems that confront the city, they decided to concentrate first on two things: the flood control situation, which will be brought to a focus with the big convention called by the mayor for June 2, 3, and 4, and the city's financial status.

Elmer T. Stevens was selected as chairman of the executive committee, and W. Rufus Abbott as chairman of the advisory subcommittee. Charles C. Fitzmorris, city controller, acted as secretary yesterday. He is not a member of the committee, and a permanent secretary will be chosen later. The others present at the session were Silas Strawn, George F. Getz, chairman of the whole committee; William Wrigley, Thomas E. Wilson and James Simpson.

Flood Control Comes First.

"The first thing is to find the best way to arouse interest in the flood control convention," said Mr. Stevens, who was selected as spokesman of the group. "One man was named to take up this situation and report next Friday. Another member of the committee was selected to take up the eighty-five bills now in the legislature, forming the enabling plan to carry out the mayor's new bonding proposition, and also report on Friday. That is a big job in itself. The committee wants to understand all about it and will not approve any action that has not been thoroughly gone into."

Chicago's bonding power under the present law is limited to 5 per cent of the assessed valuation of the property for taxes. The present assessed valuation is $1,882,000,000, making the bonding limit $94,000,000.

The proposition of the mayor to get more money for improvements and at the same time keep taxes down is to assess for taxation at the full valuation and at the same time cut the tax percentage in two. The taxes would remain the same under this plan and the bonding power would be raised to $180,000,000.

The committee did not indicate whether it would advise the adoption of such a plan.

WOMEN BACK MEETING

Women club members and Rotarians were among the many volunteers whose letters reached Mayor William Hale Thompson yesterday with offers of assistance for the flood control conference to be held here June 2, 3, and 4.

"This message brings to you the greetings of the conservation division of the General Federation of Women's Clubs and their best wishes for the great conference to be held in your city in the interest of flood control," wrote Mrs. Ernest R. Latham of Grand Ledge, Mich. "Our fifteen thousand clubs with three million women are anxious to aid in this campaign."

Chess Perry, secretary of the Rotary international at New York, wrote that the officers of the 2,060 Rotary clubs in this country, which have a membership of 110,000, are being urged to give all possible help in sending delegates to the Chicago conference, and to assist in other ways.

The board of education and the county board both adopted resolutions concerning the conference yesterday. J. Lewis Coath, now president of the school board, was instructed to send invitations to all school boards in the twenty-seven states of the Mississippi valley. President Anton Cermak of the county board, in his resolution, asked that all officials and citizens of Cook county "be urged to participate and indorse the efforts of Mayor William Hale Thompson to bring about flood control of the Mississippi valley."

Wants Special Session.

Congressman John J. Cochran of Missouri, in stating his intention of attending the Chicago conference, said:

"The United States treasury has a surplus of more than $500,000,000 which can be used towards financing a flood prevention policy. I regret that the President has not seen fit to call a special session of congress. The flood situation is a national problem and should receive the immediate attention of both the executive and legislative branches of the government."

INSULL VISIONS STEAM LINES IN TRANSIT HOOKUP

Would Link Suburban and City Rail Systems.

BY OSCAR HEWITT.

The dream of Samuel Insull, who frequently makes dreams come true, is to make the suburban service of the steam railroads part of the gigantic local transportation system, for which he is now seeking enabling legislation from the general assembly. He would not only consolidate the more than 1,060 miles of surface lines and 185 miles of elevated, add necessary feeder busses, and have a link of subways through the congested district, but would also utilize the suburban railway lines. He would knit them all together and operate them as one unit.

Mr. Insull's idea came out in a discussion some days ago of the five bills pending in the legislature. One of these bills would permit a railroad organized under the laws of the state and doing a local passenger transportation business within a city (which describes the elevated roads) to acquire by lease transportation facilities. Another power conferred would be that of acquiring and owning all or any part of the capital stock of a transportation facility.

Insull Looks Into Future.

Asked what transit facility he desired to lease, Mr. Insull replied:

"Can you tell how far Chicago is going to grow? Can you tell how many people must be served in this city and suburbs? Suppose it was deemed advisable to take over the suburban service of certain steam railroads, that would probably have to be done by lease. I doubt whether such a purchase could be effected."

"Do you contemplate anything of that sort?" he was asked.

"Why not?" the traction magnate replied. "It is now being done in large European cities. This is the only country where it has not been attempted."

Figures Show Size of Job.

What is the value for leasing purposes of the suburban facilities of railroads which do a considerable commuter business has never been figured, so far as can be learned.

But there are figures which convey a rough impression of the size of the undertaking which Mr. Insull has in mind. The six principal suburban carriers of Chicago are the Illinois Central, Northwestern, Burlington, Rock Island, St. Paul and Western Indiana. Last year they carried in the neighborhood of 68,000,000 passengers. That is comparable with 876,249,663 revenue passengers hauled by the surface lines, [illegible],812,766 by the elevated lines and about 56,498,150 by the motor coach company.

The position of these six suburban systems in local transportation can also be roughly indicated by comparison of gross incomes.

Gross Incomes Compared.

The estimated gross income of the six suburban carriers is $11,850,000 for 1926. The reported gross of the surface lines was $61,173,601. The elevated reported its gross at $20,151,155 and the motor coach company at $5,649,815. Altogether, the public spent $98,824,571 for local transportation in public vehicles, other than cabs.

John Maynard Harlan, attorney for the Lisman plan, has charged that under the enabling legislation Mr. Insull will have adequate authority to acquire and consolidate into his transit scheme the Yellow Cab company. Whether Mr. Insull contemplates such expansion is not known, and it is a matter for the lawyers to decide whether he would have such authority under the five pending bills.

Because of Mr. Insull's absence from the city, Bernard J. Mullaney, one of his spokesmen, replied yesterday to five of the Harlan criticisms. Mr. Mullaney said, "Mr. Harlan either misunderstands the bills or wilfully misrepresents them as follows:

"1. Mr. Harlan says the union loop would be perpetuated by the indeterminate permit bill. This is a gross error. That bill applies only to street railroads and does not apply to the elevated lines.

"2. He says the bills will strip Chicago ultimately of every vestige of home rule in traction matters. This is not true. If the bills are passed and the city sees fit to grant an ordinance, it will still have all the power it now has to prescribe terms and conditions, except only that it may not limit the grant to a term of years. The proposed legislation would provide home rule regulation by a Cook county commission.

Fare Charge Discussed.

"3. Mr. Harlan says the bills will allow the erection of so huge a financial structure that, in order to earn a reasonable return on capital, an increase in fare, probably to 10 cents, will be inevitable. Mr. Harlan forgets or else ignores the fact that the legal basis for fares is value, not capitalization, and that the value or the amount invested will depend on local transportation needs.

"4. Mr. Harlan says the bills will shoulder on the city the entire cost of removing and relaying gas pipes, electric and telephone cables. This is also a misleading statement. The subway bill provides that the city may reimburse itself for all or any portion of this cost from the lessee or lessees of the subway.

"5. Mr. Harlan says the bills will immediately shut out from consideration by the city any plan that is not proposed by the present traction interests. On the contrary, if the bills are passed the city will be perfectly free to adopt the Lisman plan or any other plan."

PREFERS WORKHOUSE HOME, SO HE SPURNS BEQUEST OF $30,000

Cleveland, O., May 25.—(AP)—George Schmidt, 60, a voluntary prisoner at Warrensville workhouse near here, said today that he would reject a legacy of $30,000 because it would force him to leave his happy home at the workhouse.

"What could I do with $30,000," Schmidt asked. "I like it here and I don't think I could have a better home. No, I don't think I want to be bothered."

Workhouse authorities have not indicated their stand. Schmidt completed a sentence for vagrancy last September, but at his request was permitted to remain at the workhouse, where he does odd jobs and continues amenable to the rules of the institution.

13 INDEPENDENT CANDIDACIES FOR BENCH ACCEPTED

Sweitzer Rules Names Go on Ballot.

Names of the three sitting judges who are independent candidates and of ten other independent candidates will be placed on the ballot at the judicial election June 6 in addition to the names of the 21 coalition candidates, County Clerk Robert M. Sweitzer decided yesterday.

The decision brought order into the hitherto tangled judicial situation. Objections had been filed by each of three groups of candidates to the candidacies of all others on the ground that nominating petitions had been illegal.

Order to Printers.

As a result of County Clerk Sweitzer's decision the printers will be ordered to turn out ballots with the following: The first column under the heading "Republican" will contain the names of 21 coalition candidates nominated by the Democratic and Republican party conventions. This ticket is composed of 16 sitting judges and 4 lawyers who are running for the 20 Circuit court vacancies, and one lawyer running for the single vacancy in the Superior court.

There will be no candidates in the Democratic column. The third column will have the heading, "Independent Judicial Party," and beneath will appear the names of Judges Charles M. Thomson, Oscar M. Torrison, and Frank Johnston Jr., who were refused nominations in the coalition agreement.

Ten Noncoalitionists.

In the fourth column will appear the names of ten lawyers who are candidates of the "Noncoalition Party." Originally there were twenty candidates, but half withdrew. This party also has a candidate for the Superior court vacancy.

Mr. Sweitzer ruled that the petitions of the Lawyers' Association of Illinois, filed in the names of the Republican and Democratic parties, were illegal and the few remaining candidates on the petitions will not be given places on the ballot.

JUDICIAL ELECTION SKETCHES

The Tribune presents, from day to day until the judicial election June 6, sketches of the candidates for Circuit court judges.

GEO. F. RUSH. [Mable Sykes Photo.]

GEORGE FRED RUSH—Sitting judge, Republican, nominated on the coalition ticket. He ran eighteenth in the Chicago Bar association primary.

Judge Rush is 59 years old. He was educated in the public and high schools of Chicago and studied law at the University of Michigan. He practiced law for 20 years, was a master in chancery during that time for ten years and also taught law at Northwestern university and at John Marshall Law school. He has written several books on equity pleading and practice. He was elected Circuit court judge in 1919 to fill a vacancy and was reëlected in 1921. He lives at 5719 Blackstone avenue with his wife and four children.

THOMAS TAYLOR JR.

Thomas Taylor Jr.—Sitting judge, Republican, nominated on the coalition ticket. He ran eleventh in the Chicago Bar association primary.

Judge Taylor is 67 years old, being the oldest Circuit court judge in point of age. He was born in England and came to this country as a child. He studied law at Knox college, Harvard, and at the universities of Berlin and Vienna. He came to Chicago in 1887, was a master in chancery for 22 years, and was elected to the Circuit court bench in 1915. He was reëlected in 1921. He has served in the Appellate court by appointment of the State Supreme court since 1916.

ELEVATED LINES TALK NEW WAGE SCALE WITH MEN

A series of conferences to arrange a new annual wage scale and working rules was opened yesterday between officials of the Chicago Rapid Transit company and the Amalgamated Association of Street and Electric Railway Employes of America, with which latter organization elevated guards and motormen are affiliated.

Little more than the presentation of the propositions of each side was made at the meeting. The next session is scheduled for June 1. Officials of the company are asking the men to accept a 15 per cent wage decrease, while the union is seeking a 15 per cent increase.

Surface lines employes also have made a demand for a 15 per cent wage boost, it is reported.

HENCHMAN OF SMALL OPPOSES JUSTICE STONE

Peoria, Ill., May 25.—[Special.]—Peoria and this Supreme court judicial district today witnessed a strange twist of politics when a state employé, secretary to the Republican speaker of the Illinois house, took the stump before 500 women and espoused the cause of a Democrat.

Despite assurances that Gov. Len Small is playing a hands off policy in the judicial fight in the Fifth Supreme court district, Edward T. O'Connor, secretary to Robert Scholes, today addressed a meeting of the Women's Civic federation in behalf of Judge Robert Craig, Galesburg, Democratic candidate.

Attorney Clarence Heyl, Peoria, addressed the meeting in behalf of Justice Clyde E. Stone, Republican nominee, who defeated Speaker Robert Scholes in the Republican convention.

Scholes received the backing of Gov. Small during the pre-convention campaign. Following the decision of the Supreme court that Justice Stone was legally nominated, Gov. Small announced that he would support Stone. Justice Stone voted for the Supreme court decision which held Small accountable for $1,000,000 due the state from interest on state funds.

A QUESTIONNAIRE ANSWERED BY THOMAS A. EDISON

"I Don't Use Delicate Overtones To Move Machinery"

Overtones in music are as elusive as a ray of sunlight, yet their capture and preservation on a phonograph record is utterly essential to full, perfect Re-Creation of an artist's performance. It is obvious that they cannot be preserved if their microscopic strength is dissipated in any way—moving machinery, for example. But let Thomas A. Edison give you his views on the subject.

Ques. Sometimes music is rich, mellow and beautiful. Sometimes it is harsh, sharp and unpleasant. Why it this?

Ans. The presence or absence of overtones controls the beauty and quality of a musical sound. The more overtones there are the richer and more beautiful the quality becomes. The difference between the metallic tinkle of a child's piano and the mellow resonance of a concert grand is due to overtones.

Ques. What are overtones?

Ans. When we set anything such as a tightly stretched string connected to a sounding board vibrating, it sends out a powerful or fundamental wave. It also sends out many other related waves. These secondary waves are called overtones.

A simple illustration of this: Drop a large pebble into a pool of quiet water; wave rings are formed that go out in all directions in smooth and regular procession over the surface of the water. Now try dropping the large pebble again but at the same time drop several very small ones along with it. The wave rings caused by the large pebble will be there as before, but in addition there will be many little waves or ripples criss-crossing each other and the appearance of the principal waves will be quite different from what they were in the first experiment.

The big waves may be compared to the fundamental sound wave, and the little ripples that are superimposed on them to the overtones.

Ques. Can overtones be recorded on phonograph records?

Ans. Years ago I recognized the fact that only through capturing the delicate and elusive overtones as well as the fundamental wave, and faithfully recording them on a record, could phonograph music earn its right to a permanent place in the musical esteem of mankind. I have worked always with this goal in view. Nature has been reluctant, but one by one she has given up her secrets. The present Edison Phonograph is very close to my ideal.

Ques. How have you captured these delicate overtones?

Ans. In many ways. For example, I made a thicker record of greater solidity which would not shake and vibrate as a whole when played. I developed an extremely hard and smooth surface for the record so that the sound waves—the minute ones which are overtones — would not be flattened out when the diamond point passed over them. By adopting a permanent diamond point I got away from making the sound grooves "grind in" steel needles. By mechanically feeding the so-called tone arm across the record I eliminated having the delicate sound grooves drag the arm across. In other words, I don't use delicate overtones to move machinery. Countless experiments in recording have taught us many vastly important tricks and processes. No one thing has captured the overtones for us. I have mentioned a few but there are many others. A combination of many details working together has achieved present results.

OK Thos A Edison

A phonograph can be no better than the artist's performance

Five thousand times critical audiences have heard living artists sing or play in direct comparison with their Edison records in the leading concert halls of the world. Eminent musical critics have put themselves on record to the effect that there is no difference between the artist's performance and the New Edison Re-Creation of it. [Send for free booklet "What the Critics Say."] Only the New Edison dares this test of direct comparison.

RD ROADS RUN TATE; ASSEMBLY RUBBER STAMP

"The Senator" Sees Lone ranch of Government.

BY THE SENATOR.

Springfield, Ill., May 25.—[Special.] is governed by $100,000,000 the legislature is fading into a stamp futility, handing over its lawmaking powers to the and judicial branches.

people of old timers in the senate into the corridors during a the morning vote swapping and an ear full of politics.

"It's a queer session," says one. are we, a bunch of trained or are we one of the three branches of government?"

"Government?" says I. "The is that the $100,000,000 hard bonds are running the state. The runs the legislature because controls the bonds and the road and they say there's still $60,- of the bonds to be spent. The 's working majority in the branch is held together by patronage in road building con- by the governor."

Party Lines Disappear.

"It's the naked truth," says one. "There's no more party lines here on almost anything the wants. The legislature is pro-Small and anti-Small, not re- or democrat, on the basis of to be received, just like Wis- used to be split between La and anti-La Follette."

"Tempting," says I, "that in Wis- the cleavage was mostly over theories, while here the moti- is mercenary; the patronage in road building."

"Well," says the other states- "lawmaking is largely a matter scratch my back and I'll scratch yours."

"Worse than that," says I. "It looks as if this legislature is hocking its birthright for a mess of pottage. It is relinquishing prerogatives it used to hold jealously. It passes what bills the governor wants, with some exceptions, thus practically clothing the executive branch with law making power. Occasionally the second floor is so raw that the legislators have to balk. Like it was today when force of public opinion caused the gas tax bill to be shoved into the morgue. But the Small people saw this coming and used it for swapping purposes to help the governor's quo warranto bill to enable the executive to sidestep a law now on the statute books."

"It couldn't have occurred a few years ago," lamented one old timer.

Legislator Losing Pride.

"But now see what's happened," says I. "All this kowtowing to the governor and all this jumping when he pushes the button has so calloused the spirit of the legislators that now they're even inviting the courts to do law making. A few years ago legislators used to tear off impassioned speeches upon the infringement of the judicial branch upon the legislative. They used to yell about the nerve of the Supreme court in knocking out laws passed by the legislature, saying this was usurpation of power.

"But today the senate, in passing the income tax bill, did so after listening to arguments that the senate could safely vote for it, because, even if the measure manages to get through the house, it can still be defeated by the people on a referendum or by an attack in the Supreme court on constitutionality.

"In other words, the argument for the bill was an invitation to the courts to serve as lawmakers. As Senator Barbour, the little giant, told them, it was a case of ducking responsibility and of asking the judiciary to become one of the bosses of the senate.

"It indicates a decadence of the legislative branch."

Taxation Without a Comeback.

"Yes," put in a Cook county member, "and what about taxation without representation?"

"You said it," says I. "The downstate refuses a reapportionment that would give Chicago and other centers equal representation with the rural districts. The senate passes an income tax to take away some of the rural taxes and load them on the wage earners and white collar boys who pay rent in the cities and villages. On top of that the administration had the crust to propose a gasoline tax to levy tribute on automobile owners in Chicago and other cities for the benefit of the country. Can you beat it?"

"Well," said an ex-legislator from Wilmette, "it looks to me that the colonists gave the boot to the king of England for a tyrannical act which our own legislators are now trying to hang on our cities—taxation without representation."

IDENTIFY YOUTHS AS BANDITS WHO SHOT MESSENGER

Jack Schuster, 20 years old, 2304 South Albany avenue, and Chester Kryz, 20 years old, 4919 West 28th place, were arrested yesterday by Lieut. John Norton of the detective bureau and identified by Frank Donahue, 68 years old, bank messenger and former policeman, as the robbers who shot him and stole a $500 student fund which he was carrying from the Harrison Technical High school to a bank.

The robbery occurred about a half block from the school. The youths also admitted several other robberies, Norton said. When arrested in Cicero they btoh carried revolvers. At the St. Anthony hospital, where the messenger was taken, Donahue asked them why they shot him. They stated that they thought he made an attempt to draw a revolver and they wanted to be first on the draw. Another youth named George Henry, who escaped from the St. Charles School for Boys, is being sought.

IMMUNITY FOR SMALL.

The house judiciary committee has reported out the governor's immunity bath bill with the recommendation that it pass. The vote for it was 26 to 11. The privilege of free speech was used in the committee and Mr. Small was described by opposition speakers in the plainest terms which have yet been applied publicly to him. The people of Illinois may be shock proof. It is highly probable that they are. In a less experienced and less indurated people a sense of outrage would be strong. It is evident that a majority of the judiciary committee believe that the granting of immunity to the governor will be accepted as a routine execution of administration policy and will be undemonstratively received.

Section 4 of Article IV. of the Illinois constitution reads: "No person who has been or hereafter shall be convicted of bribery, perjury, or other infamous crime, nor any person who has been or may be a collector or holder of public moneys, who shall not have accounted for and paid over, according to law, all such moneys due from him, shall be eligible to the general assembly, or to any office of profit or trust in this state."

The Supreme court held Small liable for public money collected and withheld by him. The amount for which he is liable is now being ascertained in court.

The means of throwing out an unqualified officer, by other than legislative processes which were nullified by Small's control of the legislators, is provided in the quo warranto statute which reads that in case any person unlawfully hold any office "the attorney general or state's attorney of the proper county, either of his own accord or at the instance of any individual relator, may present a petition to any court of record of competent jurisdiction, or any judge thereof in vacation, for leave to file an information in the nature of a quo warranto in the name of the people of the state of Illinois. If such a court or judge shall be satisfied that there is a probable ground for the proceeding the court or judge may grant the petition and order the information to be filed and the process to issue."

Thus Small's disqualification could have been presented in court in a suit to oust him and hence the bill which the house judiciary committee has reported for passage, amending the statute by adding:

"However, no writ shall issue nor judgment of ouster be entered to oust any person from any of the following offices, created by the constitution: members of the general assembly, judges (where the office is created by Article VI of the constitution), governor, lieutenant governor, secretary of state, auditor of public accounts, state treasurer, superintendent of public instruction, and attorney general."

What the majority of twenty-six did on the house judiciary committee with this bill in reporting it out favorably is an indication of the state of affairs in Springfield. The governor apparently is confident that he can rely upon the legislative relief the amendment of the quo warranto statute will give him. The repayment of the money will be virtually inconsequential to him. It is common report that it is fully covered by the fund obtained from the political appointees and the classified state service.

It has been recognized that the legislature was organized for his protection against impeachment and the only remaining danger to the man was in the law providing for the test of his eligibility.

That danger would be eliminated by exempting constitutional officers from its applicability.

"The public be damned" is having its real meaning given it by the governor and the legislature of Illinois.

HOW TO RESTORE LAKE LEVELS.

Lieut. Col. G. B. Pillsbury, engineer in charge of the lake survey in the Detroit district, told the Western Society of Engineers a few days ago that $3,400,000 will restore the levels of the Great Lakes to the desired point. Moreover, it will do away largely with fluctuation in lake levels. The money would be spent on constructing submerged rock sills in the St. Clair and Niagara rivers to retard the outflow.

Col. Pillsbury said half the cost is chargeable to correcting the lowering of the lakes resulting from the diversion at Chicago. His figures showed that the diversion here had done less to lower the lakes than Canadian dredging in the St. Clair river and of course much less than the scanty rainfall of previous years. Nevertheless, we are not disposed to quarrel with his calculations. The important thing to note is that another engineer, after careful study of the problem of the lake levels, has concluded that the solution does not lie in political controversy but in engineering works. That has been Chicago's contention for years.

THE MANDATORY INDETERMINATE FRANCHISE.

One of the bills introduced at Springfield at the request of Mr. Insull and the other traction company officials says that Chicago hereafter may grant only one kind of franchise to any traction company. That kind of franchise is called in the bill an indeterminate permit. It gives the company which receives it the right to use the streets in perpetuity. The city can terminate the grant by proving that the company is failing to give adequate service or by buying out the property. Practically, that means, we suspect, that the permit can be terminated only by purchase.

At present the city may grant permits for no longer than twenty years. That period has been found too short for sound financing. Mr. Insull wants the legislature to say to Chicago that the extension must be to the end of time. It may be that indeterminate permits are desirable for some or all of the traction lines in Chicago. There is much to be said for the indeterminate permit, but we believe it is unwise to force the city to grant that kind of a franchise and only that kind Rather, the legislature should grant the city power to issue indeterminate franchises if it wishes to do so.

There is always this danger in an indeterminate franchise: the equipment of the company may become as obsolete as horse cars and cable cars. Nevertheless, the city can rid itself of the nuisance only by the purchase of the properties at a price out of all relation to current value. The city may be obliged to pay a fancy price for junk. No other private enterprise enjoys such a privilege. When its equipment is obsolete the taxpayers cannot be forced to take it over as if it were new and up-to-date.

The legislature should not close the door to indeterminate franchises, but it should not close the door to other types of franchise either. If this bill becomes law, the city's power to bargain with Mr. Insull and his associates on behalf of the car riders is largely dissipated. The car companies want indeterminate franchises above all else. Perpetual grants make the problems of finance simple because they leave no doubt of the tenure of companies which receive them. The companies can and should be made to pay a price in extensions and bettered service for such permits if for no other reason than the increased ability to extend and improve which an indeterminate franchise makes possible. In general the longer the term of a franchise the more the car riders should be guaranteed under it. Mr. Insull wants to go into conference with city officials on the terms of a new franchise with the city obliged to give the longest possible term and Insull obliged to give nothing at all in return.

Mr. Insull may be conceded to be a builder and not a wrecker of public utilities, but it must not be forgotten that he will not live forever. The franchise which he may obtain under this bill may live forever.

OUR RUSSIAN POLICY JUSTIFIED.

The British cabinet has announced its determination to sever diplomatic relations with Russia. There is reason to believe that France may soon take similar action. The British decision was based upon abuse by the Russians of their diplomatic privileges. The Russians, it is charged, used their foothold in London as a base for revolutionary activities in many parts of the British empire. Some of the evidence upon which the cabinet acted was obtained by the British secret service in the recent raid on the Russian trading agency in London.

Our state department has been upbraided frequently for its refusal to recognize Russia. Recognition of a government, we have been reminded, is not to be interpreted as approval of its conduct or the theories upon which it was established. The state department was reminded that Russian political theories and practices were as distasteful to Americans when Russia was ruled by the czars as today.

So far as the theories go that is probably true. So far as the practices are concerned, and particularly the practices of the Russian foreign office, the argument has no weight whatsoever. Imperial Russia was not engaged in a continuing effort to overthrow this government. It did not use its embassies in Latin America as bases for anti-American propaganda and action. There was small reason to fear that the Russian ambassador in Washington under the old régime would use his diplomatic immunity to cloak subversive activities.

The British government reëstablished diplomatic relations with Russia because British commercial interests saw recognition as the opening wedge for British trade in the Russian market. Commercial and manufacturing interests in this country have pleaded for recognition on the same ground. It must now be apparent that any trade advantages which may have resulted were not worth the price Great Britain had to pay for them. Our government showed itself wiser than the British. We have not been taken in.

CAUSE AND EFFECT.

[The Ogle County Reporter.]

A recent phase in the effort to recover from Len Small's firm clutch funds declared by the Supreme court of this state to be due the people of Illinois and aggregating $1,000,000 denotes that Len must reimburse the state treasury to that amount.

If he must pay back the money, the inference is that he withheld it. The fact of his having levied on payroll beneficiaries to the estimated amount of about $2,000,000 gives added weight to the inference that he withheld from the state treasury the funds that he must now perforce pay back.

In the teeth of the probability that Small must now reimburse the state treasury the funds alleged to have been withheld by him comes the intimation that Small's powerful crew of henchmen in the state legislature is seeking to repeal the law that in effect renders Small ineligible to hold the office of governor or any other office of trust or emolument in state régime.

Presumably Small will pay the money withheld by him back into the state treasury. That doesn't mean anything to him. He doubtless has far more than the required amount in the "protective" fund collected by him from a horde of payrollers.

But the vital thing to Small at this juncture is to hold his job. The statute says he is ineligible. And so we view the spectacle of Small's tireless performers in and adjacent to the Illinois legislature working to repeal the law that fixes the official misdemeanor and the penalty for the thing that Small is guilty of.

SEWER AIR OFFENSIVE BUT NOT HARMFUL.

At a recent meeting of the state medical society Dr. W. S. Bainbridge entertained an audience with a discussion of the "Fundamental Causes of Disease." He used as a text the story of the play "The Servant in the House." It is true he used this theme symbolically, but he failed to correct an error in this play which some one should correct.

The main theme of "The Servant in the House" is the virtue of humble, homely, self-sacrificing service—service for service's sake. But it builds its sermon around an error which has too long gone uncorrected. For a certain reason a great showy church is built for a people. But in the building of the church a pipe to the sewer is left untrapped and sewer gas flows into the air of the church. Those who go to the altar to worship are made sick by breathing the sewer gas. The servant of the house sacrifices himself. Finally the pipe is cleaned and perhaps trapped. No sewer gas escapes and all is well.

The play is fine and dramatic. It puts over a fine point in ethics. Incidentally, however, it helps to keep alive an old fetish, one that should have been buried in lime a long time ago.

There is no such thing as sewer gas, properly speaking. The term is no longer used in good public health circles. We now speak of sewer air. Sewer air is just ordinary air containing varying quantities of gases formed in the course of decomposition of organic matter.

Those who have learned to recognize the scale of odors of sewer air are esthetically offended by it. They don't think it smells nice. Those who have been trained to fear it are sometimes made sick, not so much by the poisons it contains as by worry, anxiety, and fear lest it poison them.

Research has shown that the dosage of decomposition gases found in the sewer air is not poisonous. Bacterial analyses of sewer air show that it contains no more diphtheria or other bacteria than other air does. Men who work in sewers and breathe concentrated sewer air much of the time are about as healthy as the average men. Plumbers who spend some of their time doing detective work against sewer air and swatting it when they find it, are healthy as well as wealthy.

The old notions about diphtheria and other diseases being due to sewer gas have been knocked into a cocked hat. In the light of all this, it is too bad that the writer of the powerful sermon: "The Servant in the House," did not select another text.

HOW SHE CURED COLDS.

L. D. writes: I decided to write you regarding your recent article on colds.

Colds have troubled me more than anything else from childhood up, and for that reason, and from having the flu, I have been partially deaf for some years.

Recently a friend told me when I had a bad head cold to use a 10 per cent solution of argyrol. I bought a 25 cent bottle and a medicine dropper and put one drop of the argyrol in each nostril every 24 hours. I used a very small portion of the contents of the bottle. The swelling from the cold soon left, and I got well quicker than usual. My head has been clearer since, and I can hear slightly better for that reason.

A cousin of mine who is a nurse, says that argyrol is used to treat catarrhal sores in the head.

This does not cure an advanced cold in six hours, but it was a big help to me, and I thought I would pass on the information, as so many suffer from colds. Doctors are familiar with the remedy, but so many other people are not.

Another thing that helped was to eat a lot of fruit, oranges especially, and drink lots of water in order to avoid constipation. Getting plenty of rest also is necessary.

FRIEND OF THE PEOPLE

Letters to this department must be signed with names and addresses of writers.

MORE DETAILS, PLEASE.

Chicago, May 10.—[To the Legal Friend of the People.]—Last summer I was persuaded to sign an application for insurance, although stating at the time I was not ready for any.

I was examined, but the following day I notified the doctor who called at my office that I was not interested in a policy at that time.

Three months later I received notice that a premium was due. I called the cashier of the company, informed him I had no policy. He said to ignore the notice; another three months and second statement was received. I again called the cashier, who said two quarterly premiums had been paid on my policy. I called the agent, who said as a personal favor he had paid the premiums on not one but two policies, which he held in different companies for me. Unauthorized, of course, as there had been no discussion as to the kind of policy I might want.

No attempt has ever been made to deliver these policies. No notification of them has ever been sent me. I have signed nothing but the original application. The agent now threatens suit through his lawyer.

What legal responsibility have I in this matter?

What would be the best course of action? C. N.

You probably are not liable, but we cannot advise to advantage without seeing the wording of the applications.

OPTICIAN MUST HAVE LICENSE.

Chicago, May 9.—[To the Legal Friend of the People.]—Will you please advise if one can have an optical store and test eyes without having a degree for such a purpose? The writer has had many years' experience in England, where no such thing is needed. Can you advise fully just what course must be taken, if any, before I can practice as an optician? S. C. W.

Ordinarily the only purpose in testing eyes is to recommend means of meeting defects and to make such recommendations you would need a license.

SAVED FROM SHEOL!

"HELL'S DICTIONARY," A LOYAL CONTRIB, TURNS THE TRICK.

DOES "HADES TO EARTH" IN 5 STEPS.

HERBLOCK COMES BACK TODAY!

Herblock is free! "Hell's Dictionary" has solved the word step puzzle set by Beelzebub as the condition on which he would let Herblock out. His Satanic Majesty, who is himself a word-step fan, said that if Herblock could do *Hades* to *Earth* in five steps he could shake the brimstone off his feet and go back to Chicago. Herblock appealed to the Line contribs and "Hell's Dictionary" sent through the Line the correct solution: Hades—*WADES—WARES—WARTS—WARTH—EARTH.*

It will be remembered that Herblock used to horn into the colyum twice a day. This aroused a great deal of resentment among the other contributors, but nothing was done about it. Then one night he tried to horn into Line night twice. Bill Hay, the w. k. announcer for W-G-N, in a fit of rage shot Herblock with a horse fiddle and buried the remains under the piano at the studio. Herblock wandered for months on the other side of the Styx. He was roaming around the Pearly Gates for a while, but was thrown out because he demanded two pairs of wings and two golden harps.

Herblock then sneaked into Hades, but he didn't like it there, either, and Beelzebub got mad because he insisted on two imps with two pitchforks apiece to do his torturing. Finally Beelzebub was seized with the Line's word-step puzzle craze and offered Herblock the chance of getting out. The chance was seized by "Hell's Dictionary," who set poor Herblock free.

There was great excitement in—well, you know, that place down there—and a large crowd of its permanent residents followed Herblock to the elevator last night, and when the glad words, "Going up," were said, there was cheering that was heard all over—you know. Herblock is expected in the Line office today and will be presented with a new suit to replace the one he is wearing that was much damaged by fire. Every one is delighted that Herblock is with us again. But we hope the lesson he has received will be sufficient and that there will be no more of his two-a-day nonsense.

WEATHER.

What do I care if the skies are gray
And it rains for a month or two!
I can laugh and sing as I work or play;
For the sky of my soul is blue!

What do I care if the North Wind screech
Like a demon of hell set free!
There is one spot I know he can never reach,
And that's in the soul of me!

Oh, the sun may hide, or the sun may shine,
But never a whit care I!
For 'tis always June in this heart of mine,
And will be till I die.

STAND IN LINE AND WAIT YOUR TURN.

R. H. L.: Where does Fundie Mentalist get the idea that it is impossible to change from APE to MAN? I did it in seven steps. So: APE—*are—ere—ern—con—ton—tan*—MAN. Now ask Battling George Carroll if he can change from HEAD to FOOT in five steps. SHEKKIR.

YOUNG CARROLL will go from HEAD to FOOT as soon as he turns from EVIL to GOOD. Bill Hay said this could not be done and defied the champion to try it. Bill tried it until strong hands seized him and carried him to a pretty room with bars on the windows and padded walls. Kid Carroll laughed lightly when he heard the challenge, and, jumping into his word plane, sailed away on the first lap. This task accomplished he will do the HEAD-FOOT act.

And we suggest that we add a few trimmings to Line signing day by having some of the contribs stand up on the tables and recite their pieces. We are thinking it over. All in favor say "aye."

Life Is Like That.

Dick: After having had the pleasure of being soaked (with rain) for nearly a week straight, and the one day you bring an umbrella, wear a slicker, also an old hat and shoes that haven't seen a shine for a month, then, and not until then, do you rate an invitation to lunch. I ask you!
AN UNPREFERRED BRUNETTE.

THE WORD HUNTERS.

R. H. L.: Dictionaries are being thumbed as never before in the frantic search to locate the shortest route between words of equal length but of different context. Delving to the bottom of the problem, it is evident that the minimum number of stops en route is equal to the total of the letters in the words less those letters which are congruent. As an example, HADES-EARTH requires five, the total letters in each, less one, the congruent A, giving a net four, which is smallest itinerary. The only difficulty lies in the fact that the motive power is supplied by Webster's dictionary, which can travel only on standard gauge track, resulting many times in long and tiresome detours. Great is the joy of the word hunter who, after despairing of ever reaching the destination, finds some half hidden stretch of standard gauge over which he may send his Webster, to a speedy arrival at the journey's end. R. ECHELLE.

65 YEARS AGO TODAY

MAY 26, 1862.

WASHINGTON.—Gen Banks at Winchester reported that "the rebels, estimated at 15,000, under Ewell and Jackson, attacked at daybreak. The Union right and left wings stood firm for a while, then two regiments broke the lines under the enemy's fire. The right wing fell back and it was ordered to retire. It passed through the town in considerable confusion, but re-formed and continued the march to Martinsburg, 22 miles distant, in good order.

WASHINGTON.—A dispatch received tonight states that Gen. Banks made good his retreat across the Potomac at Williamsport. Gen. Saxton commands at Harpers Ferry. The city is intensely excited by news from the Shenandoah valley. Banks fought the rebels for six hours. They are understood to be advancing to Harpers Ferry. Our troops are being reënforced.

McCARICK'S LANDING, Ark.—The bombardment of Fort Pillow was renewed by the federal mortars at intervals of five minutes and the rebels' guns replied every half hour. It is reported Fort Pillow has been reinforced.

BALTIMORE.—It is reported that Gen. Burnside has captured Raleigh, N. C.

CHICAGO.—The Democracy tendered a serenade to Fernando Wood, formerly Democratic mayor of New York, at the Sherman house. The Light Guard band did the serenading.

CHICAGO.—Hawthorne will throw open its gates today for the most pretentious meeting in the history of the Chicago Jockey club. It will introduce to the public the great racing stable of Edward Corrigan, recruited largely in England.

CHICAGO.—Jail prisoners protested that all night music in the saloon at 67 Dearborn street kept them awake. Jimmy Quinn offered to stop it, but found the property is owned by Robert E. Burke and he cannot do it.

MANILA.—Gen. Chaffee has disapproved the action of the court martial in acquitting Maj. Waller and Lieut. Day on the charge of killing natives of Samar without legal process. He branded the verdicts as a miscarriage of justice and the findings as contrary to the evidence.

CHICAGO.—M. M. Mangasarian delivered his closing lecture at the Grand Opera house before the Independent Religious society and will sail for Europe on May 31 to be gone four months. John Alexander Dowie closed his services at the Auditorium until the first Sunday in September.

10 YEARS AGO TODAY

MAY 26, 1917.

WASHINGTON, D. C.—President Carranza of Mexico, professing himself now to be as anti-German as he recently was pro-German, is endeavoring to negotiate an understanding with the United States by which the Mexican government would subscribe to support of the American cause in the war in return for American financial support.

CHICAGO. — Morton MacCormac, school board statistician and practically all his staff in the "bureau of economy," were ousted by President Loeb of the board of education.

WASHINGTON, D. C.—Four days before the American destroyer flotilla arrived abroad Berlin knew it was on the way and to what port it was going, and submarines strewed mines about the harbor of Queenstown. The flotilla evaded the trap. This startling information reveals that German spies not only still are at work in this country but have swift and sure means of communicating America's war secrets to Germany.

ROME.—The war office reports further advance by the Italians against the Austro-Hungarians. They gained ground south of Goritz and south of Jamiano to the sea.

CHICAGO. — Miss Laura Delano, daughter of Mr. and Mrs. Frederic Delano of Washington, D. C., and James L. Houghteling will be married this evening at the home of the bride's parents.

HEROISM SULLIED.

Chicago, May 24.—Having lived in this country for 18 years I have found much to praise and admire, and I am far from being super-critical. There are, however, certain things in the makeup of your psychology as a nation that are disgusting.

When news of the Lindbergh triumph came I was almost moved to tears by the excitement and enthusiasm, but right under the big title you started talking about the $25,000 prize. After such a wondrous story of a marvelous adventure and undaunted courage one reads about millions of dollars, vaudeville and movie offers, and life story contracts.

You are hard after that boy now to make a vaudeville or movie clown out of him. One can see in this country the robust and all powerful young nation that is bound to lead the world in years to come, but one is also sickened with your cowboy tactics and dollar mad atrocities, when you are called upon to glorify your immortals, and crown your super-men. P. A. H.

CAPT. LINDBERGH'S PRIZE.

Chicago, May 23.—I should like to see Capt. Lindbergh divide the prize money with the mothers of Capt. Nungesser and Capt. Coli. The prize money will be only a very small part of Capt. Lindbergh's wealth from now on. The whole world and particularly Uncle Sam will be proud of him if he should divide a little with the close relatives of the unfortunate French captains.

THE BALANCE SHEET.

Chicago, May 24.—I would like to know just how much Tunney's fighting proclivities have benefited mankind. What has Tunney accomplished to promote international good will?
CARL A. JOHNSON.

Chicago, May 24.—The remark made by Gene Tunney about Capt. Lindbergh's spectacular flight not being advantageous to mankind shows how selfish and conceited this would-be pugilist is. Flying across the ocean is at least on the square. I. D. NOVAK.

THE THIRD TERM.

Chicago, May 18.—There are many reasons why there should be no third term for the present President. Is Coolidge so much better than Washington and all the Presidents that followed? Is he better qualified? And out of the very larg collection of our very able senators, re resentatives and governors can't we fi even one man who would equal and pe haps in many ways excel the executiv in office at present? AGAINST SUBWAYS.

Chicago, May 18.—A "subway" is nothing but a tunnel; and about all th objections to a tunnel under the rive apply with equal weight against a tunnel under the loop, and there are economic objections to the latter of fa greater purport. There are probably n engineering factors in either which cannot be solved; but both are projects to do extensive works at public expense, though by no possibility will the big public benefit. Yet, of the two, by all means give us the tunnel under the river.

A subway under the loop is designe to perpetuate this small-town abomination forever, crowding the business and pleasures of a prospective 10,000,000 into an artificial area that was congested with a half-million population.

CHARGES TOUTS PEDDLE BRITISH ROYAL HONORS

Parliament Told Tories Are Filling Chest.

BY SIDNEY CAVE.

[Chicago Tribune Press Service.]

LONDON, May 25.—Sweeping charges that the Conservative party is founding its fortunes upon illicit subscriptions of rich men and is employing "touts to sell baronetcies and knighthoods" were made in the house of commons tonight.

The wrangle over the traffic in royal honors cropped up during the debate on the trades unions bill when political levies were being discussed. The Labor party members asked why the Labor party alone should be subjected to restrictions in collecting funds while the other political parties were free.

Arthur Henderson, former Labor minister, declared that as a member of the honors commission, he knew nothing of the method of obtaining political funds from the sale of honors, but the Labor party was free of it.

Then Tom Johnson, Laborite from Dundee, jumped in with more definite charges. Liberal "touts" are at work too, he shouted, amid loud interruptions from the government benches.

The charges drew a strong protest from the government spokesman, the chief whip, who demanded names and promised prosecutions if they were forthcoming.

MAYOR URGES MEMORIAL DAY TRIBUTE HERE

Next Monday, May 30, is designated officially as an occasion for paying tribute to the country's soldier dead in a Memorial day proclamation issued yesterday by Mayor Thompson.

"The people of Illinois, particularly, are under obligation to observe this sacred day appropriately, because it was established by our great volunteer soldier, Gen. John A. Logan, when he was serving as the first commander of the G. A. R.," the proclamation said.

"I urge upon our patriotic citizens that on Memorial day they abstain from their usual vocations and join in the spirit of the occasion to honor the memory of those who have worthily worn the uniform of our beloved country and have offered themselves as sacrifices under its flag."

EARLY PRODUCTION OF NEW FORD CAR IS OFFICIALLY PROMISED

Detroit, Mich., May 25.—(AP)—The Ford Motor company today announced "early production" of a new Ford car, but withheld details of the model. A complete description, it was said, will be made "within the next few weeks."

Assembly of the present T model will be discontinued, but production of parts will be continued for some time.

A statement by Henry Ford and Edsel B. Ford, president of the Ford company, said, "with the new Ford we propose to continue in the light car field which we created on the same basis of quantity production we have always worked, giving high quality, low price and constant service."

The new car, the announcement continued, "will cost more to manufacture, but it will be more economical to operate."

A few men will be thrown out of work at a time while the different departments of the company are being tooled for the new product, the announcement added. "At one time it looked as if 70,000 men might be laid off temporarily, but we have now scaled that down to less than 25,000 at a time," the statement said.

U. S. ARGUES FOR $34,000,000 TAX ON FORD STOCK

Washington, D. C., May 25.—[Special.]—A. W. Gregg, general counsel for the internal revenue bureau, and W. H. Trigg, an assistant, beginning their final argument in the $34,000,000 Ford stock tax before the board of tax appeals today, contended the government has a right to reopen a case for reassessment of taxes any time within five years on a showing of new facts or a discovery of error in the original computation. The arguments will be concluded tomorrow.

Former minority stockholders of the Ford Motor company, including Senator James Couzens [Rep., Mich.], the three Gray brothers, and the estates of John F. and Horace E. Dodge, appealed from a decision of Internal Revenue Commissioner Blair which changed the valuation placed on their holdings by the former commissioner, Dan C. Roper, and assessed an aggregate of $34,000,000 additional taxes on their profits from the sale of the stock.

Hundreds Search Stream for More Stolen Gold

(Picture on back page.)

Hundreds of people searched yesterday in a little stream for gold believed to have been hidden in its waters by the gang of bandits that several weeks ago held up the Illinois Watch Case company of Elgin, taking $50,000 in bullion. Ray Nebel, 19 year old farm boy, discovered some of the metal a week ago in the creek, which runs near Schaumburg, near the northwestern corner of Cook county. Officials of the watch company said that he will be rewarded for his discovery.

The Pine Tree Desk

Here is a piece to delight the lover of fine furniture!

This Pine Tree Desk is a thoroughly modern creation, yet very old and thoroughly correct in design. Each charming detail has its source in some fine old Early American piece. Its gayly painted interior and quaint pine tree carvings, for instance, are from a rare old dower chest. An early desk box inspired its secret well and the brass handles on the ends.

It is from such authentic documents in design that all Danersk Furniture is made. On display in our showrooms is a large collection of pieces and groups for all rooms of the house.

MURDER CHARGE BREAKS NEWS OF HUSBAND'S DEATH

Mrs. Sherman Hayden, 43 years old, of Indiana Harbor, yesterday learned for the first time of the death of her husband. The news came to her when she was arraigned in court at Gary, Ind., and charged with his murder. She fainted when told that a grand jury will meet today to return a murder indictment against her.

Mrs. Hayden shot her husband several weeks ago while he slept. Then she attempted to commit suicide by shooting herself. She was confined in a hospital until yesterday when she had recuperated sufficiently to be brought into court. She is temporarily blinded.

The wife did not know she had inflicted a mortal wound upon her husband and because of her weak condition, no one had informed her.

NIGHT WAITER HELD UP.

BOMBER ESCAPES VIA SKYLIGHT AT CITY HALL COURT

Other Prisoners Punished for Letting Him Go.

CRIMINAL COURT.

Louis Weatherbee, larceny, sentenced to 1 year in the Bridewell, by Judge Jacob Hopkins.

Essich Robinson, receiving stolen property, sentenced to 1 year in the Bridewell, by Judge William J. Lindsay.

William Lippert, contributing to delinquency, sentenced to 1 year in the Bridewell; Albert Brown, larceny, sentenced to 1 year in the Bridewell, by Judge John J. Sullivan.

Frank L. Prosek, burglary, sentenced to 1 to 20 years in the penitentiary, by Judge Kickham Scanlan.

(Picture on back page.)

William F. Krell, alias William Nelson, 3912 West North avenue, who has a police record as a bomber, auto thief and holdup man, escaped yesterday through a skylight from the prisoners' room in Judge Matthew Hartigan's court on the eleventh floor of the city hall. The escape occurred a few minutes after he had been held to the grand jury in bonds of $100,000.

Krell's flight, which was aided by several other prisoners in the bull pen, was noticed when Deputy Bailiff James Hefferan led another prisoner into the room.

Search for Him in Vain.

Immediately several policemen scurried to the roof of the building and several detective bureau squads were stationed about the exits of the building, but no trace of the fugitive was found.

An investigation was started immediately by Maj. Hamlet O. Ridgeway, chief deputy bailiff of the Municipal court, and the other prisoners in the room were taken before Judge Hartigan. James Morris of Forest Park, who helped Krell mount a chair to the skylight, and Dan Cuffe, 6407 Green street, who kept a colored prisoner from sounding the alarm, were sentenced to six months in the Bridewell.

Fined for Keeping Quiet.

Bert Baltz was fined $50, Albert Gokey, and Mike Gasperoin were fined $15 for making no attempt to summon bailiffs.

Krell was arrested with two companions several weeks ago as he was about to light a bomb in a garage at 73d street and Dante avenue.

ASSETS OF SLAIN HYMIE WEISS ARE SOUGHT BY U. S.

Federal agents on orders from Mrs. Mabel G. Reinecke, collector of internal revenue, yesterday started a search for the assets of Hymie Weiss, slain gagster. Weiss was believed to have large sums of money hidden away in safe deposit boxes and the government is interested in these, it was said, because of income and inhertiance taxes involved.

Meantime Weiss' estate is before Probate Judge Henry Horner, who yesterday gave the slain gangster's mother, Mrs. Mary Weiss, ten days in which to prove that a box in the Lincoln Safe Deposit company at 2805 North Clark street, in the name of Edward Meyers, really belonged to Weiss. Mrs. Weiss' attorney, Edward G. Purkiser, said he will use handwriting experts to prove the identity.

Judge Horner also awarded Mrs. Weiss the technical custody of a large sedan that Miss Josephine Simard, Weiss' sweetheart, had been demanding. The car actually is still in the custody of the police.

EXPERT ATTACKS EARL BEATTY FOR ACTS AT JUTLAND

Praises Jellicoe as Hero of German Repulse.

BY PAUL SHINKMAN.

[Chicago Tribune Press Service.]

[Copyright: 1927: By The Chicago Tribune.]

LONDON, May 25.—London received a severe jolt by the appearance of a new book by Ernest Harper completely upsetting the prevailing conception of the famous battle of Jutland, as well as demanding that Earl Jellicoe be considered the hero of that occasion instead of Earl Beatty.

"To Earl Jellicoe must go the verdict of that impartial referee—accurate history," writes Mr. Harper in "The Truth About Jutland." "As the misconceptions and misrepresentations which have surrounded the facts of Jutland are gradually and, I hope, finally cleared and the success attained on that day, when the whole issue of the great war hung in the balance, is more generally recognized, credit will be given where credit is due."

Cause of Delay.

The author intimates that the delayed appearance of his official record, which precedes and is the basis of the new book, was due to the significant fact that Earl Beatty has himself occupied Lord Wester Memyss' position on the board of the admiralty since November.

Mr. Harper does not admit that the battle was lost by the British, claiming the German fleet received greater damage than it inflicted, but he blames Early Beatty for his failure to achieve better results. The first sea lord is accused of inexcusable bungling, including clumsy maneuvering of ships, inaccurate shooting, as well as failure to inform Earl Jellicoe of an intercepted German message requesting an airship reconnaissance near Horn's Reef at daylight.

Tells of Officers' Mistake.

"Such information, if given to Earl Jellicoe, must have entirely altered his plans during the night," writes Mr. Harper, "but this vital information was withheld. Even then the situation might have been saved had not the commanding officers of our battle cruisers engaged the enemy at night and mistaken the German battleships for a line of smaller craft."

COURT CONTINUES TWO ADDITIONAL WOLFRUM TRIALS

Avery Wolfrum, former principal of the Palmer school, who was acquitted Tuesday of charges made by two girl pupils, will not know until June 29 whether he will have to stand trial on two other similar indictments. The two remaining cases were continued by Chief Justice William J. Lindsay until that day at the request of the state's attorney's office.

Attorneys Benedict Short and George Guenther indicated that they were ready to start to trial immediately unless the state would dismiss the remaining indictments. The judges, however, granted the continuance to give the prosecutors time to make up their minds.

EIGHT INJURED, 3 SERIOUSLY, AS TROLLEYS CRASH

Eight persons were injured, three women severely, early last evening when an east bound 69th street car left the tracks and crashed into a west bound car at Indiana avenue. Woodlawn police, who took the injured to St. Bernard's hospital, said their investigation showed the crash was caused by the breaking of a brake shoe that snapped when the motorman applied the air.

Mrs. Edith Rush, 40, 7237 Dante avenue; Mrs. Adeline Coppock, 22, 6018 Stony Island avenue, and Mrs. Hannah Murry, 50, 8046 South Justine street, were the most severely injured. The former had a fractured knee cap and severe cuts about the head; Mrs. Coppock suffered from a leg fracture and cuts and bruises, and Mrs. Murry was believed to have a fracture of the left jaw in addition to cuts and bruises.

Traffic on both the Indiana avenue and the 69th street lines was tied up for more than an hour by the crash.

A drink in time

OFTEN people go on feeling dull, listless, heavy, when it's not necessary. A sluggish intestinal tract or improper elimination is probably the most frequent cause of loggy moods in healthy folks.

That's why ENO has been called by some enthusiasts a "health drink." In homes of culture all over the world, ENO is chosen as the safe, mild, thorough laxative. A dash in water makes a bubbly, cooling drink that nearly everyone enjoys. Neither in its taste nor its action is there anything about ENO to remind you of ordinary "salts." Its taste is delightful and its action mild.

It will not only help to clear up that present loggy feeling, it may help to prevent real illness.

PURPORTED WILL MAY CLOUD TITLE TO $25,000,000

Cleveland, O., May 25.—(AP)—The strange story of a man, jilted by his sweetheart more than half a century ago, who retired to the seclusion of an old dilapidated house and there built up a fortune in real estate, entered a new phase here today with the filing of his purported will. If valid, the document would cloud title to about $25,000,000 worth of property in and around Cleveland.

The reputed will was filed by John Christ Jr., nephew of Valentine Christ, who was the largest landholder in this county when he died in 1910. Young Christ, a law student, said he found the old document, dusty and yellow with years, in a basket of papers in the attic of his home.

Sues and Breaks Will.

It was the second alleged will before the Probate court here. Soon after Valentine Christ's death a purported will was probated dividing his $2,000,000 estate between his brother, John Christ, and his sister, Mrs. Barbara Damback. A second brother, Adams Christ, was not mentioned. He sued to break the will and was successful, the court dividing the estate between the two brothers and the sister or their heirs.

The reputed will filed today leaves the entire estate to John Christ, now deceased. His heirs, in addition to John Christ Jr., are J. Oliver Christ and Mrs. Ethel Shamadan, all of Cleveland.

Includes Rockefeller Estate.

Included in the land that would be affected if the document is held valid is a portion of the site of the Cleveland Union station, now under construction, more than sixty other parcels of land, many of them prominent business locations, and a part of the extensive estate of John D. Rockefeller.

KNOWLTON CASE TO SHED LIGHT ON DUSKY "PRINCE"

Ex-Husband Gets Data for Fall Hearing.

Hectic social activities of Kojo Tovalou-Houeno, African prince without a principality, are to be exposed as the result of Superior Judge Harry Lewis' ruling yesterday that the black's mere association with Mrs. Zulme Knowlton did not justify her former husband, Harry N. Knowlton, in suspending alimony payments.

Attorney Frank H. Stephens, representing the French woman's former husband, made this announcement, declaring he would take depositions on the gold coast and in the black belt of Chicago, in New York, and maybe in Paris to show the character of the bogus royalty alleged to have been entertained by Mrs. Knowlton at her apartment, 37 East Schiller street, while Mr. Knowlton was in New York.

The announcement followed Judge Lewis' continuing until Sept. 19 Mr. Knowlton's motion to obtain custody of his child, Jacqueline, 8 years old, and to reduce the $200 a month alimony. Until fall the alimony wil be paid, but the claim for $1,800 back alimony will be held in abeyance.

Included in the additional evidence to be presented in autumn, Attorney Stephens said, will be a deposition from Gust Paul, now of Detroit, who was janitor of the Schiller street apartment at the time the African was crashing north shore society with his title.

The lawyer already has an affidavit from Paul telling of strange noises heard in the Knowlton apartment at 1 a. m. He also relates that one morning when he called at the flat to repair plumbing he was told by Mrs. Knowlton to return later in the day, as "the prince is asleep."

$2,200 ADDED TO IRONSIDES FUND; TOTAL IS $14,500

With an added $2,200 the Old Ironsides fund in the public schools yesterday rose to $14,500, Charles A. Brown of the mayor's button committee reported. Thus far returns have been received from 176 of the 344 schools.

Schools which have turned in more than $100 are: Lindblom High, $409; Lake View High, $395; Crane Technical High, $331; Cook, $134; Coonley, $100; Falconer, $110; Gale, $184; Gunsaulus, $138; Hamilton, $150, Haugan, $169; Kenwood, $119; Lawson, $122; O'Keefe, $110; Parker practice, $129; Penn, $110; Pope, $150; Skinner, $150; Swift, $301; Von Humboldt, $100; Wentworth, $101, and Yale, $128. Oak Park schools have taken 2,700 buttons and Maywood, 2,000.

A check for $100 was received by Mr. Brown yesterday from County Treasurer George F. Harding's office.

A contribution of $7.90 from the First Tank Corps, No. 245, and fifteen cents each from Roberta and Gwendolyn Noyes yesterday brought THE TRIBUNE "Save Old Ironsides" fund total to $3,380.20.

PRISON TERM FOR ACTOR WHO BEAT 'FRIEND' TO DEATH

(Pictures on back page.)

Los Angeles, May 25.—(AP)—Paul Kelly, athletic 27 year old movie actor, faces one to ten years in the state prison. A jury of eight women and four men today adjudged him guilty of manslaughter for his fatal fist attack upon Paul Raymond, stage actor, in the latter's Hollywood home.

Superior Judge Charles Burnell set next Tuesday as the day for imposing sentence. A notice that a motion for a new trial would be made was served by Kelly's counsel. The motion also will be heard on Tuesday.

"I guess the jury said what they thought was right," was Kelly's only comment. The pallor that had marked his face throughout the trial and the depressed and worried air, were unchanged as his fate was read.

Six months ago the convicted man was an actor in the east. There he had long been the fraternal brother in a New York city club of his victim. Dorothy Mackaye, wife of the slain actor, over whose love the state contended Kelly invaded his one time friend's home and beat him fatally, had been known by the younger man "since we were kids," he testified.

The state brought from the defendant the admission that about six or seven weeks after he arrived in California Raymond ordered him from his home on account of his attentions to Mrs. Raymond. Kelly admitted that at that time, just before last Christmas, he declared to Raymond that he was in love with Mrs. Raymond.

Witnesses testified, as the state contended, that Raymond's actress wife, during his absence with the musical comedy company, spent many nights alone with Kelly in his apartment.

SMALL INTEREST HEARING ENTERS MAZE OF FIGURES

Springfield, Ill., May 25.—[Special.]—For the first time since he was called into court to account for his stewardship of the Illinois state treasury, Gov. Len Small today abandoned his seat as a spectator. He followed the common impulse to get from under the flood of detail involved in argument on the sufficiency of the state's documentary evidence.

Special Attorney General Charles Hadley of Wheaton, went over the great mass of documents, analyzing the transactions having to do with the Grant Park bank, and meeting objections to the items made in the argument of Attorney Werner Schroeder, for Small.

Attorney Schroeder and his associates, F. G. Shransky and Richard Radley, followed the argument without the usual interruptions and suggestions. Assistant Attorneys General W. E. Trautman and Albert Rodenberg quietly checked the items as Hadley proceeded. At times, Master-in-Chancery Briggle, making pencil notations, would ask for the repetition of a figure, or the designation of an item.

The master, it was apparent, was making a special effort to get the point involved in each of the half hundred disputes over items in the account. It is reasonably certain that the decree in the case will go back to the supreme court for review and the master is anxious that neither the circuit court nor the higher court find errors of computation in the statement of the account.

7 NEW SCHOOLS TO BE OCCUPIED BEFORE OCT. 19

A report showing rapid progress in the construction of new school buildings was made to the board of education yesterday by John E. Byrnes, business manager.

The following seven schools are in the course of construction:

Barry school, Kilbourn avenue and George street, ready for occupancy June 15; Clark school, Fillmore street and Mansfield avenue, to be completed Aug. 1; Flower High school, Central Park avenue and Fulton street, ready Oct. 19; Locke school, Newcastle and Diversey avenues, ready June 15; McKay school, 69th street and Fairfield avenue, contract awarded; O'Toole school, 66th street and Seeley avenue, ready July 1; Twain school, 51st street and Linder avenue, ready June 18.

Fifteen other buildings will be under way, Mr. Byrnes said, as soon as the board awards contracts or final drawings are completed.

You don't gamble on Inland Tires

For Inlands are sold to you direct at factory prices and you have the protection of a definite guarantee of 8,000 to 15,000 miles

EVERY Inland tire carries a definite mileage guarantee—8,000 to 15,000 miles according to type and size of tire. It is a direct guarantee to you from the Inland Factory—Chicago's largest tire manufacturer.

Inlands Are Sold to You Direct From the Factory

The Inland Sales Depots are actually extensions of the factory for your convenience. Never before in the history of the tire business has a thoroughly high grade, quality tire been offered for sale on this basis or at anything like the low prices that this new selling method make possible.

You Save Distributor, Jobber and Dealer Expense and Profit When You Buy an Inland

There is only one profit in the Inland price—a normal manufacturing profit. Other tires usually carry four profits and you pay them. You don't even have to pay freight charges on Inlands because they are made right here.

Just Two Basic Things Make a Good Tire—They Are Built Into Every Inland

There's no mystery about making good tires. There are no secret formulas. The use of plenty of good material and the application of manufacturing skill will always produce a good tire. Every Inland tire has both of these elements and the remarkable mileage records that are being rolled up on Inlands is definite proof of it.

You Don't Have to Match Wits When You Buy an Inland

In every Inland Depot you will find a printed price list. It's the only such list put out by any leading tire company, as far as we know. Haven't you often had a feeling when you have bought a tire that maybe the next buyer would get a better price? Well you don't have to feel that way about an Inland. You know that no one can get a more favorable price than you get. All Inland buyers are equal. The price is the same—one tire or a carload, and that price is the lowest ever placed on a first grade, quality tire anywhere in the world.

Look at these prices! lowest ever offered on fine tires

SUBCOMMITTEE NAMED TO SPEED MINE WAGE BASIS

Beyond That Little Has Been Done at Parley.

Philadelphia, Pa., May 25.—(AP)—Some progress was made today in the efforts of the union miners and operators to negotiate a new wage agreement.

After two days of discussion of conditions in the Pennsylvania soft coal fields and in the bituminous territory generally a sub scale committee of six members each was appointed to get down to work and attempt to arrive at a basis for negotiations.

It was made clear by both sides, however, that no concrete proposition had yet been advanced. The miners said the joint conference was called by the operators and any proposition must come from them.

The subcommittee meeting this afternoon merely named J. W. Searles of Clearfield, an operator, as chairman, and adjourned discussions until tomorrow morning.

The operators tonight continue to say there must be a readjustment of the basis in negotiating a new scale and the miners say they are supporting the Jacksonville basis.

Charles O'Neill, head of the Central Pennsylvania Coal Operators' association, said there was a better feeling among the operators and miners than there had been at any time this year.

Fishwick for Old Scale.

Benton, Ill., May 25.—[Special.]—Harry Fishwick, president of the Illinois mine workers, indicated in an address to the fifth biennial convention of sub district No. 9, United Mine Workers of America, here, that he would never recommend a lower wage for the miners of this state than that provided in the Jacksonville agreement which the operators have refused to pay.

President Fishwick enumerated three plans necessary in his opinion to place the industry in Illinois on a stable foundation. First, he suggested federal restriction of development, saying that no one should be allowed to develop a new mine unless he could show there was a market for the coal. Second, he favored coöperation among all coal fields in the United States, so that there would be no underpaid nonunion field competition.

Third, Mr. Fishwick wanted the clearing up of these "discriminations in freight rates" that give the fields south of the Ohio river the edge over the organized fields.

Discusses Jacksonville Wage.

In discussing the Jacksonville agreement, Mr. Fishwick said: "The operators have said they can't pay the Jacksonville wages. We have had and have now, 4,000 men on company work on the Jacksonville scale. I wonder what the public thinks about any institution that says it can't do the things it is doing."

VOTE TO KEEP SEMINOLE CURB ON OIL OUTPUT

New York, May 25.—(AP)—In their effort to meet the overproduction crisis in the petroleum industry representatives of 20 petroleum producers operating in the Seminole field, meeting here today, unanimously decided to continue to limit the output in the area until 10 or more of the operators withdraw from the agreement.

A resolution was adopted approving the report of Ray Collins, umpire over the field, and retaining Mr. Collins to continue the direction of the curtailment plan. The resolution also commits the operators subscribing to it to extend the policy to the entire state of Oklahoma.

Shop Owner Arrested as Mutilator of U. S. Coins

Joseph Berg, 23 year old proprietor of the Princess Novelty shop at 221 South Clark street, was arrested yesterday on charges of mutilating government coins. Secret Service Agent Peter Drautzberg said Berg sold him a "sure thing" 50 cent piece for gamblers made by putting two coins together so that both sides were heads. United States Commissioner Beitler released Berg on bonds of $1,000.

With 97.7% of their advertising in The Chicago Tribune

John T. Shayne Co.

increases sales 68%

"The fact that our 1927 advertising is appearing exclusively in the Chicago Tribune is evidence of our faith in the influence of The Tribune. Our gains during the last three years are responsible for this faith. The Tribune carried the ball for us during 1924, 1925 and 1926."

Thos J. Considine

President, John T. Shayne Co.

THE John T. Shayne Company, veteran Tribune advertiser, has found not only that Tribune advertising space pays best, but that the greatest possible increase in sales comes through using practically all of its advertising appropriation in The Tribune.

In 1924 The Shayne Company decided to concentrate its advertising in The Tribune. Some space was used in other newspapers, but note the increasing use of Tribune space and the diminishing lineage in all other Chicago papers:

	1924	1925	1926
TRIBUNE	47,843	61,999	87,837
Other Papers . . .	23,796	10,651	2,050
Tribune % of Total	66.8	85.3	97.7

Sales increased steadily. And at the end of 1926 the volume of business was 68% greater than at the beginning of 1924.

Thomas J. Considine, president of The John T. Shayne Company, credits The Chicago Tribune.

"The fact that our 1927 advertising is appearing exclusively in The Chicago Tribune is evidence of our faith in the influence of The Tribune," Mr. Considine said. "Our gains during the last three years are responsible for this faith. The Tribune carried the ball for us during 1924, 1925, and 1926."

Shayne's recognition of the potency of Tribune advertising finds a parallel in the advertising of other leading apparel shops. Many placed a greater amount of advertising in The Tribune than any other paper, or in all others combined.

The Shayne Company put on this great increase in volume after 53 years in business. It was not a sudden growth, but a genuine increase on top of a sales volume already large. Its advertising had to reach both men and women, as The Shayne Company sells men's and women's apparel and furs.

The verdict of Shayne's and other leading shops should interest Chicago merchants and manufacturers who are not yet using the full power of dominating space in The Tribune.

The Tribune has more daily city and suburban circulation than any other Chicago newspaper has in TOTAL daily circulation. Advertise where most Chicago buyers look first!

Today's greatest value in the six-cylinder field

In this new creation of Hupmobile, the Six Brougham, is close-coupled beauty—the verve and dash of a four-passenger coupe—with ample provision for five adult passengers.

Finished in dark green or maroon with black upper body and smart striping, the luxurious Brougham presents the color-harmony found on cars of highest price.

Door openings are 36 inches wide and give generous room for entrance or exit. Individual front seats, thickly upholstered and shaped for greatest comfort, are adjustable for legroom.

Special interior features include remote control door handles; upholstery of genuine mohair; attractively patterned hardware and a new instrument panel, with all dials grouped under glass and indirectly lighted.

Not alone in the beauty and equipment that meets the eye, but in the sounder essentials of construction, Hupmobile Six creates a new conception of value at a list price of $1385.

You will be delighted in the quick functioning of the powerful six engine (aided by the new manifold heat control), the ease of steering and parking, the roadability that makes the longest trip both restful and enjoyable.

Providing all that the six-cylinder principle offers at a price several hundreds of dollars less than you would expect to pay, Hupmobile Six is called *the closest-priced six on the American market.* You will soon know why when you get behind the wheel of this stylish and comfortable Brougham.

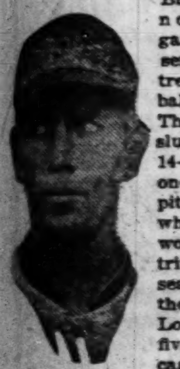
CUBS LOSE 8-5; SHUFFLE CARDS, WIN 8-4

WHITE SOX WIN EITHER WITH OR WITHOUT HITS

Take Browns, 14-8; Then Triumph, 1-0.

BY EDWARD BURNS.
[Chicago Tribune Press Service.]
(Box scores on following page.)

St. Louis, Mo., May 25.—The White Sox were victors over the St. Louis Browns this afternoon in two games which presented the extremes in baseball performance. The first was a slugging carnival, 14-8, and the second was a terrific pitching battle in which Ted Lyons won his seventh triumph of the season, 1 to 0, although the St. Louisans made five hits to Chicago's three.



TED LYONS.

The Sox didn't get a hit in the second game until the sixth, the inning following the one in which the lone score of the contest was scored, and the game was ended with a sensational diving catch by Metzler after Melillo had already run across from third.

The double win this afternoon lodged the Comiskey lads in second place by a margin of three games and advanced them within two games of the leading Yankees.

Falk Does Trick Stuff.

After holding the Sox hitless in three and two-thirds innings, during which he struck out four batters—three in succession—Win Ballou pulled a tendon in his arm and was forced to retire. Zachary, who had been driven to cover in the first inning of the first game, went in and allowed one nonproductive hit in the sixth and two equally harmless ones in the seventh.

The Sox made their winning run in the second game in the fifth without the semblance of a hit, but under circumstances which gave the crowd of 5,000 plenty to grieve about. Falk walked and was sacrificed to second by Kamm. Zachary threw to catch Bib off second, and would have had him had the throw been true. But the ball rolled into center and Bib went to third. Clancy batted a sharp one to O'Rourke and the Browns' third baseman had Falk off third, but the agile Texan pulled a fancy drop dodge and eluded the baseman.

Then on a scheduled squeeze play Ward missed the ball and Dixon and O'Rourke had Bib trapped for the third time in the inning, but by some miracle Bib again succeeded in getting under O'Rourke and was safe on third, from where he scored on Ward's sacrifice fly.

Sox Chase Zachary in First

The Sox lost no time in eliminating Zachary from the first game, landing on him in the first inning for five hits, which produced three runs before he retired, with two out, in favor of Ernie Nevers.

Metzler singled to left but was forced by Hunnefield, who stole second a minute later. Barrett singled over second scoring young Bill and McCurdy repeated scoring Barrett. Mac was out when he overran second on the throw in. Falk singled and scored on Kamm's double. Then Zach withdrew.

The Browns got back in the game in the same inning. O'Rourke scored on a double and two infield outs and Bing Miller put the ball in the left field stands. In the second inning Ken Williams tied the score at three each with a homer and in the third the Howley outfit forged ahead when O'Rourke walked and was driven in by Bing Miller.

The Sox again took charge of the situation in the fourth after two were out. Clancy doubled and came in when Ward also hit for two bases. Blankenship sent a homer into the center field stands, sending in Ward ahead of him.

Five Runs Assure Victory.

The Sox got their third three run cluster in the seventh. Hunnefield walked, went to third on Barrett's single, and scored on McCurdy's single to right. Falk's double drove in Barrett and McCurdy.

The Browns also collected three runs in this inning on a triple, a sacrifice, two singles, and two walks, which caused Blankenship to close his day's work and Connally to come on the scene to effect the third out.

The Sox staged another onslaught in the ninth, netting themselves five unnecessary runs. Metzler was thrown out, Hunnefield singled and stole second, Barrett struck out, McCurdy walked, Falk got his third hit to score Hunnefield, Falk reached third, and Kamm second when Capt. Will's drive got away from Rice. Clancy's double sent in Falk and Kamm and Bud ran across on Ward's single, making the score 14 to 7, to which the Browns added one in their end of the ninth.

COUNTY GROUP STUDIES DETROIT HIGHWAYS TODAY

Action to modernize Cook county's highway system and thus reduce the toll of motor accidents and at the same expedite traffic was promised last night as a delegation of county officials and representatives of the Chicago Regional Planning association departed for Detroit to study its highly improved highway system.

U. S. Again Bids for British Amateur.

[Chicago Tribune Press Service.]
[Copyright: 1927: By The Chicago Tribune.]

HOYLAKE, England, May 25.—There was a sensation today in the third round of the British amateur championship golf meet when E. H. Haley beat Cyril Tolley, a favorite, one up. Haley, a 23 year old American, was graduated from college last year and is visiting in England.

Today Haley took two of the first four holes from Tolley, who, luckily escaping hazards by narrow margins, squared at the sixth and galloped away to the turn, two up.

Decided at 18th Hole.

But Tolley was ready for a fight. After having three holes, he won the thirteenth and then ran down a three yard putt to square the match the fifteenth. Tolley was lucky to save himself at the sixteenth, for he ran into the bunkers twice and had to hole a three yard putt to halve the hole. He was lucky again at the seventeenth, where he pitched on to the grass nest of the bunker. This hole was halved and they went on to the eighteenth.

Haley, who had played steadily, was nicely on in two. Tolley pulled his drive and went into a grassy hollow. With a mighty swipe he sent the ball careening over the last green and into a bed of nettles. The ball could hardly be seen, but Tolley dug it out and it finished rolling two yards from the hole.

Meanwhile Haley had run his ball to within two feet of the pin. Even, they began to putt. Tolley missed his, and Haley holed his short putt, taking the match, and put one of the favorites out of the way.

To Play Former Army Champ.

In the fourth round, tomorrow, Haley will meet Maj. Keith Thorburn, former army champion.

Wethered, another favorite, had a tight squeeze. He was three down at the turn to Hashall of Bromborough, but played sound golf coming home, and won, three and two, taking six of seven holes.

Douglas Grant, the Californian who several times won the state amateur championship before settling in England, passed into the fourth round by beating Ronald Hardman, Lancashire champion, two up and one to play.

Germans Open Net Play in France Today

[Chicago Tribune Press Service.]
[Copyright: 1927: By The Chicago Tribune.]

PARIS, May 25.—Although the war ended nine years ago, German tennis players will appear in international play on French courts tomorrow for the first time since 1913, at St. Cloud.

By coincidence, Froitzheim, the German star who won the first French open singles title in 1912 and who was the leading German Davis cup player the year the war broke out, will play a French unknown in the first round of the singles.

Although the war cloud was just beginning to form in Europe at the time of the French championship contests in 1914, feeling was so high in both countries that Froitzheim, leader then as now of the German team, sent a last minute cable announcing his withdrawal from the French tournament.

England's attitude toward Germany was not known exactly then, so the next week the Germans played at Wimbledon, where Froitzheim worked his way to the finals. Then the war broke, and Froitzheim, although he was a captain in the German infantry, took his team to Pittsburgh and played in the Davis cup match in the fall of 1914.

Kleinschroot, another pre-war German star, also is scheduled to play tomorrow. Fraulein Aussem, the 18 year old beauty, will meet Mlle. Constostavalos in the women's singles.

Big Bill Tilden's first test comes day after tomorrow, when he plays Raymond, the South African Davis cup player, after which he still must beat Henri Cochet in order to meet either Jean Borotra or Rene La Coste.

BRIDGE ETIQUETTE.

It was one of those Evanston bridge parties where husbands out of town caused a preponderance of ladies. So after a couple of rounds our Hero found himself the only masculine at a table of four. Conversation teemed of hats and gowns until the ladies, if less interested in their subject, would have noted his visible annoyance.

Finally the dealer with the familiar "O, is it my bid?" passed, and our Hero, after several other bids, secured the play at three spades. His partner, now dummy, continued talking of the modes. On the third trick bidder's king of spades took the trick, which he gathered in clumsily, the cards falling to the floor. At the eighth trick king of spades again took a trick and again the cards fell to the floor. King of spades also took the final trick and bidder made five spades for game in one hand. Further, let us announce the three ladies were not novices either.

"How many spades did you have?" inquired one of the three. "Four," he replied. "But your suit was good," she added. "Not particularly," said he; "only two honors." "Well, that was clever bridge to get five tricks." "Surely; I played the king of spades three times," he brazenly announced. The icy silence which followed was unbroken until the winning pair moved to the next table.

And the worst of it for our Hero was that upon arrival home his wife called him good and hard for being discourteous.

SPEED RECORDS THREATENED IN 500 MILE GRIND

Race Pilots Tune Up Cars for Qualifying Trials.

BY JOHN JENKINS.
[Chicago Tribune Press Service.]

Indianapolis, Ind., May 25.—Jupiter and Mercury formed a winning combination today to bring the hundreds of high speed addicts already on the ground for Monday's fifteenth international 500 mile motor classic into the stretch of an unusually hard training period and to the eve of the fastest qualifying day ever recorded on the historic Hoosier track.

The former worked overtime, aided by high winds in Illinois, Indiana, Ohio, and other gasoline worshipping states to dry the roads and smooth the way for thousands of tourist parties bound for the Memorial day tilt.

The latter stepped up the forty-one cars entered to entirely new unofficial speed records and unless the middle west rains continue tomorrow and Saturday, all of the main trails leading from Chicago and other fan centers to the speedway will be in fair to excellent shape for travel, and unless tempered steel and tried and true motors blow up tomorrow, the qualifying trials of the afternoon will see speeds running to 120 miles an hour established.

Must Make 90 Miles an Hour.

A minimum qualifying speed for this year's race is 90 miles an hour for ten miles or four laps of the two and one-half mile brick track, but the boys who will wheel out for their first tests tomorrow may as well go home now if they can't do better than the deadline average. With forty-one cars entered and only thirty-three of them permitted to start, there will be a fierce battle for the right to even go to the tape let alone to win by speed margins the coveted positions in the first rows for Monday's flying start.

Only the thirty-three of the fastest cars will be allowed on the track Monday.

The record for the fastest lap on the Indianapolis course, won by Frank Lockhart last year, when he dynamited the rail birds on qualifying day is 115.56 miles an hour, officially timed by the American Automobile association contest board officials who rule the race. This year he has stepped his Miller up to 120 miles an hour for a full practice lap, and Leon Duray and Peter De Paolo have turned in laps at 119 miles an hour for the benefit of nervous stop watches held in the timing stand.

Many Hit 116 Mile Clip.

Many of the cars working out from the track garages have turned up speeds of 116, 117 and 118 miles an hour for the experts, but cannot as yet register the speeds officially with the contest board.

Eddie Edenburn, A. A. A. board representative and the tyrant to pilots who like to break the rigid rules of the big circuit game arranged his official equipment at the track today, and called for action from one and all.

It is his job to see that all of the minute details governing safety and sportsmanship are carried out to the letter from the moment the trials start until after the checkered flag falls on the weary winner of the world's greatest automobile contest.

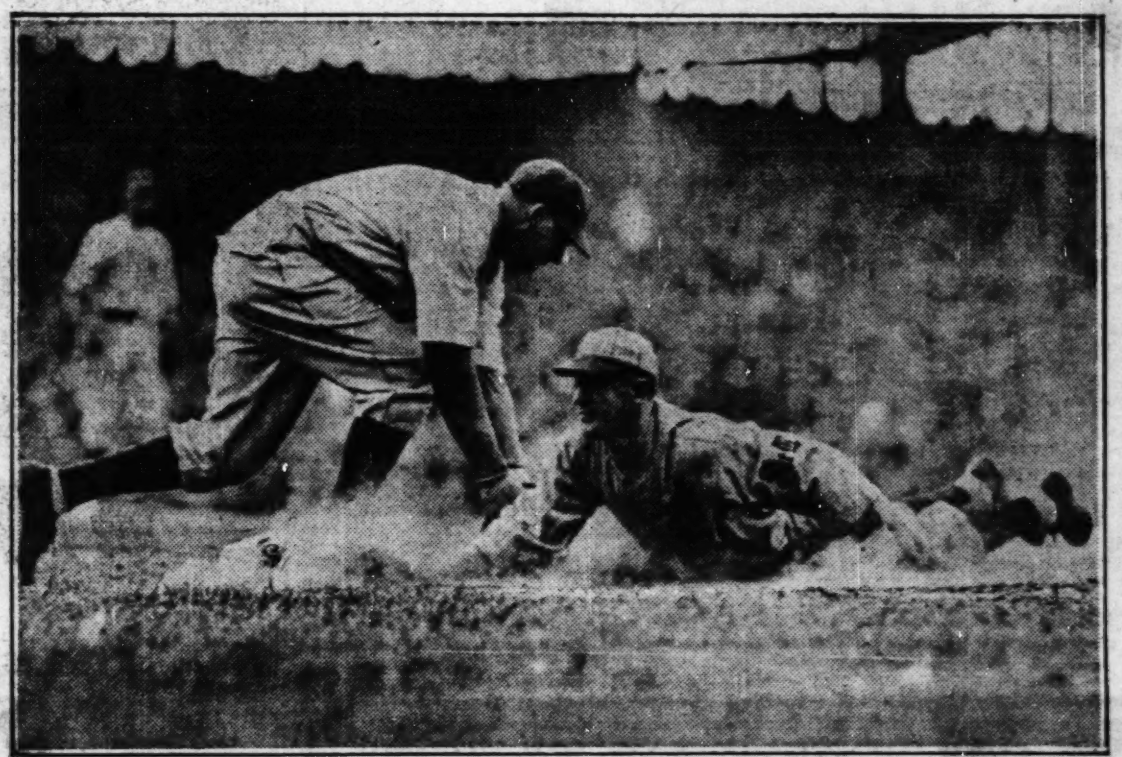
LONDON BRIDGE CLUBS TO ADOPT AMERICAN RULES

[Copyright: 1927: By The New York Times.]

LONDON, May 25.—The American rules for auction bridge, which have for a long time prevailed on the continent, are to be extended to England. A conference of the Turf, Bath, St. James, Whites, Almacks, Carlton and other London clubs, was held at the Portland club tonight to consider the matter.

Modern English bridge players clamored for the adoption of American rules for a long time, but the Portland club, which is the final court of appeal in these matters, resisted the change.

SCRAMBLING BACK TO SAFETY



Frank Frisch, speedy second baseman of the world's champion St. Louis Cardinals, nearly was trapped by a snap throw from Osborn when he wandered too far from first base in the sixth inning of the second game with the Cubs yesterday. Frisch had to dive headlong into the bag to beat Osborn's throw to Tolson.

Hit and Run! Chicago Beats Purple, 23-18

From amid the wildest orgy of base hits and constantly changing pitchers recorded in recent Big Ten baseball, the University of Chicago nine took a 23 to 18 victory from Northwestern at Evanston yesterday. It was the second victory in ten games for the Maroons.

Counting four runs in the first inning and scoring in each of the others, Chicago was always ahead in the scoring but was outhit and the Purple threatened continually.

Northwestern used seven pitchers. At one time Bill Hellerman, an aspirant this spring, was recruited from the grandstand and rushed into a uniform, but he walked three and was replaced. Capt. James "Ziggy" Solheim finished three years of athletic competition for the Purple by hitting five times and being walked twice. In all there were thirty-six hits for a total of fifty-six bases.

The game ended the Northwestern season with five won and six lost, a record identical to last year's. Score:

Battle Creek, Mich., May 25.—[Special.]—Johnny Weissmuller tonight clipped two-thirds of a second off his own world record for 300 meters. Weissmuller, swimming in the San Union pool before an enormous crowd, made the distance in 3:33 3-5. The former record of 3:35 1-5 was made in Philadelphia, March 25, 1922. Charles D. Lynch, president of the Michigan S. A. A. U. of Detroit, judged the event and sanctioned the time.

2 YOUTHS LEAD IN METROPOLITAN OPEN GOLF MEET

New Rochelle, N. Y., May 25.—(AP)—Two youngsters showed the way to an imposing field of 138 starters in the first round of the Metropolitan open golf championship over the Wykagyl Country club course today.

August Nordone, the New Rochelle caddie master, and William Burke, 25 year old Greenwich entry, covered a sodden course and conquered a steady drizzle in 71 strokes, one below par.

Bobby Cruickshank and Joe Turnesa were the only other competitors who could boast of par golf or better in today's 18 holes, each getting a 72.

The majority of the "big guns" came through with scores that may keep them in the running if backed with a good game tomorrow. Gene Sarazen, Johnny Farrell, Willie MacFarland, and Leo Diegel produced 75s to get a tie for fourth place. John Golden splashed home with a 78 and "Long Jim" Barnes got an 80.

White Sox to Play Twin Bill Monday Afternoon

The White Sox will play a double header Monday afternoon, Secretary Harry Grabiner announced yesterday. The first game with the Browns will start at 1:30 p. m.

BRUINS RESCUE NIGHTCAP WITH SPLURGE IN 8TH

Bell's Homer Wrecks First Game.

BY IRVING VAUGHAN.

After being smothered by their old companion, Pete Alexander, in the front end of a double header at Wrigley field yesterday, the Cubs decided they had better go to work. So they did, and the bargain bill that attracted about 26,000 denizens of the diamond world, terminated with an even break for the day. The champs made their headway by 8 to 5, and the Cubs came back with an 8 to 4 arrangement, both affairs being permanently iced by large innings.

BOB OSBORN.

The Cubs' hopes in the opening battle were ruined beyond redemption by what happened to young Tony Kaufmann in the fifth chapter. Until then the argument was fairly even, with every indication that if Old Pete hung around he would get it between the eyes. But, as luck would have it, some fluke hits, followed by a homer off Lester Bell's bat in the fifth, made the round good for a cluster of five tallies, and from then to the finish Alex had plenty of margin. However, he had a close call in the ninth when Bottomley saved him with a one-handed stab of Stephenson's drive for a double play. If the ball had escaped it would have put the tying run on second with only one out.

Cubs Rout Sherdel in Eighth.

Bob Osborn, who seems to have awakened to the fact that he is a pretty fair pitcher, came out to throw in the second encounter against Wee Willie Sherdel. At the finish Bob was still going strong, but the tiny Cardinal southpaw was no more. He vanished in the eighth, when the Cubs, after letting an early lead simmer down to a tie, put on the big inning and clouted four runs over the plate. The honor of starting this chapter fell to the large but festive Hack Wilson, who singled. Hack also had the honor of finishing the rally by looking at a third strike thrown by a rookie hurler entitled Littlejohn.

Among the outstanding achievements of the long afternoon was a homer inside the park by Earl Webb, who appeared only in the first game because of his objection to southpaw pitching. Webb caught hold of one of Alex's foolers in the seventh and shot it on a line to right center. Douthit ran over to the fence with expectations of snaring the missile, but it went right through his paws, caromed off the screen and into center. Eventually Douthit captured the ball, but before he could get it back to the infield Webb was at the plate. It was Big Earl's seventh of the season and was the first homer made inside the Cub park in more months than one man can count.

Bottomley, Bell Hit Homers.

The Cardinals picked up a three run lead off Kaufmann in the first game before the Cubs even could make an impression at the plate. A pass and a couple hits scored one champ in the second and two went across in the third when Bottomley hoisted the ball into the wind and dropped it over the right field bleacher for a homer with Frisch on base. Then the Cubs got busy and grabbed a couple runs in the fourth on a pass to Tolson, Hartnett's double, an out and Adams' single. That left them one short of a tie, but Kaufmann's luck deserted him almost immediately.

Opening what proved to be a noisy and disastrous fifth, Douthit beat out a hit to short. Frisch flied out and Bottomley got a single on a pop-up that the wind blew away from Cooney. Hafey scratched a hit to Beck and this jammed the sacks. Blades cut off a pass for himself, forcing Douthit to score. Then Bell knocked the ball over the left field fence and a whole regiment of runners nicked the plate. Bell's homer hit the limb of a tree outside the park and bounced back onto the field, but it was a homer nevertheless. After this Roy pitched and did well, but the Cubs couldn't overcome that five run inning.

Sherdel Wabbly at Start.

It was mainly because of Sherdel's shakiness that the Cubs hopped away to a two run advantage in the second round of the nightcap. Stephenson led off with a single and Tolson fanned. Gonzales tapped the ball back at Sherdel and the southpaw thought he could catch Stephenson at second, but his peg was wild. This seemed to irritate him and he followed with a wild pitch that permitted both runners to advance. Beck dropped a single in short right, sending Stephenson home and Osborn was the author of a similar single, Gonzales scoring.

The Cubs couldn't gauge the wind in the third so the Cards enjoyed two hits which, with a pass, let a run score, but the Chicagoans immediately made up for it. This was another spot in which Wilson was prominent. The half opened with Scott walking. Hack gave the ball a terrific ride and it splashed against the fence in distant dead center. Scott scored with ease and Wilson pulled up at third. He ran home under the protection of

Tolson's long fly. With this splurge disposed of the Cubs sort of eased off and nothing was heard from them until they broke loose like a gang of rowdies in the eighth.

Osborn went along so impressively that in the first five innings the champs made only three singles, two of those being due to the wind. But Frisch upset Osborn's mechanism by beating out a bunt to start the sixth. Bottomley followed with a walk. Hafey flied out and when Blades singled to right Frisch scored and Bottomley went to third. Bell bounced one to short and the ball smacked Cooney on the side of the face but hopped in such a way that Adams was able to grab it and step on second for a force out, Bottomley scoring. Then the Cards tied it on hits by Bottomley and Bell in the eighth.

Wilson inaugurated the home eighth with his aforementioned single. Stephenson also hit safely and so did Tolson, sending Wilson home. Gonzales tapped to Frisch and Stephenson was run down at the plate, but he dodged up and down the line long enough to let Tolson reach third and Gonzales second. Beck sent a single spinning past Frisch, and both Tolson and Gonzales counted. This was the end of Sherdel. A minute later Adams singled off Littlejohn and scored Beck with the final run of the afternoon.

WALLACE WINS LOW GROSS PRIZE AT GLEN ACRES

BY HARLAND ROHM.

Bill Wallace of Jackson park and Lincolnshire who has won a city championship and a few others, knocked off low gross with an 84 at Glen Acres first invitational meet yesterday. The score was nothing to apologize for, considering the windy weather. Second low gross went to H. A. Grow with 95, J. B. Wiley 100-28-72 got the sweater for low net; N. Esdohr, second, 103-30-73, after a tie and a drawing with Frank O'Donnell 99-26-73.

W. A. Senney won the ball sweepstakes. The best exhibition of golf of the day was turned in by W. A. Hennessey who said he couldn't drive, play an iron, pitch, or anything else, but he turned in a card with exactly 27 putts, "nine under par," for his eighteen holes.

E. B. Glidden won low gross on the first nine with 43; Pete Galbask second with 44. George O'Shea topped the second nine low gross with 43; Ed Purnell second, 43, and J. Birch third, 44. R. D. McFadden won the blind bogey with 90. Joe Roseman, who designed the course, proved that he hadn't built a course too tough for himself. He didn't compete for any prizes, but his card—he was shooting with Harvey T. Woodruff, who confirms it—read 39—38—77. Leading low net scores:

[Chicago Tribune Press Service.]

Aurora, Ill., May 25.—Honeynook, a coal black 2 year old from Nevada, called a quitter here two weeks ago, ran away with the juvenile championship of the spring turf season here today, when he was a cantering winner by four lengths at the windup of the Grange handicap.

Nearest to him at the finish of the parade was Elevate, a smart youngster from New Orleans, and Bill Seth, which had won his four previous starts here. Trailing these money horses in fourth place was Sun Sabeur, the best youngster Willis Sharpe Kilmer has shown under silks in Illinois.

Honeynook Leads by 10 Lengths.

It was a romp for the little black horse from Nevada, all the way. His tremendous early speed carried him to a ten lengths lead by the time they had gone a quarter. Jockey Pendergrass took a tight hold on him then, and as they bounded into the stretch he was still eight lengths in front. He didn't have to extend himself from then to the finish to win by four lengths from Elevate.

Honeynook was brought here by the Nevada Stock Farm stable, but despite his great early foot showed signs of being a quitter in his early starts and a week ago was dropped into a claiming race out of which H. C. McConnell secured him for $2,500. This was his first victory for his new owner, and the easy maner in which he disposed of the good band behind him indicated that he may be a coming star.

His easy victory was predicted by the crowd, and he was backed with confidence, going to the post only a little better than an even money favorite, paying $4.20 for each two dollar ticket.

Majestic Rides Great Race.

There was also considerable support for the Kilmer colt and for Bill Seth. The race was at 4½ furlongs and was run over a heavy track.

John Majestic, the little old man of the saddle, was the hero of the six furlong fourth race, which served as the secondary feature, when he kept Waponoca running long enough to score the narrowest kind of a nose decision over the 25 to 1 shot Rubinette. It was the courage of Majestic, rather than the gameness of Waponoca, which decided it.

After racing Bathilde Seth into defeat rounding the last turn Waponoca was still out in front with Majestic carefully picking a path in the better going as they headed into the stretch. Running over horses back in the second flight was Rubinette; the long shot came so fast that he was up and lapped on Waponoca a half furlong out. Waponoca was showing signs of distress. He wanted to quit to this last minute rush of Rubinette, but Majestic wouldn't let him quit. He picked the faltering son of Ultimus up almost bodily and applied the whip so energetically that Waponoca kept going and held to his slight lead until they passed the finish line. Redskin was a distant third.

North Woods Guides Set for Holiday Rush

BY BOB BECKER.

[Chicago Tribune Press Service.]

Mercer, Wis., May 25.—After cruising around the lakes and streams from Woodruff to Ashland, we find the north woods guides are going to be ready to take care of the hundreds of early season anglers who are expected to hit the north country this week end as a result of the opening of the fishing season for muskellonge, wall-eyed pike and northern pike on May 25.

As far as we can determine the pike and the muskies are through spawning, so the decks are cleared for some real fish battles this week. No black bass can be taken at this time. June 20 remains the opening date for the bass fishing.

The lake fishermen ought to fare well this week-end, but we advise the river fishermen and canoeists to wait a few weeks, as the streams are running wild as a result of heavy rains. The Manitowish is way up and so is the Turtle river, which we inspected this morning. Trout streams also are swollen and dirty, and it will be several weeks before the fly fisherman finds normal conditions.

We thought we were in Wyoming this afternoon, while looking over the country around Trude lake. As Charley Lacey was driving us through the forest we looked up and saw a big elk ambling away into the timber. It was one that had made its getaway from the former Jerome Hunting and Fishing club. Apparently some one left the gate to the animal preserve wide open, so Mr. Elk took shore leave without delay.

CALLAHAN BLOWS BUGLE; SAYS IT'S TAPS FOR MYERS

Champ Bets He'll Win by Knockout.

BY WALTER ECKERSALL.

Mushy Callahan, world's junior welterweight champion who will defend his title against Spug Myers at Cubs park Tuesday night, is confident he will win by a knockout.

"If Myers will do his share of the leading, I will stop him inside of eight rounds," Calahan said yesterday. Callahan and his manager have wagered a good share of their end of the purse that Myers will not answer the bell for the tenth.

Myers Expected to Lead.

Callahan is rated a good counter puncher. If Spug elects to lead, Mushy will beat him to the punch most of the time. If Myers holds back, Callahan will do plenty of damage with his left hand, one of the best in the game.

Judging from his previous fights in Chicago, Myers will carry the battle to the champion. He took Callahan's punches at the Coliseum last winter when he won a ten round decision over the champion and had Callahan in a bad way toward the end of the fight.

Myers has plenty of confidence. He will enter the ring without fear, while he knows Callahan will be a trifle wary at times. Spug repeatedly has told his trainers he feels stronger than at any time in the last year and he believes he is hitting harder and timing his punches more accurately.

Both engaged in strenuous workouts yesterday. They went on the road in the morning and later worked out at the gymnasium. The champion boxed three rounds with Patsy Rocco and as many with Benny Chaves. The challenger took on Armando Santiago and Trip Limbaco.

Freeman Boxes Today.

Tommy Freeman of Cleveland, looked upon as the strongest contender for the welterweight title held by Pete Latzo, will spar this afternoon. He will meet Myer Grace of Chicago in the ten round semi-windup Tuesday night. Freeman twice has defeated Joe Simonich, who gave Latzo a drubbing at Dexter Park pavilion last winter.

Haakon Hanson of Norway and Mickey Forkins have been matched for the semi-windup to the Jock Malone-Wolcott Langford ten round bout at the Logan Square baseball park on June 3.

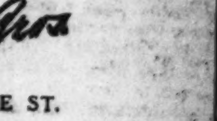
Kro-Bat construction (greatest strength)
Smaller head
TOP-FLITE the fastest tennis racket ever built
Marvelous balance
Open throat (greater flexibility)
Tighter stringing



"We must have a speedier bat"
said the world's crack players

"A RACKET has got to be constructed along different lines. No bat today is fast enough for the game". That is what champions said. That is why a group of world famous stars asked Spalding to make a faster racket—one suited to the modern, lightning-fast, all-court game.

Spalding set out to make such a racket, and asked these stars for their suggestions. 500 experimental bats passed through their hands before one received their unanimous approval. But the 501st bat got it! That bat we named "Top-Flite". It was played by the winners, both men and women, in many of last year's important tournaments.

That bat is now ready for you. Lighter head—yet in perfect balance. Smaller head, which permits tighter stringing. Kro-Bat construction, to give it strength for many restringings. Open throat, which gives it a new, delightful flexibility. There is a Top-Flite here which will suit you exactly. Come in and find it. Price $15.

Hogs fell to new low levels under of the second largest Wednesday receipts since January, 1926, the total at 22,000, comparing with 17,087 the previous Wednesday, with 15,428 a year ago and 16,482 two years ago. The closing of the market next Monday—Memorial day — prompted some feeders to unload this week. Declines of 5@15c were cited, general average declining 10c at $9.15, with top off 15c at $9.50, against a top of $9.90 and average of $9.60 a week earlier.

A year ago hogs sold up to $14.35, with the average at $13.85. Salesmen refused to accept more than a 15c cut in prices, resulting in a slow close, with large packers indifferent buyers after an unsuccessful attempt to reduce Tuesday's costs 25c. Outside demand was larger for Wednesday. An estimated 10,000 remained in the pens at the close, with 29,000 expected for today, against 20,920 last Thursday.

The cattle market ruled strong, good shipping demand supporting better grades in the face of an increase in offerings of steers eligible to above $12.00. Quality showed a marked improvement, although top notch 1,400@1,500 lb averages were absent. Best available averaged 1,284 lbs at $13.75, highest for that particular weight since 1925 and within 10c of last week's peak. Nebraska yearlings averaging 1,075 lbs advanced the top in this branch 10c further at $12.35. Butcher stock was firm, yearling heifers selling up to $10.85. Calves slumped 25@50c. Little change was made in stocker and feeder quotations.

The arrival of the first spring lambs of the season from Idaho featured yesterday's trade. The lot of 800 averaged 72 lbs at $17.00, against $18.65 for the first in 1926, marketed June 1. The first in 1925 arrived June 2 and sold at $16.15, with the first three years ago marketed May 28 at $17.15. California springers sold at $16.65. Aged shorn lambs were unchanged, best available selling at $14.75, against $16.00 the corresponding day a year ago. Aged and yearling sheep were steady, 90 lb yearlings up to $13.50 and 104 pounders at $13.25.

FARM AND GARDEN

BY FRANK RIDGWAY

Ants pay their annual visit to lawns, gardens and golf courses about this time of the year. Complaints of the pest are already coming in from those who are trying to find an effective way of getting rid of the ant colonies without injuring the grass or vegetable crops.

Herrick, an authority on household insects, says the only method of getting rid of ants permanently is by finding their nests and treating them in such a way that the queen will finally be destroyed. Then no more eggs will be laid and the production of workers will cease.

Carbon bisulphide, he finds, is one of the best ways of killing the queens and exterminating the workers. The best way to use the carbon bisulphide is to punch several holes in the ants' nest with a sharp stick, pour in an ounce or two of the chemical in each hole, then immediately close the mouth of the hole with a clod of dirt. The carbon bisulphide gives off a gas. The fumigation will be more effective if a heavy, wet blanket is thrown over the nest soon after the carbon bisulphide has been poured into all the holes.

Herrick says the liquid evaporates quickly and the gas permeates the whole nest, killing the queens and workers and exterminates the colony. By attaching a torch to the end of a long pole and extending it out over the nest while the operator stands at a safe distance, the gas may be exploded and the fumes driven into all corners of the nest.

ALTHOUGH the annual production of manufactured ice now exceeds fifty million tons, valued at $350,000,000, the business is actually in its infancy. At present less than 40% of American homes use ice at all, and less than 8% use it the year round.

Ice is the only form of refrigeration financially possible for over 90% of the population.

These Bonds will be secured, in the opinion of counsel, by a First Mortgage on all real estate, buildings and telephone plant now owned or hereafter acquired by the Company. Further Bonds may be issued but only under the conservative restrictions of the mortgage. Book cost of real estate, buildings and telephone plant, December 31, 1926, was approximately $112,800,000, or over 2¾ times the $40,000,000 First Mortgage Bonds. Present actual value greatly exceeds the book cost.

Total annual interest charges on funded debt including this issue are $2,000,000. Average net earnings after depreciation charges for the five years ended December 31, 1926, were 2.25 times these interest charges.

The capitalization of the Company upon completion of present financing will consist of $49,080,400 capital stock and $40,000,000 First Mortgage 5% Bonds, $30,000,000 Series A and $10,000,000 Series B (this issue).

Dividends on Capital Stock at the rate of 8 per cent. per annum have been paid continuously since January 1, 1891. Present market price $145 per share indicates market value of equity junior to funded debt of more than $71,000,000.

WE RECOMMEND THESE BONDS FOR INVESTMENT

Price 102½ and Interest, Yielding about 4.85%

We offer these Bonds subject to approval of Counsel and if, as and when issued and received by us. All legal details in connection with this issue will be passed upon by Mr. P. Beullac, K. C. for the Company, and by Messrs. Meredith, Holden, Heward and Holden, of Montreal for the Bankers. It is expected that receipts of the Royal Trust Company will be ready for delivery on or about June 6, 1927.

The HUMAN SIDE *of* Wimsett SYSTEM

"Wimsett System" is the medium whereby honest, conscientious, deserving persons, in time of stress and emergency, can receive financial relief without exploitation.

Back of every loan made by a Wimsett System Company is a very human and commendable ambition to better the borrower's condition. Providing proper medical care; burial of loved ones; repairing the home; payment of debts—these are a few reasons why people borrow money of a Wimsett System Company.

Combining a definite service for putting the individual on a substantial financial basis, Wimsett System thereby promotes genuine thrift in the community served. This is one of the cardinal reasons why successful men are interested in the establishment of a Wimsett System Company in their community. Further, they recognize that the providing of financial facilities for workers who have no banking affiliations strengthens not only the individual's but the community's credit structure.

In nearly every city of ten thousand population or more a Wimsett System Company is an economic necessity; as essential as electricity, water or the telephone.

National Wimsett Company, upon request from business or professional leaders, or from business organizations, makes a careful survey of local conditions and, if results justify it, will aid in the organization of a local Wimsett System Company.

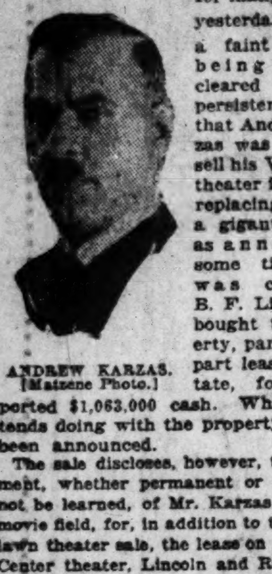
KARZAS SELLS HIS "WOODLAWN" TO LINDHEIMER

BY AL CHASE.



ANDREW KARZAS.
[Matzene Photo.]

Woodlawn's baffling cinema enigma, which has flickered along mysteriously for many months, yesterday showed a faint sign of being partly cleared up. The persistent rumor that Andrew Karzas was going to sell his Woodlawn theater instead of replacing it with a gigantic movie as announced some time ago, was confirmed. B. F. Lindheimer bought the property, part fee and part leasehold estate, for a reported $1,063,000 cash. What he intends doing with the property has not been announced.

The sale discloses, however, the retirement, whether permanent or not could not be learned, of Mr. Karzas from the movie field, for, in addition to the Woodlawn theater sale, the lease on the North Center theater, Lincoln and Robey, and also on the State theater, Hammond, Ind., was assigned by the Karzas Theater corporation to the Lindheimer interests.

Continue With Ballrooms.

Mr. Karzas, of course, continues with his Trianon and Aragon ballrooms. In addition, he hints that he may erect a third dance establishment. Sonnenschein, Berkson, Lautmann & Levinson and Jacobson, Merrick & Latter were attorneys in yesterday's deal.

The Woodlawn theater property acquired by Mr. Lindheimer at the southeast corner of East 63d and Maryland contains approximately 74,250 square feet and consists of a ninety-nine year lease covering eighty-one feet of frontage on 63d and also an outright sale of the fee of the balance of 275 feet of frontage owned by Mr. Karzas. The property is bounded by 63d street, Maryland avenue, and 63d place.

Several points in the Woodlawn cinema situation continue clouded. Where is the announced Marks Brothers' Woodlawn theater going to be built? How do Balaban & Katz figure in the Woodlawn movie situation with the withdrawal of Karzas from that neighborhood? Both these points probably will be answered shortly one way or the other.

Covent Garden Sold.

The Covent Garden theater building at the southeast corner of North Clark and Dole avenue, 125x250, containing a big movie leased to Lubliner & Trinz, nine stores and a seventy room hotel, has been sold by Edward M. Bertha to Max Messner for an undisclosed consideration. J. George Beier represented all parties.

The Lake Shore Trust and Savings bank yesterday took title for undisclosed parties to the 100x106 at 6 West Maple street. It is intimated that when State street is widened and the east line of this property fronts on that thoroughfare, a tall building may be erected. Earle A. Shilton and F. E. Reed of Mr. Shilton's office and the Real Estate corporation were brokers.

The Rothschild Brothers Hat company of Chicago and St. Louis have leased the four story building at 512-20 South Wells street from the Otto Young estate for eleven years through Alfred L. Miltenberg & Co. The lessees will remodel and occupy the building Jan. 1, 1928.

Long-Bell Lumber.

A. W. R., Moline, Ill.—Long-Bell Lumber corporation reported net profit of $2,718,036 for 1926, against $4,312,178 for 1925.

This was equivalent, if applied directly to class A stock, to $4.57 a share [no par] in 1926, compared with $8.10 a share on class A in 1925.

Surplus for the year was $325,369 in 1926, against $2,416,237 in 1925.

Current assets amounted to $17,024,263 and current liabilities to $5,360,113 at the end of 1926.

Net working capital was $11,664,150, which compares with $8,720,094 at the end of 1925.

Net income for the first quarter of 1927 was $716,735, against $1,159,259 for the first quarter of 1926.

This was equal to $1.21 a share on class A stock in the 1927 period, compared with $1.95 a share in the 1926 period.

The company is paying a $4 dividend on the class A stock at present.

With the lumber industry engaged in price cutting and overproduction, however, it does not seem unlikely that the directors may take steps to conserve cash resources by omitting the next dividend.

The class A stock is of medium grade and speculative at present.

We cannot predict future earnings or the course of the market.

*As the State by law is required to levy taxes on the same valuation basis used by cities and counties, the latter make a practice of maintaining a low ratio (usually from 15% to 20%) of assessed to actual values so as to avoid disproportionate contributions to the State.

York County is located in an important industrial and agricultural section of South Carolina. Transportation facilities are afforded by the Seaboard and Southern Railways. York is the County Seat while Rock Hill, with a population of 8,812 (1920 Census), is the chief city.

These Bonds, issued for highway construction, are general obligations of York County, payable from unlimited ad valorem taxes upon all the taxable property therein. They are further secured by a Reimbursement Agreement, whereby the State of South Carolina, through its Highway Department, agrees to repay to York County each year from 1935 to 1947 certain sums of money sufficient to meet the maturities of these bonds out of the State Highway Fund, consisting of the Automobile License Tax, Federal Aid, and three-fifths of the five cent gasoline tax.

5¼% Sinking Fund Gold Debentures

Due June 1, 1939

Price 99¼ and Interest, Yielding Over 5.33%

A sinking fund is provided calculated to retire over 50% of these Debentures by maturity

The company will agree to pay interest without deduction for any federal income tax up to 2%

The following information is taken from official sources:

The company is one of the largest producers of crude oil and natural gas and the largest manufacturer of natural gasoline in the United States. It has recently purchased control of the Oklahoma Natural Gas Corporation, the largest gas utility in Oklahoma, supplying gas to the principal towns and cities in Oklahoma, including Tulsa, Oklahoma City, Muskogee and Okmulgee.

These Debentures will be the company's sole funded debt. The Consolidated Balance Sheet of March 31, 1927, after giving effect to this issue, shows net assets after deducting all liabilities other than the funded debt of over $150,000,000 or more than 375% of this issue. Based on current quotations the company's no par value capital stock has a present market value of over $100,000,000.

Net earnings after depreciation and depletion but before interest and income taxes have increased each year for the last five years, averaging $11,822,498 annually, or over five and one-half times the annual interest of $2,100,000 on these debentures; for 1926, net earnings were $24,342,847 or over eleven and one-half times the annual interest.

The Trust Agreement will provide that, except for purchase money mortgages, mortgages existing on properties hereafter acquired and pledges of current assets for not more than twelve months in the ordinary course of business, neither the company nor any subsidiary (except Oklahoma Natural Gas Corporation) may create any mortgage on its property or pledge any of its assets without securing these debentures equally and ratably.

We recommend these debentures for investment and shall be pleased to send circulars describing the issue in detail.

SEMI-ANNUAL SINKING FUND SUFFICIENT TO RETIRE THE ENTIRE ISSUE BEFORE MATURITY

Mr. G. Henry Mahlstedt, President of the Company, has summarized his letter to us as follows:

HISTORY AND BUSINESS: The J. A. Mahlstedt Lumber and Coal Company was incorporated in 1895 in New York, with an authorized capital of $75,000. Since incorporation the business has been built up to its present size without the introduction of additional capital. The Company deals in coal, lumber, masons' supplies, millwork, cement blocks, paint, steel, etc., and is the largest dealer in builders' supplies in Westchester County. In the latter part of 1926 the Company purchased the businesses of four old and well-established companies operating yards at Mount Vernon, White Plains, Yonkers and Croton-on-Hudson. In addition to these four yards, which are on leased property, the Company owns in fee, yards in New Rochelle (including a dock property), Mamaroneck and Rye.

PROVISIONS OF TRUST INDENTURE: These Debentures will be the direct obligation of the Company and will constitute its only funded debt. The Trust Indenture will provide that during the life of this issue the Company will not create any mortgage or lien on its property (excepting only purchase money mortgages on real property subsequently acquired not exceeding 60% of the cost of the property covered thereby or the value thereof, whichever is lower), or will not create any indebtedness (except purchase money obligations subsequently created in connection with the purchase of real property and obligations incurred in the usual course of business maturing not later than one year). The Company may also acquire real property subject to mortgage or other liens provided that the same do not exceed 60% of the value of such property. The Indenture will also provide that dividends may not be paid nor expenditures of a capital nature made if the net current assets of the Company as defined in the Indenture will be thereby reduced below $1,500,000, or 110% of the principal amount of Debentures then outstanding, whichever shall be the greater.

ASSETS: The Consolidated Balance Sheet of the Company, certified by Messrs. Price, Waterhouse & Co., as of December 31, 1926 after giving effect to this financing, shows net current assets of $2,197,631.37, or $1,489 per $1,000 Debenture Bond and net tangible assets (after deducting all liabilities except this issue) of $4,141,290.46, or $2,807 for each $1,000 Bond.

EARNINGS: The combined earnings of the constituent companies for the 5 years ended December 31, 1926, after depreciation based on book values and adjustments with respect to executives' salaries (based on present contract rates) and to rentals in accordance with leases now in effect, are reported by Messrs. Price, Waterhouse & Co., as follows:

Year Ending December 31st	Profits as above before deducting Depreciation, Interest and Federal Income Tax	Depreciation Based on Book Values	Profits as above before deducting Interest and Federal Income Taxes
1922..............	$382,556.33	$21,506.58	$361,049.75

5 Year Average.........	461,631.50	36,502.99	425,128.51
Maximum annual interest charges on these Debentures			$ 95,875.00

For the 5 years ended December 31, 1926 profits, before depreciation, interest and Federal Income Taxes, were 4.8 times the maximum annual interest charges on these Debentures and for the year ended December 31, 1926 were 5.3 times, and after deducting depreciation based on book values these charges were earned 4.4 times and 4.7 times, respectively.

In no year for the last 18 years has the Company failed to make a profit after all charges.

SINKING FUND: The Trust Indenture under which these Debentures will be issued will provide for semi-annual sinking fund payments beginning February 1, 1928, sufficient to retire the entire issue prior to maturity.

PURPOSE OF ISSUE: The proceeds from the sale of these Debentures will be used to reimburse the Company for the acquisition of certain businesses, the refunding of the present indebtedness and to provide additional working capital made necessary by the growth of the Company's business.

Legal proceedings in connection with this issue are being passed upon by Messrs. Simpson Thacher & Bartlett, of New York, for the Bankers, and Messrs. Chadbourne, Hunt, Jaeckel & Brown, of New York, for the Company. Appraisals by The American Appraisal Company and Messrs. Prince & Ripley. Audits by Messrs. Price, Waterhouse & Co. We offer these Debentures when, as and if issued and accepted by us and subject to approval of counsel. It is expected that temporary Debentures or interim receipts will be ready on or about June 1, 1927.

CONSERVATION OF SOME RESOURCES OF U. S. IS BEGUN

BY HARPER LEECH.

While the United States is pouring out its reserves of well oil in reckless profusion, storing up hundreds of millions of barrels in expensive tankage subject to leaks, evaporation and fire, to say nothing of a terrific carrying charge, it is notable that a reverse policy is being pursued in regard to some other important and relatively rare resources.

Last year our shipments from domestic mines of high grade manganese ore containing 25 per cent or more of manganese were less than half as large as similar shipments in 1925.

This is largely due to the enterprise of the Harriman group, who are exploiting the Russian reserves of high grade manganese, the Bolshies being unable to develop industries requiring much of the product.

In the case of rare metals, the mining of which involves but little payroll and increases the sum of business activity only slightly, wise statesmanship would dictate tariff policies to encourage imports and to prevent the present development of domestic resources.

◆

Statesmanship of the future is going to be written very largely in terms of chemistry and geology. In the past much of it has been biological. A few rubber tree seeds carried from Brazil to Kew Gardens in London by a botanist some 50 years ago have sprouted into one of the principal financial props of the British empire. The transplantation of sugar cane, coffee, and other plants from one part of the earth to another have resulted in major changes of world politics. The smuggling of silk worm eggs from China to Constantinople by missionaries sent out by Justinian gave the dying eastern Roman empire a new industry which enabled it to survive much longer than otherwise would have been the case. A gift of two Spanish jacks to Washington by the King of Spain gave us the mule which was almost as important to cotton culture as Eli Whitney's gin.

◆

Tidewater, Va., was later rehabilitated, after the loot of reconstruction, by the peanut—that traveled nut which Spaniards carried from the American tropics to northern Africa and which recrossed the Atlantic in slave ships to North America.

Platinum and its allied rare metals right now offer an interesting study. No nation ever needs much platinum, but it needs that little much. Fashion in jewelry has piled up a tremendous reserve of the stuff in America, available in wartime pinch.

Russian incompetency appears to have definitely lost that country its premier place in the production of the metal—and the very parts of South America now most promising as oil producers are dominating the American platinum supply. They are withn our Caribbean sphere of influence.

◆

In the meantime telephone metallurgists have perfected an alloy of platinum, silver and gold which reduces greatly the amount of platinum needed for automatic telephone switchboard contacts.

That alloy is one of the few new jobs found for silver—the chronic jobless metal of the modern world. It has been fired out of one job after another since the "crime of '73." The industrialist who finds work for this old Roman of the mineral world will be a benefactor indeed.

New York, May 25.—[Special.]—Rallying from a morning decline of from 1 to 3 points in leading issues, the stock market this afternoon resumed a strong upward course. The turn came with the announcement that General Electric company had increased its common dividend.

Market sentiment began to improve measurably and many stocks once more began their upward climb under the leadership of United States Steel common, Baldwin Locomotive, Granby Copper, General Motors, Bush Terminal, Chesapeake and Ohio, Nickel Plate and Western Maryland.

Few Issues Held Back.

A number of issues on the stock exchange did not join in the advance at all, while losses of a point or more were apparent in many sections of the list. Those stocks which led the market, however, were so strong that the entire list had every appearance of strength.

Today United States Steel common, after a spell of digesting its recent advances, got going and sold up to a new high for all time at 174⅝, establishing a net gain for the day of 2 points. General Electric touched a height of 101⅝ and closed at 100¼ for a net gain of 2⅞ points.

Railroad Shares Strong.

Wall street took news that a new southwestern merger plan will be submitted to the interstate commerce commission within ten days as an indication that there are favorable winds blowing for consolidation matters. The result was a startling rise in Nickel Plate to 233, up 11⅝ points. This movement reflected the confidence that is felt in the outcome of the Chesapeake and Ohio merger plan now before the commission, in view of the cash benefits that will accrue to Nickel Plate should the merger be approved.

Subsidiaries own over 850 miles of oil pipeline, and 3,500 oil wells, the gross production of which, during the first quarter of 1927, averaged 48,000 barrels of crude oil daily, 18,000 barrels of which were the production of Indian Territory Illuminating Oil Company. Four refineries and 15 absorption and compression gasoline plants are owned and operated. Over 500 tank and gasoline service stations, located in 12 states, are owned and distribute petroleum products. The gas subsidiaries handle an average of more than 100,000,000 cubic feet of gas daily, and through 2,200 miles of pipelines, supply gas at wholesale to local companies serving over 135 cities and communities in Kansas, Oklahoma and Missouri, the territory served having a population of approximately 1,300,000.

The Notes: On completion of present financing, Empire Gas and Fuel Company will have no funded indebtedness except these Notes. The consolidated balance sheet of the Company as of November 30, 1926, adjusted to give effect to this financing and other changes agreed to be made, as certified by independent auditors, shows current assets of $26,633,915 as compared with current liabilities of $3,679,080. The Company reports the corresponding figures as of March 31, 1927, as current assets of $23,694,093 and current liabilities of $4,958,356, an amount in excess of the change in net current assets having been expended for construction.

GEN. ELECTRIC CO. RAISES DIVIDEND, DECLARES EXTRA

BY O. A. MATHER.

The General Electric company, one of the big American corporations, yesterday took another step toward giving its stockholders the benefit of its prosperity. The directors increased the common stock annual dividend rate from $3 to $4 by declaring a quarterly payment of $1. In addition, an extra cash dividend of $1 was declared in lieu of the usual yearly extra of $1 payable in special preferred stock.

Last year General Electric split up its common stock on a four-for-one basis, making 7,211,484 non-par shares outstanding. The present dividend rate is equivalent to $16 on the old $100 par shares, or to $20 if the extra payment is maintained. The present market price is equivalent to above $400 a share for the old stock.

Follows General Motors Policy.

The policy of the General Electric company follows that of the United States Steel and the General Motors corporations. In all three companies the interest of J. P. Morgan & Co. is large. In the last year or two the General Motors corporation has brought its dividend rate up to $8 and declared a 50 per cent stock dividend, while the United States Steel corporation has raised its dividend to $7 and declared a 40 per cent stock dividend.

There also was other cheerful dividend news. The directors of the Pere Marquette railroad declared the 20 per cent stock dividend on the common stock, which was authorized by the stockholders last week. There now is $45,046,000 common stock outstanding, paying 6 per cent annually. In March, an extra cash dividend of $2 was declared.

Granby Dividends Resumed.

After a lapse of eight years, the Granby Consolidated Mining, Smelting and Power company resumed dividends. Its stock was placed on a $4 annual basis by declaration of a quarterly payment of $1. This is the first payment since May, 1919, when $1.25 a share was paid.

The American Piano company placed its new common stock on a $3 annual basis by a quarterly payment of 75 cents. Remington-Rand, Inc., declared a cash dividend of 40 cents and 1 per cent in stock on its common stock, the same as three months ago. The Thompson & Starrett company declared a dividend of $2.40 on its new stock, which recently was exchanged on a 2½ for one basis for the old stock.

The Standard Plate Glass company took no action on the 1¾ per cent preferred dividend due at this time.

Steel Business Steady.

The steel industry is proceeding on a steady keel, with production geared closely to consumption and little change in prices, according to the mid-week steel trade reviews.

"May has not shown, as have all recent months, a decided increase in buying on the turn into the last half," the Iron Age says. "As yet the recession from April gives signs of being slight, compared with the decline in April from March. Production has been slowed up little, but matches closely the large volume of specifications which round out each uncertain week."

"The iron and steel markets present many cross currents and the tendency in demand is progressively easier," the Iron Trade says. "Yet the aggregate of the quiet week to week buying by the general run of consumers brings the mills sufficient tonnage to keep them almost abreast of last year's record."

Loree to Present New Railroad Merger Plan

Washington, D. C., May 25.—(AP)—A revised plan for merger of southwestern railroads will be presented to the interstate commerce commission within ten days, L. F. Loree, head of the railroad group involved, announced today. The new plan, which involves the Kansas City Southern, Missouri, Kansas, and Texas, and Cotton Belt railroads, will have a new financial setup, but otherwise will be virtually the same as originally presented to the commission.

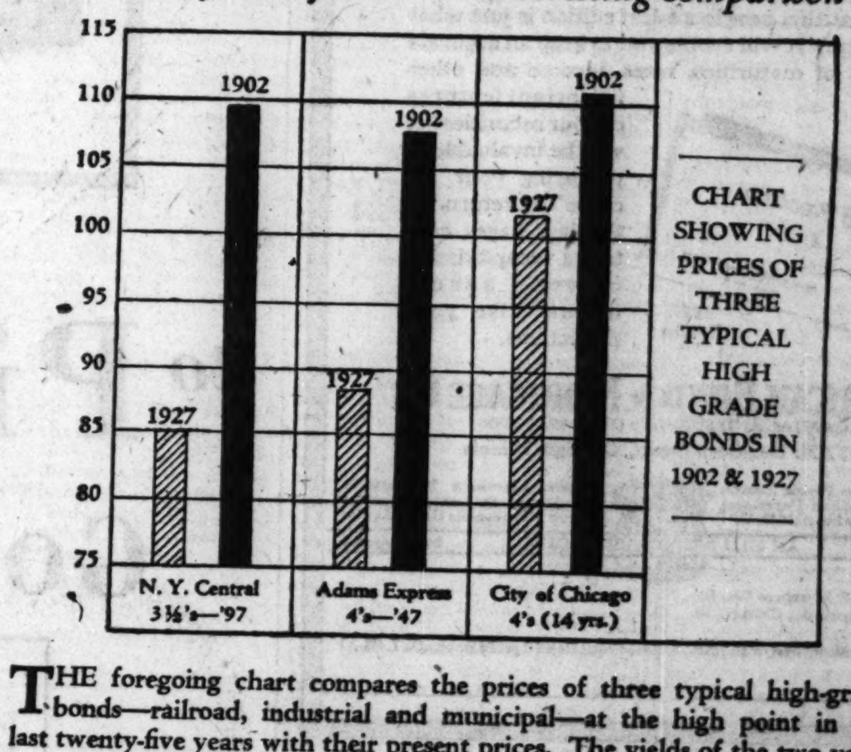
Are Bond Prices High?

Prices of 1902 furnish an interesting comparison



THE foregoing chart compares the prices of three typical high-grade bonds—railroad, industrial and municipal—at the high point in the last twenty-five years with their present prices. The yields of the two years compare as follows:

Issue	Yield 1901-1902	Present
New York Central 3½s 1997	3.18%	4.15%
Adams Express 4s 1947	3.65%	4.95%
City of Chicago 4s (14 yr.)	3.10%	3.85%

The ten highest grade rails in the Dow-Jones average today yield an average of 4.19%, and the ten next grade 4.69%, or a combined average of 4.43%. Seven of each group were in existence in 1902, and yielded 3.68% and 3.88% respectively, or 3.78% for the combined groups.

The difference in municipal bond yields and prices is really even greater than that shown because part of the present day prices reflects the value of the tax exemption feature, which was not a factor in 1902.

The record of 1902 furnishes an important point of view on the bond market. It suggests the possibility, at least, of 3⅛% and 3¼% yields on high-grade securities, which now sell to yield fully 1% more.

What is the outlook? Competent authorities look for a continued approach to 1902 levels. They point to the expectancy of a continued decline in commodity prices and to the presence of a large and growing supply of funds seeking investment as the chief factors in this upward movement. Government debt retirement alone is releasing almost a billion dollars a year for investment in other securities.

We believe that investors will find it profitable to take advantage now of the opportunities in the present bond market to secure comparatively liberal returns.

We shall be glad to submit specific recommendations

WHEAT SOARS TO NEW CROP PEAK; SAGS ON SELLING

BY CHARLES MICHAELS.

A wild market was on in wheat with all deliveries advancing sharply to a new high on the crop, extreme strength at Winnipeg being a factor. May in the latter market opened from $1.60 to $1.70, at the extreme showing 13⅝c above Monday's close, there being no session Tuesday. This brought in a wild wave of local and commission house buying here which put May up to $1.55, and July to $1.47⅛, showing 3c over the finish of the previous day, with May 8½c and July 6c over the low of Tuesday.

Many regarded the bulge as entirely too rapid to hold and sold freely, making a reaction of 3½@6c from the top, with the close at net losses of ⅛@2⅝c, with May leading. Latter finished at $1.49¼@1.49½, July $1.44@1.44⅛, and September $1.41½@1.41⅝.

Weather Markets in Grain.

July and September corn and oats and all deliveries of rye also sold at a new high on the crop, the action of wheat being the main influence. Corn closed 1⅛@1⅝c lower, with May 90⅛c, July 93c, and September 95⅛c. Oats were unchanged to ⅛c lower, with May 49c, July 50@50⅛c, and September 47⅞@48c. Rye lost 1⅝@2⅝c, with May $1.15; July, $1.11⅞, and September $1.04⅝@1.04¾.

Weather conditions were the dominating influence in the wheat markets, both in this country and Canada. Further rains fell in the prairie provinces, and private estimates during the day indicated a reduction of 2,000,000 to 4,000,000 acres. Sanford Evans estimated 50 per cent of the Manitoba acreage had been seeded; Saskatchewan 85 per cent, and Alberta 90 per cent.

Profit Taking in Corn.

Heavy profit taking developed in corn on the bulge, as prices at the top showed 7⅞@9⅝c over the inside figures of last week, and a weakened technical position was quickly disclosed. Weakness in the cash market was also a factor, with the spot basis steady to 2c lower.

Oats reflected the action of other grains and after advancing early reacted and closed about the bottom. Foreigners have been buying September oats here the last few days. Seeding continues to be delayed in Canada.

Commission houses were free buyers of rye early, but profit taking was on in volume and the market reacted toward the close. The seaboard reported a limited export demand.

CASH GRAIN NEWS

There was a limited export business in grains at the seaboard, due in part to the fact that exporters did not offer abroad freely. There were claims that Finland had taken a little rye.

Range of cash grain prices in leading markets follow:

COTTON ACREAGE CUT

A report on cotton acreage issued by J. W. Jay & Co. of New York gives it as 44,211,000, against 48,730,000 last year, a decrease of 9.3 per cent. Condition is 72.4, against 72 last year, and 71.1 by the government in May last year. The season averages 12 days later than normal.

Prices were higher in the early trading but weakened on realizing sales and finished around the low points with net losses of 5 to 14 points on futures, Chicago leading. Spots in New York lost 5 points to 16.50c, and New Orleans was unchanged at 16.05 points. Liverpool closed 6 to 8 points higher, with sales increased to 14,000 bales. Prices in leading markets follow:

LARD AND MEATS DECLINE

Lower prices for hogs and grains as well as the break in cottonseed oil prices led to selling and a lower range on hog products. The close was at the inside, with lard 7½@12½c lower in Chicago and unchanged to 3d lower in Liverpool.

Meats were poorly supported and short ribs lost 60c for July, while bellies declined 25@30c. Cash meats were ⅛c lower for green and dry salted, with a slow trade. Exports of lard were 207,200 lbs. Packing in the west as given by the Price Current-Grain Reporter for the season to date aggregates 7,363,000 hogs, against 6,497,200 last year. Prices follow:

WORLD'S GRAIN MARKET NEWS

It was said at the close that pit traders were mostly out of the long wheat and corn, and many were short. The impression prevailed that should there be a wet weather map and any good buying it would probably start a scramble among the trade to get in, and cause a sharp advance. There were a number of operators who predicted a further decline, which they believed should be taken advantage of to buy all grains.

The break in all grains was regarded as overdue, as prices have advanced too fast without getting a large general outside support. The break, it was said, would put the markets in better position to respond to the general run of news.

Winnipeg furnished the surprise of the day with its jump in May wheat of 13⅝c over the close Monday with trades at $1.60 to $1.70 within the first few minutes. It was considered a bear panic with Chicago, foreign and local shorts, the buyers, and and Canadian pool and Chicago interests the principal longs. Shorts there have overstayed the market, and with the pool in control of the May and cash wheat, there is nothing else to do, but get in the best way possible. Late reports from Winnipeg regarding the crop situation are said to be bullish.

TUESDAY GRAIN TRADE HERE IS 117,068,000 BU

Despite weather and political conditions, which Board of Trade men recently asserted would result in driving the grain trade away from Chicago, sale of grain futures on Tuesday aggregated 177,068,000 bushels, of which 77,323,000 bushels were wheat, and 29,991,000 bushels corn. This is the largest business in many months.

Th experience of traders in the Winnipeg market yesterday, when May wheat opened with trades at $1.60 to $1.70 at almost the same time, as against $1.52 to $1.52½ at Chicago, shows the difference between a large market like Chicago and a narrow market.

Evidently Liverpool traders have tried other markets of late and found the trade there too small to carry the hedges. A message from a Liverpool grain man was received yesterday, advising the use of the Chicago market for corn hedges, as it is now the only liquid natural market.

Name________________ Address________________

To the Holders of International Cotton Mills (now New England Southern Mills) seven per cent, ten year sinking fund gold notes, due December 1, 1929.

Regarding Interest Due June 1, 1927

The present financial situation of New England Southern Mills requires a readjustment of its unsecured indebtedness and stock capitalization. The company has been engaged for some time with Lee, Higginson & Company who have marketed certain of its securities, including the 1929 notes, and the banks to whom it is indebted, in formulating a plan for such readjustment. A proposed plan has now been substantially formulated and will be shortly submitted to the noteholders and stockholders of the company for their consideration and action.

It is expected that this plan will provide for the payment in cash of part of the interest due June 1, 1927, namely at the rate of $27.50 on each $35 coupon. This adjustment would be equivalent to interest at the rate of 6 per cent—the rate paid on the bank loans—from December 1, 1926 to May 15, 1927, the date to which the bank loan interest has been paid.

No part of the interest due will be paid on June 1st and any coupons then presented will be returned to their owners.

Holders of the 1929 notes are, therefore, requested not to present the June 1st coupons for payment on that date but to hold them until the proposed plan is published. The plan is expected to be ready about June 1, 1927, or shortly thereafter.

In order that holders of the 1929 notes may receive prompt notice of the plan they are requested to send their names and addresses and the amount and serial numbers of notes held to Lee, Higginson & Co., paying agents, 70 Federal Street, Boston, Massachusetts; 43 Exchange Placei New York, N. Y.; The Rookery, Chicago, Illinois.

Very truly yours,

New England Southern Mills

Are Your Investments Worth *What You Think They Are?*

JONES, a successful physician, thought he was assuring the comfort of his family by investing regularly in securities he considered safe. After a tragic automobile accident, Jones's banker at the request of his widow, examined his list.

Most of the securities were good, some fair, quite a few should have been exchanged months ago. Jones had been too busy to keep in touch with changed conditions affecting his securities and, as he had made his selections here and there, no one salesman had taken sufficient interest in his list to keep him informed. His family was forced to curtail the luxuries and comforts to which they had become accustomed.

Such cases, typical of many, emphasize the desirability of frequently checking up on one's investments. Our facilities are freely available, for such periodical analysis of security holdings. Frequently, we are able to make suggestions which aid investors to strengthen materially their investment position.

Principal and semi-annual interest, November 1 and May 1, payable in United States Gold Coin of the present standard of weight and fineness at the principal office of the Chase National Bank of the City of New York or of Blair & Co., in New York City, without deduction for any present or future taxes of the Government of the Argentine Nation or of any taxing authority thereof or therein. Callable as a whole or in part at any time after November 1, 1927 on 30 days published notice at 100 and interest.

Bearer Notes in the denomination of $1,000

The following information has been furnished by the Minister of Finance of the Province of Santa Fe:

These Notes will be the direct obligation of the Province of Santa Fe, which pledges its good faith and credit for the punctual payment of the principal and interest thereof. The proceeds of these Notes, which are being issued in anticipation of tax collections, are to be used for the general purposes of the Province.

The province of Santa Fe has an area of 50,916 square miles, or larger than the State of New York, and a population officially estimated to exceed 1,200,000. In the number of industrial establishments, amount of capital employed, and value of output, the Province of Santa Fe is the second in importance in Argentina. The chief products are wheat, corn, linseed, alfalfa, cattle and horses.

The Revenues of the province of Santa Fe are well diversified and have increased from 18,185,000 paper pesos in 1921 to 34,473,700 paper pesos in 1926. As a result of the rapid development taking place in the Province and the extraordinary expenses incurred for public works during this period, expenditures have averaged more than revenues. A new budget has just been sanctioned, and after giving effect to the increase in taxes, revenues in 1927, officially estimated at 39,430,000 paper pesos, are expected to exceed expenditures.

Including the present issue of Notes and $8,160,000 contingent guaranteed obligations, the total public debt of the province of Santa Fe (at par of exchange) amounts to approximately $43,600,000. The Constitution of the Province limits the total amount of loans which the Province may contract to an amount, the service of which shall require not more than 25% of its annual revenues.

All offerings are made when, as and if issued and received by us and are subject to the approval of all proceedings in connection with the issue of said Notes by our counsel, Messrs. Rushmore, Bisbee & Stern, of New York and A. Candomi Alcorta, of Buenos Aires as to all matters arising under Argentine law.

Sophy Tancred's Husbands

By Elizabeth York Miller.

SYNOPSIS.

Sophy and Piers Tancred have lately taken the Villa Mona at Bordighera on the Italian Riviera. Sophy learns that her former husband, Alan Brooke, the sculptor, is living nearby and that they are to meet at dinner that night. She is afraid of her husband's jealousy and, since he thought she was a widow when he married her, she goes to Brooke's studio to warn him against telling Piers that they had been married. Alan tells Sophy that his housekeeper, Cristina, is his wife and they have a little son. Willie Moppet, a male gossip of Bordighera interrupts them and Sophy flies back to the Villa Mona in fear

At dinner Alan and Sophy meet as if for the first time, but the Princess Doblieri greets Sophy as Mrs. Brooke, recalling their studio days in Paris. Piers tells the princess she is mistaken, Sophy is his wife, not Alan's. Piers commissions Alan to make a bust of Sophy.

Lilla Brant, a friend of Pier's, and Willie Moppet try to unravel the mystery of Sophy's past.

Sophy and Alan are able to spend a day together when Piers decides to attend a gambling party at Monte Carlo which Willie Moppet has arranged. Piers learns of the expedition and his suspicions against Alan are aroused.

Willie Moppet arranges a concert to be held at the Doria hotel for his mother's companion, Cissy Bryant, who has a lovely voice. Willie learns that Lord Landell, who is a guest at the Doria, is his father, although his mother had never been married to him. After the concert there is a bal masque at the casino to which Piers refuses to take Sophy. Willie Moppet, with the assistance of Lilla Brant and Cissy Bryant, arranges to take Sophy secretly to the fiesta.

INSTALLMENT XLI.

SOPHY MAKES UP HER MIND.

Cristina, who had wormed herself into a corner at one of the windows and was holding it against a dozen would-be usurpers, knew the secret of Sophy's mysterious disappearance, while Willie Moppet merely made a good guess at it. Cristina knew.

For a moment he had stood conspicuously in the doorway and surveyed that lunatic crowd—Alan Brooke, more or less in his workaday clothes, soft gray flannels, a silk shirt with turnover collar and a spotted blue tie. He looked exactly what he was, an artist of some description—or shall we say, some one a trifle eccentric?—dark-haired, smiling, a little amused, a little interested and derisive.

Cristina thought: "Ah, he is alone! But why has he come? Who's he looking for?"

They found a place to rest and sat close together with their arms about each other.

Then one of the orange-wigged Pierrots saw him, too, clutched the seat of her chair for a moment, glanced around carefully under the protection of her mask, moistened her lips—Cristina saw all this—and finally rose. No one paid the least attention to that slender, boyish figure, except Cristina. The tragic eyes hardened and under the folds of the little black shawl the Italian woman's lips moved in harsh mutterings. Let the English signora who had such a fine husband of her own and did not trouble to look after him be forever, eternally, world without end, accursed. For Cristina had seen with her own tragic eyes that it was the woman who sought out Alan Brooke, just as she had come creeping up to the Casa Poverina that day and forced herself upon him.

. . . .

"Alan!"

"O! I wasn't sure it was you. My darling, where can we go? This place is absurd. I want to see you alone—not in the midst of all this rabble."

Lord Landell, delicately sipping his frosted golden wine, watched them from his glass-panneled retreat, and decided that whoever that particular Pierrot might be, she wasn't Miss Cecilia Bryant. His gaze strayed back to Willie and his inamorata.

"Come outside," Alan urged. "We'll go down to the Cap and sit on the rocks."

"Very well," Sophy replied. A moment later she said. "Piers is in there somewhere."

"Yes, I saw him," Alan said, giving her a sidewise glance.

"He's with a girl upstairs," she further enlightened him. "Lilla told me."

They hurried down the shallow steps and Sophy took off her mask and wig, giving them to Alan to put into his pocket. "O, that's better!" she exclaimed. "How can they stand it in there! It's bedlam."

"We found each other in a madhouse," Alan observed cynically. "Sophy, have you made up your mind yet?"

"You mean——?"

"You know well enough what I mean. And don't you forget what I said, either. With or without you, I am going away."

"Alan, I—yes, I have made up my mind. I don't think I can stand it any longer."

"You don't think," he mocked in despair. "Good heavens, Sophy, don't you know you can't stand it?"

They crossed the railway lines and skirted some lonely buildings on the shore, coming finally to the little deserted chapel and Cap d'Ampeglio. Here the rocks jutted out, great combed boulders over which a frothy spray dashed as the waves rolled in. They found a place to rest and sat close together with their arms about each other.

"When—do you mean to go?" Sophy asked, when his nearness and the warmth of his lips had renewed her courage and made her ready to dare all things because it was impossible that this life, at least, could be endured any longer without Alan.

"Tomorrow night," he replied.

"So soon?"

"But why not? I've made all my preparations, and you needn't bring a single thing except your passport. I wish it wasn't necessary for you to take that."

"Don't be silly, Alan. I must have a few things—a bag or two. I'll get Agnes to take them to the station for me. I can trust her."

"You can trust nobody, you foolish child," Alan fumed. "The thing is to get away clear. I know you. That man could stop you if he got so much as an inkling of it. And we're not going by train. We're going quite by ourselves in a rotten little two-seater I've bought, second hand."

"Where are we going?" Sophy asked, her voice quavering slightly. She was thinking of Piers Tancred's Rolls as opposed to a "rotten little two-seater," and how fast it could eat up the miles if Piers got the slightest view as to their direction. There wasn't a wide choice of roads in this corner of the world, either. It must be towards the French frontier or the other direction, towards Genoa, or possibly to Tenda.

"I wish you had a little more fight in you," Alan said sulkily.

Sophy began to cry and then he was sorry he had said that and tried to comfort her. After all, he couldn't expect qualities of her which she did not possess.

"Listen to me," Alan said tensely. "You got out tonight, so you can manage it again tomorrow night. Tell Moppet you want to keep that rope contrivance. Hide it in the shrubbery by the wall, and I'll be waiting on the other side. I'll be there from midnight, but don't let that worry you if you can't be on time. I'll go on waiting until dawn. I'll just sit there by the side of the path with cigarets for company until you come and give me a signal. Now is that all quite clear?"

"Yes," Sophy said faintly.

"Promise? No backing out?"

"O, I'll come." But as she said it, she wondered. It seemed so incredible, so unlikely that she could repeat tonight's truancy with similar success. There would be no ball tomorrow night, and no one could guess what Piers' mood might be.

Just now, however, Sophy was forgetting time. She was with Alan—O, precious, golden moments!—and although they had all the rest of their lives together in prospect, that meant very little against these moments they held in such secure possession.

But in time even Alan, jealously anxious as he was to keep her, thought they had better be going back to the casino. There might be an end to Willie Moppet's patience.

Apparently there was, for when these self-absorbed lovers returned they found the casino more than half empty and the other three orange Pierrots were no where in evidence. Worse than that, Piers, too, had gone.

"Of course I can't blame him," said Sophy, referring to Willie Moppet's defection. "He had to take that Miss Bryant back, and she lives somewhere near Ventimiglia. I suppose they got tired of waiting for me."

She was terribly anxious, however, although she tried not to show it. If only they could elope tonight instead of tomorrow night, but impetuous and eager though he was, even Alan had to admit that Sophy could not very well run off with him in a Pierrot's costume. Besides, the little second hand car wasn't ready. They were going to give it a thorough overhauling at the garage tomorrow.

Good Morning!

Not wishing to say I told you so, or pose as a prophetess or anything like that, BUT—remember what I said about Nancy Nash after seeing her for the first tme in "The City"?

No, you don't remember. Well, here's Nancy again and once more sez what's sezzin, "Keep an eye on this blonde." There's something in her manner and something in her smile and something in her style that speaks of better film days to come.

The object of this little ditty, "Rich but Honest," from the story by Arthur Somers Roche, is to prove entertainingly that it's not always the rich boy's girl who has to walk home from an auto ride. No, it seems that a stalwart mechanic, though poor, is not always noble. In the present instance the latter's sweetie is compelled to flee from him to the honest, protecting arms of a wealthy rival, who says it with a marriage license.

Miss Nash is seen as a so beautiful and so dumb shop girl who finds her way to the stage and is helped off it by an irate manager into the life of the aforementioned millionaire who doesn't care how dumb his woman is so long as she, like himself, is honest. And O, honest Florine is! Practically nothing else BUT.

This is exceedingly light diversion that is as entertaining as the average program laugh-provoker. A bit of low comedy that I suspect papa and brother will like is introduced by Ted McNamara as a downtrodden suitor who eases about with a mouthful of buckshot that he utilizes to great effect in his schemes for vengeance.

Not a fatal enemy, but a trying one.

Folksy Little Yarn Is This "Irish Hearts"

"IRISH HEARTS"

Produced by Warner Brothers.
Directed by Byron Haskin.
Presented at the Orpheum Theater.

THE CAST:

Molly Shannon	May McAvoy
Tim O'Shay	Jason Robards
Emmett	Warner Richmond
Clarice	Kathleen Key
Patsy's Father	Walter Perry
Restaurant Proprietor	Walter Rodgers
Taxi Driver	Les Bates

Here's a folksy little yarn about an Irish colleen who lost her "lucky piece." She's been told by the old crone who gave it to her that it was the only lucky shamrock in the world.

"Keep it and it will win all your fights for ye. Lose it and the world will be agin ye."

Molly loses it, and with it, her fighting spirit. She's a sad little example of a walked-on damsel until, as she believes, the "only" shamrock brooch is found. Then she learns that the world is full of 'em at ten cents per and that the "luck" the pin has brought her was just her own hearty, indomitable fighting spirit on the job.

There's "love interest" of course, in "Irish Hearts." Warner Richmond, that husky fellow who is especially good in rôles that call for large conceit and a roving, chesty eye, is much in character as a demon street sweeper who does our Molly wrong.

Jason Robards is nice as a stalwart laborer who helps the heroine get gloriously even with the world at large and weds her triumphantly. Other parts are played well enough.

See you soon.

The Inquiring Reporter

Every Day He Asks Five Persons, Picked at Random, a Question.

The Tribune will pay $5 for each question accepted for the Inquiring Reporter to ask. Send name and address with your question to "The Inquiring Reporter," Chicago Tribune. For today's question C. H. Loosbrock, Dyersville, Ia., was awarded $5.

The Question.

Which accomplishment do you consider the greater, that of Lindbergh or Columbus?

Where Asked.

State street at Randolph.

The Answers.

Thomas Grochowski, 5526 South Troy street, machinist. Columbus' accomplishment was probably as great in his day as Lindbergh's is in our day. Columbus sailed on water and Lindbergh flew above water, both having had the chance of disappearing in the water with nobody knowing what happened to them. I think I would give the medal to Lindbergh.

Miss Alma Thompson, 3251 Maypole avenue, stenographer. Lindbergh. At least of the two men, Lindbergh is the one I would prefer to be. Columbus' trip may have been as great in his day, but that was long years ago, and this is 1927. A tremendous amount of nerve was required in both instances—or is nerve the right word?

Bart Silvestro, 1401 West Ohio street, artist—The one achievement was about as great as the other. One discovered a new world and a way to get there, and the other gave us a new way to get back to the old world. So I would leave that question undecided with a question mark.

Miss Cecelia Kreuser, 2939 North Ashland avenue, policy writer—I don't know, of course, but one thing about it, Lindbergh went all alone and Columbus had company with him in his danger. But Columbus didn't have the modern facilities that Lindbergh had.

G. A. Torrance, 5710 Winthrop avenue, engraving salesman — That's pretty hard to say, considering the different times and conditions. I think one required about as much nerve as the **other**. Neither man knew what was before him. Columbus was ridiculed and Lindbergh was called the flying fool.

Dr. Ozora S. Davis Is Elected Moderator by Congregationalists

BY THE REV. W. B. NORTON.

[Chicago Tribune Press Service.]

Omaha, Neb., May 27.—[Special.]—Dr. Ozora S. Davis, president of the Chicago Theological seminary, was elected moderator of the National Council of the Congregational church, at its opening session this afternoon.

The only active rival of Dr. Davis was Dr. Charles S. Mills, New York, general secretary of the annuity fund for Congregational ministers and the congregational board of ministerial relief. Dr. Dan F. Bradley, associate moderator, Cleveland, O., was placed in nomination, but received only 32 votes. Dr. Davis received 233 votes and Dr. Mills 138.

The vote was then made unanimous for Dr. Davis and he was escorted to the platform by the two defeated candidates. Dr. Davis was nominated by the Rev. J. W. F. Field Jr., Grand Rapids, Mich.

Dr. Davis has been president of the Chicago seminary since 1909. The seminary at that time was located on Ashland avenue, near Washington boulevard. It has since been moved near the campus of the University of Chicago. The new moderator is a member of the Union League and Quadrangle clubs, the Phi Beta Kappa society, and is the author of several books.

Other honors will be bestowed on the moderator at this session. On Friday an oil painting of him will be unveiled at a reunion of the faculty, students, and friends of the Chicago Theological seminary.

Dr. Davis succeeded at once the retiring moderator, Frank J. Harwood of Appleton, Wis. William E. Sweet, former governor of Colorado, was elected associate moderator. The five heads of societies of the church were made assistant moderators, but it is said, if the plan proposed for the consolidating of the boards into a home board and a foreign board another election will be held.

Those elected under the present plan were Dr. Rockwell Harmon Potter, Hartford, Conn.; Dr. William Horace Day, Bridgeport, Conn.; Dr. Charles R. Brown, University Divinity school; Dr. J. Percival Huget, Brooklyn; Lucius R. Eastman, New York.

RAYMOND HITCHCOCK, not in view hereabout since he gave a bad piece named "Service for Husbands" in the Cort, is to headline next week in the Palace, where he will serve as *compère* to the other performers, one of whom will be Miss Charlotte Greenwood, held over from this week. She will be seen in another of the skits used in Lemaire's Affairs—the one about the rehearsal of a movie. . . . And Dennis King, here so long this season in "The Vagabond King," will be in the Palace June 5.

Rex Cherryman is bulletined to return Sunday to the rôle of the young bootlegger who kills his father in "The Noose"—the rôle performed by Ralph Morgan in the former's absence from the cast.

"The Desert-Song" is now announced as something for the Great Northern when Labor Day rolls round: the piece had previously been marked off as for the Four Cohans. . . . The management of the operetta, a success in New-York and London, says it will be given here with the New-York cast, although Miss Vivienne Segal, who seems to be the most important person in that cast, says she will not be in it here.

A revised version of "False-Faces" was submitted last night in the Studebaker. A brief prologue was among the new matter, and was put in with a view of making clear the motives of two of the incidental characters in the story, wherein a new formula for making gasoline has been substituted for a priceless tome as a factor in the playwrights' designed excitements.

James Rennie is to be Marc Antony in the impending New-York performances of "Julius Cæsar" by the Players: he replaces Basil Sydney, who had been assigned to what is, perhaps, the outstanding example of an actor-proof rôle in all acted drama. . . . And, if Antony be not that, I should regard Mr. Sydney as the fellow to demonstrate my error.

"Twinkle! Twinkle!" will be held in the Erlanger, where it has been prospering, until June 11, and then transported to Boston.

Rudolph Friml is reported to have all but completed a score for "The Squaw-Man," a queer choice among the plays for something to be made over into operetta. The venture to be by the producer of "The Vagabond King,"—which, by-the-way, seems to be a real success in London, where success had been regarded as doubtless because a work put on there some time ago, "Princess Charming," had a number so nearly identical with the Song of the Vagabonds that it was regarded as having killed the chances for Friml's music. I understand that the tune is not Friml's, but is really an old Hebrew chant. . . . W. H. Post, who had a hand in turning "If I Were King" into a libretto, has made the song-and-dance version of Edwin Milton Royle's old piece, first staged for William Faversham early in 1906.

Men Attain Bit of Prominence in Woman's Fair

'Lindy,' Coolidge, Thompson, Deneen Noticed.

BY GENEVIEVE FORBES HERRICK.

Four men yesterday engaged the attention of the third annual Woman's World's fair which tomorrow closes its ten day session at the Coliseum.

The quartet of popular masculine invaders were these:

Capt. Charles Lindbergh, whose cable to the American Daughters of Sweden was hoisted high on the native embroideries displayed in their booth.

President Calvin Coolidge, whose reported selection of the Black Hills country of South Dakota as this summer's White House, caused his picture to be hung across a buffalo robe in the South Dakota booth.

United States Senator Charles S. Deneen and Mayor William Hale Thompson, who appeared in person, and whose speeches last night, at the close of Republican day, drew many thousands to the exposition.

Tuesday morning Mrs. Ottillia Myrhman, president of the American Daughters of Sweden, sent to Capt. Lindbergh this message:

"Thursday is Swedish day at the Woman's World's fair. We celebrate your epoch making accomplishment. Your cabled reply will make our happiness complete. Love and congratulations."

Yesterday morning the international aviator cabled the following reply from Paris:

"Thank you for kind message. Success to your celebration."

The Washington dispatch placing South Dakota's state game lodge as the almost definitely chosen site for the President's holiday, made the South Dakota booth a busy place all day yesterday.

The two hostesses at the booth had knowledge, both encyclopedic and personal. For Mrs. S. C. Polley, whose husband is chief justice of the South Dakota Supreme court and one of the committee inviting the President, has occupied the "governor's suite" at the lodge. It is this suite, bedroom, bath and sitting room, which, it is presumed, President and Mrs. Coolidge will occupy.

And Mrs. Myra K. Peters, also in charge of the booth, is manager of the state owned Sylvan Lake lodge, some 21 miles from the state game lodge.

"Every room in the 30 room main lodge is named," Mrs. Polley yesterday explained. One is called "The Buffalo den"; another is "Deer lodge"; still another goes by the name of "Old Maid's Retreat." There is an apartment called "The Bluebird," and the annex is designated as "The Harem."

Miss Helen Bennett, managing director of the fair, was born in the Black Hills region and has recently visited the state game lodge, which is about six years old. The four things which most impressed Miss Bennett about the site are these: Flies, mosquitoes, mountain goats, and fireplaces.

The first two by their absence, the second pair by their presence.

The porches of the lodge are, Miss Bennett recollected, unscreened, because there are neither flies nor mosquitoes in the hills. As for mountain goats, you can stand on the piazza of the lodge most any time and look up at a mountain ridge in time to see a goat poised beautifully on the ridge.

The fireplaces are fashioned of specimen rock, native to the region. Some are glistening white, some are of rose pink quartz, others are dark and polished.

Mayor Thompson congratulated the women on the success of the fair, which was crowded to the limit when he arrived, 40,000 persons having been in and out of the Coliseum during the day. He said he knew something of showmanship, having staged the Pageant of Progress, and conceded this fair was its equal. Senator Deneen made just a short address of praise for the work women are doing.

From the stage in the Coliseum auditorium at 3:30 this afternoon Fanny Butcher, literary editor of The Tribune, will discuss "Contemporary Woman Writers," and at 7:45 this evening from the same platform Jane Eddington, cookery editor of The Tribune, will tell of "Formal and Informal Menus." Mrs. Margaret Reidy Stevens, hostess at The Tribune booth, will be assisted today by Mae Tinée, motion picture editor, and Maud Martin Ellis, artist.

"Did All the Good Men Die in the War?" Asks Wistful Girl

BY DORIS BLAKE.

Is there a dearth of good men on the matrimonial market? Or, why these repeated requests from disconsolate young women about where to find "good" men? What are all you young men of honorable reputation doing? Trying to hide your light under a mask of wayward worldliness? What is the effective method of paging you these days? Do you have to be called by some other adjective before you'll dare respond as a "good" man?

Here is poor Cynthia, at her wit's end to know where one can meet men who do not sneer at the old-fashioned principles of right and wrong, men who believe in women, men who respect women, and men who respect themselves.

"It seems the cream of manhood were the young men who went to war," writes Cynthia. "I was very young then, but my sister had nicer beaus than I have now."

Cynthia sounds like her grandmother, telling how different things were when she was a girl. The cream of manhood went to war and there is no argument about that. But the war was ten years ago and a whole new batch of cream has had time to set since. So one does not need to inter her hopes under the Unknown Soldier's tomb. There is just as rich cream on top of the jar as there ever was.

But I do think there is a current tendency to appear to be most frightfully worldly wise among certain members of the younger generation of males. Scratch the surface a bit and you'll find them underneath just a little bit of all right. I am inclined to think the girls do not scratch enough. Rather, their method of scratching doesn't give the young man a chance to reveal his real self. Instead of decrying them, one straight appeal to that finer self under the sophisticated surface will do more to convince a young woman that there are good men to be had for company and for very agreeable company than any other measure I know of.

You see, there are so many young women afloat these days who aren't all they ought to be that young men have adopted this surface hardness in self-protection. The better man in him isn't hard to get at if a girl shows she has faith in his goodness.

This whole business of one sex doubting the other is an epidemic you can inoculate yourself against by faith in the general goodness of people, and a justifiable faith it is, too.

Meat Loaf for Twelve.

In deciding how much to prepare of a given viand for a meal it is vitally necessary to remember what you are going to serve with it. If with a slice of meat loaf are served three small new potatoes, plain boiled and buttered, and a second vegetable, with a crisp hot roll, that slice can surely be smaller than when a little triangle of toast, a good gravy, a little rose of mashed potato and some bit of garnish are served with it.

Therefore, when we say the following recipe will serve twelve, that depends on how the server sees things, and how the items combined with it are presented. This recipe was given me by some one who knew how much it had satisfied a group of people, and when it was printed here, once, it won some especial forms of commendation:

One-half pound of beefsteak, one-half pound veal, one-half pound fresh pork all ground together after being made immaculate in every way—ground fine. Add to this half an onion and a fourth of a green pepper chopped fine, but taste may determine largely how much of this vegetable seasoning you will use, and the less you use the easier it will be to keep any leftover in the ice box without the odor of it becoming unduly noticeable.

Finally break an egg into a bowl—two may serve you better, add to it one cup of milk [or that is what the original recipe said, but it may be too much for the best effects, although a cup of cream would work out all right], add two teaspoons of salt and a few grinds of white pepper. Stir, but not beat, and then stir with the meat. Bake in buttered glass dishes, individual cups or, for family use, take the big glass dish used for baking a loaf of bread. With a napkin around it this can be brought to the table.

Instead of pickles with the loaf, use unsweetened baked prunes or plain baked tomatoes. Wash a pound of prunes, put into a covered casserole, glass is fine, cover with cold water and bake slowly for twelve hours. Eat as a relish, and a pleasant one.

Santa Fe, N. M., Gains in Chicago Favor as Summer Outing Spot

BY NANCY R——.

Although this is theoretically the time of year when our beau monde begins to drift together again after its varied spring wanderings and to settle down to enjoy the cheery informality of the summer season here, each day brings word of new departures and of plans for the warm months that will take certain members of our smart circles to other corners of the country.

Santa Fé, N. M., is becoming a favorite rendezvous for Chicago folk in search of a healthful change and entertaining surroundings. A gay quartet who have been there this spring consists of Mrs. Keith Carpenter, Mrs. William R. Odell Jr., and two attractive misses, Angela Johnston, daughter of Mr. and Mrs. Morris Lolly Johnston, and May Morrill Dunn, daughter of the Morrill Dunns. So enamoured is this outfit with this historic post on one of the great western highways that the two last named are trying to persuade their families to make it their summer headquarters.

◆

Mrs. Odell's sister, Mrs. Kenneth Sawyer Goodman, has already taken a cottage for herself and her children out there for the coming season. In this she followed the example set by the John Roots, who are also planning to spend the next three or four months in Santa Fé, where Mrs. Root's cousins, the Hubert Galts, and several other families of Chicago origin are settled. Life in that country is gay, simple and entirely out of doors, with long horseback rides and picnics as the main features.

Mr. and Mrs. Joseph G. Coleman have been given a series of farewell luncheons and dinners in their Palmer house rooms before departing next Sunday evening for Santa Barbara, Cal. Were Mr. Coleman asked the old gag, "Is your wife entertaining?" he could reply, "she certainly is!" She is one of Chicago's most popular hostesses. Here's hoping that the Santa Barbara earthquakes will not annoy their summer holiday.

Day's News in Society

Mrs. Norman Westerhold is chairman of the Evanston Woman's board of the Northwestern university settlement, which is to give its annual benefit next Wednesday evening on Mrs. Daniel H. Burnham's terrace. The feature of the evening is to be the first showing of "Chang," a moving picture of the Siamese jungle, with special music accompanying it. Other members of the board include Mrs. Sewell Avery, Mrs. Laurence de Golyer, Mrs. D. H. Burnham Jr., Mrs. Charles G. Little, Mrs. George B. Dryden, Mrs. Nelson Buck, Mrs. Robert O. Lord, Mrs. Arundel Hopkins, Mrs. James H. Winston, Mrs. Harry Byram, Mrs. Martin Gridley, and Mrs. Edward P. Welles.

◆

Mrs. John R. Wintherbotham Jr. will be hostess at the closing of the Stork lunchroom, 209 South Wabash avenue, Saturday. Owing to the warm weather and the many departures for summer homes the society women who have been operating the lunchroom have decided to close for the present.

The engagement is announced of Miss Ruth Campbell of the Seneca, daughter of the late Mrs. Virginia Adams Campbell, to Lawrence A. Meeker, son of Mrs. George W. Meeker of 1411 State parkway. Miss Campbell is a niece of Edward S. Adams and a cousin of Mrs. Emmons Blaine and Mrs. Morrill Dunn.

Mrs. Rockefeller McCormick of 1000 Lake Shore drive is to give the second of a series of teas at the Lincoln park refectory, encouraging the revival of the old custom of having tea in the park, afterward strolling southward.

Benjamin Bates Felix of the Sovereign hotel will give a dinner for fifteen guests tomorrow evening for Harold F. McCormick. Baroness Violet Beatrice Wenner, who has just completed a portrait of Mr. McCormick, is to be a special guest.

◆

Mrs. Clair E. More of 237 East Delaware place has issued invitations for a luncheon at the Arts club next Tuesday.

This evening Miss Katherine White, who will be a bridesmaid, entertained the wedding party at what was to have been a picnic, but because of the heavy rain all day was changed to a dinner and dance at the Officers' club at Bolling field.

Deneen Urges Women Lawyers to Look on Bright Side of Life

In spite of criticism of legislatures and governmental officials, which he fears is everlastingly inevitable, United States Senator Charles S. Deneen, speaking last night at the 13th annual banquet of the Women's Bar Association of Illinois, held at the Congress hotel, urged citizens of the state of Illinois to "look on the bright side of things."

As encouraging facts, Senator Deneen pointed out that Illinois spends 50% of its taxes on education; that it is abundantly generous to its poor and sick; that it is now functioning vigorously in flood relief work.

◆

"As soon as a man goes into politics," the senator declared, "everybody begins to dig up all the scandal they can on him. Any speaker can pack a hall in Chicago if he but hint that he has something scandalous to say of a political opponent. Let him promise that he is going to say pleasant and constructive things of a candidate and he can't get an audience."

Senator Deneen, Congresswoman Mary T. Norton and National Democratic Committeewoman Emily Newell Blair, in their speeches, were agreed that women should enter politics, not so much as women but as citizens. Senator Deneen stressed his point by maintaining that "there will never be a woman's party just as there will never be a man's party."

◆

Other speakers included Judge Mary Bartelme, George H. Wilson, president Illinois State Bar association; Herbert M. Lautmann, secretary Chicago Bar association, and Justus Chancellor, Lawyers' Association of Illinois. Miss Mary D. Bailey, assistant district attorney was toastmistress.

Dawes to Address Sunday Evening Club

Vice President Dawes will deliver an address to the veterans of the G. A. R. and of the world war at the Sunday Evening club's closing meeting of the season, Memorial Sunday, in Orchestra hall. During the last twenty years it has been the custom for the G. A. R. men to attend this service of the club as guests of honor.

John A. Benham, chairman of the public affairs committee of the Union League club; Dr. G. Campbell Morgan, the Rev. Nicholas Clinch, chaplain of the American Legion, and the Rev. J. L. Albritton, chaplain of the G. A. R., also will take part in the service.

Horrors!

It was the maid's day off and distinguished company had arrived. I sent my little daughter, Marie, to the kitchen for some tea, first cautioning her to be sure to strain it. The tea arrived without mishap. Mrs. X. drank hers at once. I waited a few minutes and then glanced at my cup. I noticed the liquid had some black specks in it.

"Why, Marie, are you sure you strained this tea?" I asked.

"O, yes, mother," she replied. "But I couldn't find the tea strainer, so I used the fly swatter!" D. D.

Travel Scholarships Awarded Students in Art Institute School

BY ELEANOR JEWETT.

An important event in the year of the Art Institute school is the awarding of the traveling scholarships. The competition is an annual affair entered into by students who have studied at the school for at least two years and who have made satisfactory grades. The subject for the competition this year was "The Prodigal Son," and a student in the modeling department won the most important of the prizes.

The William M. R. French Memorial scholarship, with $1,000 to be used in foreign travel, was awarded to a girl, Marion Gettelson. This prize is only given every other year. The Bryan Lathrop scholarship, with $800 for foreign travel, went to Francis Warren Chapin of the painting classes. The John Quincy Adams scholarship of $750 for foreign travel was awarded to David John McCosh of the painting classes. The American Traveling scholarship of $125, to be expended in American travel, was awarded to Ruth Margaret Snook of the modeling department.

Zaroslav Brozik and Davenport W. Griffen received honorable mentions. There are, besides these traveling scholarships twenty-nine other scholarships available to day students of the Art Institute school, who are in need of financial assistance and have accomplished noteworthy work in their classes.

The prize winning sculpture and paintings will be seen in the exhibit of work by students which will open June 6 in the east wing galleries of the Art institute.

In the children's museum, on the first floor of the Art institute, there opens today to continue into July, an exhibit of the work done by the students in the Saturday morning classes under the direction of Miss Matilda Vanderpoel. These students are from 8 to 18 years old.

An Occasional Steaming Is Good for Most Skins

by Antoinette Donnelly

A correspondent inquires about the possible harm or value of steaming the face.

In certain quarters where hot water is not used in massage work you may be told that steaming the face is the worst thing you can do for it. Few modern massage parlors use a hot towel any more.

There are certain skin conditions under which I think an occasional steaming is of value, providing always, of course, an astringent is used after the steaming. I should not recommend the hot towel applications on a dry skin, nor should I recommend them oftener than once a week unless one is trying to combat a case of excessive oiliness and blackheads that so frequently appear with the oily skin. Their sole value is in quickly opening up the pores and making possible a quicker exit of the tiny clogged masses therein. In the treatment of blackheads the steaming often makes possible the immediate elimination of the contents of the pores.

◆

Hot water on a normal skin or one free of blemishes is advised against. For purposes of cleanliness warm water is sufficiently effective and, as a general rule, once a day is sufficient for this to keep the skin in good condition. Even after warm water, on the normal skin, an astringent is advised as a preventive of any slackening up of the skin surface.

I will say this for an occasional steaming of a normal skin, that to me one of the joys of a Turkish bath is smearing my face with cream in the hot room, wiping it off there and proceeding to the room where the steam is turned on full power, after which I cool the face off with water, graduating from warm to very cold and then topping it all with an ice rub. My face after this treatment, seems to have had the most beneficial kind of massage, so far as clearness of the skin is concerned.

◆

With too frequent steaming there is the danger of creating enlarged pores, although the latter are, as a general rule, a skin construction as native to one's heredity as the color of one's hair or eyes.

An extremely oily skin can stand harder punishment from hot water than any other type, but with this type of skin, too, it is necessary to finish off any hot treatment with an astringent.

BEAUTY ANSWERS

G. W.: A GOOD SHAMPOO MAY be made by reducing to liquid form any good pure soap. Shave the soap fine, cover with water, and let come to a boil. Cool. First wet the hair, then pour over it the liquid, and with your hands work up a lather. Rinse, and again apply the liquid soap. After this rinse in several waters. The circulation in the scalp is greatly improved by drying the hair with turkish towels.

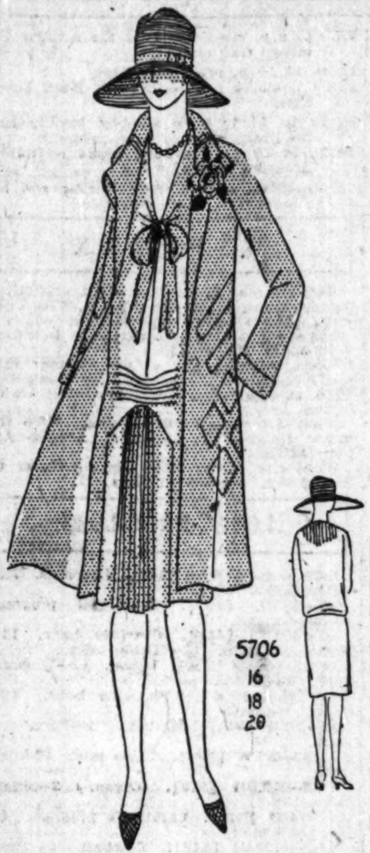
Transparent Coats Are Considered Chic



by Corinne Lowe

NEW YORK.—[Special Correspondence.]—Although coats this season are up to many tricks, the newest arrivals are quite transparent. Yes, we can see right through them. But that's just what they mean us to do, for they are often unlined and made of georgette or wool etamine, which permits the glimmer and shine of the frock underneath to give them color.

Such effects are produced both by short jacket costumes and by formal ensembles. One charming example of the former type poses over a one piece frock, a short coat of etamine fitted snugly at the hips and tied with a bow at one side. The frock sponsors a printed top section and an etamine skirt lined with the same print and wrapped around to accord with the side fastening of the jacket. Georgette serves to articulate the same idea. Often, however, a coat of this material shows a second layer or lining of lighter or darker tone.

But for the average woman who depends altogether on one ensemble for street wear, nothing is so good as that reliable style favorite, crêpe. Today we are showing an ensemble in one tone of beige crêpe. The one piece frock is distinguished by particularly charming lines—pin tucks at the back of the neck, horizontal tucks at the low waist line in front and an interesting skirt seaming with a group of fine plaits directly in front.

Flaring from the shoulders and showing a double rolled collar, the coat is ornamented by appliques in self-material of diamond and chevron-shaped pieces. Finishing details comprise a matching flower on the coat and on the frock a bow of the type so beloved by Patou. Let me say in conclusion that Vionnet and other style artists in their midseason showings stressed beige coats with particular emphasis.

Recommended!

The best recommendation any girl carries into the business world is a youthful, attractive appearance like that of Miss Mabel Olson, 323 President Street, Brooklyn, N. Y. She says: "I couldn't do without the delightfully soft, soothing Black and White Cold Cream, which smooths out the tired lines from my skin at the end of the day's work and makes it feel and look fresh and glowing. It doesn't give wrinkles and crow's feet a chance to form, and it keeps my skin velvety and blemish-free."

You, too, will appreciate the wonderful way Black and White Cold Cream nourishes the glands and tissues and seems to awaken the skin to new activity, keeping it always youthfully lovely. Over 80,000 dealers everywhere recommend and sell the generous 50c and 25c jars of this dainty cream.

If your dealer doesn't have the Black and White Beauty Creations you want, send his name to Plough, Dept. 114, Memphis, Tenn., and you will receive FREE, a copy of the Birthday and Dream Book, containing many interesting facts on beauty, dreams and fortune telling.

An innocent looking brown eyed little boy came over from the new house to play with Jackie. He looked like a most desirable companion, but after a time Jackie came in crying and said the new playmate had struck him on the nose.

"Mercy!" exclaimed his mother, "I am surprised, for he has such a nice face."

"Well," sobbed Jackie, "his fists don't match it." C. E. S.

Lutheran Choir Sings Self Into Elmer's Heart

Irving Park Church Club Gives Last of Concerts.

BY ELMER DOUGLASS.

The Irving Park Lutheran church choir, giving a concert over W-G-N from 10:23 to 11:05 last night, sang itself to the top of this column.

Included in the program were early modal hymns of the Palestrina and Lasso type, the singing of which meant volumes; Negro spirituals, sung in thorough concert style; lengthy secular selections that were typical of a choral club instead of church choir. Harry T. Carlson directed. This was the choir's last radio concert for the season.

The Cosmopolitan School of Music concert, Orchestra hall, WLS, 9 to 10:15, would have been better had it been a clearer broadcast, but it was attracting, anyhow. Rosseter G. Cole's "Heroic Piece" for orchestra and organ was heavy, but the organ was heard but faintly. Flora Waalkes, soprano soloist, was heard to fair advantage. The first movement of Grieg's Concerto in A minor, with Ruth Radkey as piano soloist, came through good.

The spinning scene from Wagner's "Flying Dutchman," given by the Adolph Muhlmann opera ensemble, WMAQ, 9:30 to 9:50, afforded pleasant reminiscences of this composer's peculiar toned early work.

Flora Hardie Burditt, contralto, with a magnificent round toned and colorful voice, made impression in her brief recital of Scotch songs, WMAQ, 9:10.

The Crusaders male quartet was credited last week with being WJZ-KYW origin. It is of KYW, Chicago origin.

There was a WJZ-KYW, 7 to 7:30, program in which a string quartet played Mozart's quartet number. It was as delightful as one could wish. A soprano soloist who delt in operatic arias of the ahhhhhhh, ah, ah ah, vocalization, gave a good lesson for singers in what not to do to be popular among radio audiences.

The Fisk Jubilee singers, WJZ-KYW, 8 to 9, did not compare with the program given in the Maxwell house concert orchestra.

KENNEDY ESTATE INVENTORY BARES REALTY LOSSES

Heavy losses in Florida real estate investments are reflected in an inventory of the estate of the late Burr A. Kennedy, approved yesterday by Leon Edelman, assistant to the probate judge. The face value of his investments approximate $1,500,000, but many of the items are listed as of doubtful value.

Mr. Kennedy, a retired real estate dealer, died Dec. 2, 1925, at the age of 77 years. His will divides the assets among his widow and two children.

Personal property shown in the inventory totals $9,800, cash $40,000, and the balance in stocks, bonds and real estate. Stocks rated as "good" are, at par:

300 shares International Harvester company, $30,000.

650 shares Hamilton Brewing company of Ontario, no par.

131 shares Brinks Express company, $13,100.

The doubtful list included:

23 shares common Cornell Wood Products company.

170 shares preferred Cornell Wood Products company.

50 shares Highland Construction company of Florida.

83 shares Ransome Concrete Machinery company.

Trust deeds and promissory notes on Florida real estate, with a total face value of $76,156, are included in the doubtful list.

The heirs are Mrs. Mary Louise Kennedy, 4443 Beacon street; George E. Kennedy, 4194 Clarendon avenue, and a daughter, Miss Lula A. Kennedy.

BOARD OF TRADE GRAIN TRIAL FOR THREE IS OPENED

Trials of the three former Armour Grain company officials on charges relating to the condition of grain in the Northwestern elevator during the operation of the Grain Marketing company in 1924 were started before the Chicago Board of Trade directory yesterday. It is expected that the hearings will last two weeks.

The case of George E. Thompson, former general superintendent of the Armour Grain company elevators, has been taken up first and will occupy several days. John Kellogg's case is second and that of K. V. R. Nicol third. Each case is to be tried separately. The general public is barred from the trials, but they are open to members of the Board of Trade. The decision will be announced at the close of the hearings.

RADIO STATIONS PROTEST AGAINST NEW FREQUENCIES

Evidences of dissatisfaction over the new allocations of radio stations' frequencies and power which are scheduled to go into effect on June 1, materialized yesterday in both Chicago and New York.

In Chicago two stations appealed to Commissioner Henry A. Bellows, the midwest member of the federal radio body, and were granted hearings before the commission. Station WJAZ, which was granted a frequency of 1,140 kilocycles or 263 meters, will be heard on May 27 on its request for 770 kilocycles or 389.4 meters. Station WGES, which was assigned to 1,240 kilocycles or 241.8 meters, has been granted permission to use 930 kilocycles, 322.4 meters, until its claim is heard between June 1 and 10.

In New York, Charles Burke, business manager of station WFRL, announced that invitations had been issued to 29 stations in the Metropolitan area to attend a meeting today to protest against the new allocations and to attempt to get a postponement of the ruling which will put them into effect on June 1.

A REAL HONEST OFFER TO MEN WHO WANT TO MAKE EXTRA PAY TO SEPTEMBER 1ST, 1927.

You are not going to sell books, bonds, stocks, or merchandise. This is absolutely a brand new idea that puts real money in your pay envelope every Saturday night. Easy to learn, no red tape—good pay while learning, and I can use you four hours a week during your spare time until September 1, 1927. COME TO MY SPECIAL MEETING, 8 O'CLOCK, FRIDAY EVENING, MAY 27TH, and get my bona fide offer for four hours' work.

No matter what you are now doing, employed or not—age does not matter—any man who can give me four hours' time each week will be rewarded. I can also use a few men full time. I offer a big, wonderful opportunity—the biggest thing I have ever offered any man in my life—and any man who is sincere and will follow my plan will not be turned down. You will get a chance

AND GET PAID BIG.

Give yourself a chance to learn that certain something that will always serve you in times of need — that will open the door to real financial gain. Learn my plan that will put you out of debt and eventually take you away from that weekly wage class and carry you to the heights of financial success.

Bankers and big business men of the world will open their doors to you if you will but listen, learn and apply my simple, easy money making way that requires little or no training, no capital invested and only four hours a week of your time.

For your special benefit I am going to hold a meeting where you can come and learn my new way that will put you where you would like to be in the business world. Money and your own future demands your attention at this meeting. BE ON TIME. BE PROMPT.

I want no expert salesmen. I only want real men who have ambition, who want to meet their obligations and will give me four hours' earnest effort every week until September 1, 1927. A good pay check is waiting for you if you will go after it.

My name will not appear at the bottom of this advertisement because I have trained and paid big money to hundreds of Chicago men in the last few years, and I want to see new faces—meet new men. I want some new men now who have never had the opportunity of getting ahead with a real money making idea, and I want new friends and new acquaintances to add to my old ones. I have made hundreds of men happier and better fixed financially than they were before they started with me. Many now own their own businesses — some are extremely rich. New men—new pep—new ideas—bigger money than ever before—that's my plan to reveal to you Friday evening of this week. I will give you a helping hand that will bring you more pay, more contentment and joy in your life than you ever imagined could be possible. And you won't have to slave for it, either. FIGURE THIS OUT, THEN LET'S TALK IT OVER.

You've got Sales Ability—how much is it paying you?

Proven Sales Ability pays from $10,000 to $25,000 a year in our business.

Figure it out for yourself: One average order a day pays $100 commission. We have men selling three orders a day—figure that out.

You can discount these results if you want to—we don't have to. We have the Proof.

Central Western territory is given you under contract, with enough potential prospects that will assure you of these earnings.

When you tell us about yourself we will tell you all you want to know about us.

When you can lay your sales ability against our opportunity you will awaken to the magnitude of what we have to offer you.

As this is a 50-50 split—your sales ability against our reputation and our resources—let's lay the cards on the table, and we will figure it out together.

YOU CAN'T AFFORD TO PASS UP THE GREATEST OPPORTUNITY IN CHICAGO TODAY, SO MAKE UP YOUR MIND TO ANSWER THIS AD. BUT THIS OPPORTUNITY WILL NOT LAST LONG.

"Don't grope in the dark," dreaming of extra money. You don't have to "pound the pavements" or go off on a "wild goose chase." Every ambitious person in the city of Chicago would be amazed and glad to avail herself of this opportunity if she only knew the facts. YOU DON'T NEED EXPERIENCE AND YOU WON'T BE ASKED TO SELL ANYTHING. Briefly the city's new administration program has made it necessary for us to open an entirely new department and has created an opportunity unparalleled for people desiring an EXTRA WEEKLY INCOME. Work WILL NOT CONFLICT WITH PRESENT EMPLOYMENT. NO SELLING. NO SCHOOLING. NO RED TAPE. These positions can be filled during the spare hours [during the evening] of housewives, teachers, nurses, business ladies, and office workers. Full time positions can be arranged for those desiring permanent work. ABSOLUTELY NO EXPERIENCE REQUIRED. FINANCIAL CO-OPERATION GIVEN from the start. You should earn NOT LESS THAN $35 PER WEEK from the moment your name is placed upon the company's rolls. Of the scores of happy workers recently employed very few are earning less than $50 per week and working but one hour per day. Positions [part time or permanent] are EXTREMELY SIMPLE in pleasant surroundings and most congenial atmosphere.

Do not confuse this ad with another of similar wording, for YOU WILL NOT BE ASKED TO SELL ANYTHING AND YOU CAN EARN FROM THE MOMENT YOU START.

This is real. This is genuine. Here is an opportunity to earn a REAL BANK ACCOUNT DURING the summer months. Scores of new applicants have been given employment during the evenings after business hours, and even the office boys earn $35 per week. You can answer other ads every day of the week, but, remember, you can only answer this ad Friday evening at 8 o'clock. YOU SIMPLY CAN'T AFFORD TO MISS IT. Knowing how and why means extra MONEY during the summer months, A BANK ACCOUNT, AND A FREE VACATION.

I'LL NEVER RENT AGAIN

"Until three months ago I had no conception of the difference between renting an apartment and owning one. I will never rent again. Even though I were not saving close to 30% over rent, equal to a 13% return on my invested capital, I would not sacrifice the happiness we are having as Tenant-Owners in 1320 N. State.

"Together with the other families here, I can choose my neighbor. We are always assured of a congenial group. And the character of our building and its ideal location naturally attracts the very class we prefer.

"My apartment has many advantages over any home that we have lived in. Our rooms are just as spacious, our quarters are just as private, but our cares are infinitely less. I can drive to my office in 5 minutes and even walk it in 15. Yet once in our rooms, we seem as far removed from the city as any suburban home. The better servant accommodations have solved our help problem."

This expression from one of the present tenant-owners will interest any one considering an apartment in this choice district. What he has said applies to any of those still available in 1320 N. State. A representative in the building every day will be glad to show you the one 6 room and the 7, 8, and 9 room apartments, a few of which have a 2 story living room and duplex arrangement. A model apartment is furnished to give you an idea of how beautifully the rooms open up and the extent to which they can be decorated.

Write today for our brochure, outlining in detail our financial plan and the appointments of this unusual building.

STUDEBAKER SEDAN.
We have just received a special six Studebaker sedan which was used only about one year by the wife of a prominent loop banker. This sedan cost considerably over $2,000 with its equipment and presents an appearance which will appeal to the most discriminating person. There are no mars or blemishes on either the body or fenders, showing that the car was given the best of care. Here is a snap for some one as the price we've made is less than half its original cost. The motor runs very quietly and smoothly and is guaranteed under Studebaker's Used Car Pledge. An early inspection is invited.

Equipped with bumpers, motometer, rear vision mirror, spare tire, automatic windshield wiper, etc. Here is a sedan which is better looking and better mechanically than many cheap new cars selling for $1,100 or $1,200.
